BIDS ARE TO BE ISSUED FOR SATURDAY DANCES

ALUMNI VOTE TO ADOPT THERESHER AS NEWS ORGAN

System To Restrict Attendances; Undesirable At Weekly Weeklies

New Rules To Be Explained Fully At Commons Saturday Night

A system of bids designed to restrict attendance at all Saturday night dances will be in operation immediately, it was decided by the dance committee of the Student Association and the Executive Council of the Student Association. The Rice Athletes in special session last week were called to order to discuss the matter, and then will have for the purpose the wording out of understandings at all Rice dances held at the Athlete House and the Commons.

The dance committee of the Student Association is composed of B. J. Stovall, Miss Alice Jones, J. R. Rice, A. M. Vigneron, P. W. Maddox, E. W. Eakin, J. H. Smith, and A. F. Rice. The dance committee will have the privilege of making appointments as well as making decisions on the wording out of understandings at all Rice dances held at the Athlete House and the Commons.

•VARSITY QUINTET!

VARSITY QUINTET IN NOVEL CLASS

Champion Goal-Tenor as Gold

Gold Basket Ball

Coach Preston T. Askew has set up a

novel scheme of promotion within the basketball team. With the winner of the competition to receive a gold basket ball.

Starting this week, the novel event will proceed every thirty minutes of which time the entire team will receive a gold basket ball. This means that the entire team will receive their own gold basket ball. Different positions will be taken by the men, each with the

respective unique form of the novel, with the purpose of making the most of the ball. Every day part of the squad will be eliminated. Survivors will be cut by the first night, eight the next, four the next, two the next, and the last night the championship will be decided.

The competition will take place each week until the basketball season is over. The champion for each week will be allowed to wear the gold basket ball until the champion for the following week has been decided.

At the end of the season, the player with the greatest number of wins will be named the average basket ball winner.

This competition will furnish an incentive for more accurate goal shooting and will automatically increase the skill of the Owls aggregation.

Coach Askew started Thursday night with his first edition and saw the only edition that Washam upset all hopes when he made his bench-breaking score for the Owls.

The Owls would he returned winners, but

A smoking pleasure that never fails

Here is the outstanding fact of the entire cigarette industry: Camel never tires the taste, no matter how liberally you smoke them; never leaves a cigarette after-taste. Only the choicest tobaccos that nature produces, only the finest blending ever given a cigarette could produce a smoke that never returns to please, that always brings the utmost in smoking enjoyment. Regardless of how often you want the comfort of a smoke, of how steadily you light one after another, Camel will never fail you, never give you but the finest thrill of smoking pleasures.

That is why Camel sales, be far the largest in the world, keep overwhelmingly in the lead. Increasing millions are discovering the incomparable Camel quality — smoothness and mellowness.

If you want the one and only cigarette that's good to live with — Buy a Camel!
Society

Homecoming brought the big 
annual meeting of numerous 
announcements from all around, 
symbolizing the success and 
progress of the institution. 
Miss Sarah Laws, Miss Dusty 
Deshields, and Miss Elizabeth 
Smith were among the notable 
attendants as they addressed 
the meeting.

The annual Thanksgiving break 
was celebrated with high spirit 
and enthusiasm. As the 
seasons change and the 
dawn of the new year approaches, 
the Sandwich Shops bring out 
their "Brooks System."

"Man-power"

Four million of the best man-power of Europe 
perished in the Napoleonic conquest. Military con-
quest is non-creative, while industry is always 
creative.

In the last ten years one American manufacturer— 
the General Electric Company—has created machines 
having a man-power forty times as great as that of 
all the lives lost in the Napoleonic wars.

In the years to come, when the college men and women 
of today are at the helm of industry and of the home, 
its potentialities for men-power, which is work, will 
be realized more and more, and that human energy 
is too valuable to be wasted where electricity can do 
the work better at lower cost.
