Rice Institute Band Plans Texas Tour

MUSIC GROUP TO TAKE TRIP BETWEEN TERMS

LEADING CITIES WILL BE VISITED BY OWL ORGANIZATION

Pep Parade For SMU Tilt Is Abandoned

There will be no parade opening the season when the Owls meet the Mustangs on November 9th. In the past the Owls have opened the football season with a victory march through the streets of Houston, but this year the Owls will open the season on the field against the Mustangs of SMU. "It was the Owls' policy to hold the parade for the last game of the season,"declare the Owls, "and this year the Owls will do just that.

THE RELRISHER
THE HONOR SYSTEM

It is just as impossible, of course, to make a dishonest man honest by a word as it is to make an honest man dishonest.

So naturally the college tries to find some way of distinguishing the honest from the dishonest and of rewarding the honest and punishing the dishonest. It is the policy of Rice to test in this way the student's adherence to a code of honor that the student himself signs.

To under this system the student signs his name. This is one of the most important points in the code of honor. 

This is the equivalent of a sworn oath and the violation of the pledge is perjury.

The second thing is that the student who is caught cheating is not only banned from the honors system but is also banned from the society of students. If every student were to do this it would put an end to cheating.

But, nevertheless, the honor system is still being practiced and is a necessity to all, but especially freshmen, in time.

"I have neither given nor received help on this exam," is the official form of pledge used in all Rice Institute examinations. Under this pledge the student signs his name. This is the equivalent of a sworn oath and the violation of the pledge is perjury.

The form used does not require the student to state that he has not heard or read. The fact that the student has not heard or read is known to him and the instructor.

The form further states that the student, if he is caught cheating, will not stand for any, but that he will stand for himself.

In the mind of a Freshman there may be no distinction between cheating and being dishonest, but if he gets it in his head that he will stand for himself, he will stand for his own honor.

The form used in all Rice Institute examinations, and the system in general, is a way of testing the honor of the students and of rewarding the honest and punishing the dishonest.

Rice is a school of sportsmen, because Rice is.

The main thing is that visitors to Rice and Houston should be made to feel that Rice is a school of sportsmen, and that Rice is.

The first unsportsmanlike incident to happen at Rice Institute has been the substitution of a new plan where the student who is caught cheating is not only banned from the honors system but is also banned from the society of students. If every student were to do this it would put an end to cheating.

But, nevertheless, the honor system is still being practiced and is a necessity to all, but especially freshmen, in time.

Miss Miller was determined to win Saturday. The Mustang stronghold is passing; the Owls are outplayed during the three opening quarters of the games rolled up a total 169 points to her opponents. SI has not been defeated, who looks like a sure contender for the most imposing club ever seen on a football a team can be as good as it depends on the coach and the team knows, but it is pretty certain that after his weather kept him from exposing them to beat Appell 6-3, 6-3. However, the Is in winning nine consecutive games, allowing will be followed by the regular passing of the work by which she set at 6-0, but the first set at 6-0. Clement North, Rice's 6-4. "We don't always talk "shop" here. Attend those pep rallies!" LANDERS, KING & SMITH
Theannel of biology is concerned with the study of various organisms, even taking a trip around the world to study the flora and fauna of different regions. There was a bunch of flowers that I had to identify in biology class. I was on a nature walk one day when I saw a beautiful flower that I had never seen before. I asked my friend to identify it for me, but he was too busy that day. Anyway, I brought the flower home and I could only trace it to the biology teacher. There was a great feeling of excitement when I traced it to the biology teacher. We had a lovely time and the teacher took the time to explain the beauty of the flower to me. He even gave me some tips on how to care for it. He was a true friend and I was really grateful for his help.
