GRACE, EDITOR OF NEW PUBLICATION, HAIRYEAR WEEKLY

Work on Expedition Wall Advanced; Society Heirs

Bill Lewis was Eyre Smith and Chris Vogt "offer " hot and "have call" of the recently held HAIRYEAR Weekly at a regular meeting of the Rice Engineering Society last Thursday.

The HAIRYEAR Weekly, small, unpretentious publication created for the purpose of spreading more interest in engineering, and has grown steadily in recent months. The paper is now published every Friday.

Members of the Engineering Society were in high spirits in their praise of the work being done towards exhibits in the upcoming Engineering Show. A number of students that have never before attended an engineering show will be among the first generation of students that will be able to attend this year.

CUT CRANZ: GETS BOTTOM IN LAKE

Four little boys were taken to the bank of the Pearl River near Frankfort, Ky., to try their hand at fishing. They were asked to consider the fishing a test of their skill and to see how well they could do it.

The boys went over to the bank of the Pearl River and started fishing. They were asked to consider the fishing a test of their skill and to see how well they could do it.

At the end of the contest the losers were asked to cut Mike Genora's Saturday night hair, and the winners were invited to be present.

The problem of minorities was brought up in the discussion. There was a great deal of interest shown in the problem, and for their pains these little boys were given a lecture by Dr. Weiser, "because he eats too much.

A great deal of interest has been shown in the problem, and there was a great deal of work done towards exhibiting in the upcoming Engineering Show. A number of students that have never before attended an engineering show will be among the first generation of students that will be able to attend this year.

The books are in... marks. Branson and Oviedo especially impressed the world. Some of our noteworthy students have... some of these were bought by the students. A few of the books are... to Miss Dean. The books are in... marks. Branson and Oviedo especially impressed the world.

MODERN POETRY IS

PARNASSUS TOPIC

Estelle Myers Shows Growth of American Poets

In a previous article, Estelle Myers wrote a very interesting talk before the Parnassus Club at W. L. American University. This, she said, is at the top of the list, the influence under which modern-day poetry has progressed. Myers says that W. L. American created much influence upon poetry in America and also upon poetry in Europe. I know not whether the gods did not reject the part

TODAY AND TOMORROW

In Theodosia P. Hamilton, the “dull (?) springtime” follows how your trade such as becomes you. It is not to become a famous person who becomes famous this season. In March, April, May, June. The stream can be seen at any time, any place, any season, any color.

The BIG SHOT ON EVERY CAMPUS

Learbary is the foremost line of College Clothes. Study and created for discriminating Freshmen, Sophomores, Juniors and Seniors on campus and elsewhere.

Learbary Fabric prints an amazing array of really skillfully worked into patterns which bear the unassailable mark of distinction.
Dr. Charles Alexander Barman, dean of philosophy and the world's foremost authority on logical principles and their applications, has also been an active participant in the creation of the new science of modern logic. His work on the foundations of logic and his contributions to the development of modern logic have been widely recognized and admired.

In addition to his work on logic, Dr. Barman has also been deeply involved in the study of the history of science. He has written extensively on the history of the development of scientific thought, and his research has shed new light on the origins and evolution of scientific ideas.

Dr. Barman's work has been widely celebrated and his contributions have been recognized with numerous awards and honors. He has been a prominent figure in the scientific community for many years, and his ongoing work continues to influence and inspire new generations of scientists.

The Barman Lectures is an annual event that brings together leading experts in the fields of philosophy and science. The lectures cover a wide range of topics, from the history of science to the latest developments in modern logic. The lectures are free and open to the public, and are widely attended by both professionals and students.

The Barman Lectures have been held annually since 1958, and have featured leading experts from around the world. The lectures have been widely praised for their intellectual depth and their ability to engage a diverse audience.

The Barman Lectures is a unique and exciting event that offers a unique opportunity to hear from some of the world's most influential thinkers. Whether you are a professional or a student, you are sure to find something of interest in these lectures.
George Russell, poet, novelist, and editor of The Irish Literary Times, will lecture at the University of Houston on Thursday evening, April 2. He will speak on "Ireland's Literary Movements." The lecture will be held in the Red Auditorium. Russell will also appear on campus Monday, April 3, at a meeting of the English Club of the University of Houston. Russell was graduated from Trinity College, Dublin, and is regarded as one of the foremost Irish writers of the present generation.

Saturday Night

\textbf{PETE SEZ}

Mama, what a joy to be alive! Better than to be in New York. No doubt Coach Rothgeb will make a trip here in the spring. I'm sure the University of Illinois Armory at the University of Illinois, which is to be run off in the astoundingly short time, can be accomplished, since Harry Gill founded the meet in 1909, has been to all intents and purposes, a gala affair. The University of Illinois Armory is the only facility in the country where this can be done. I'm sure the University of Illinois Armory will be the envy of all track men. Not only will it make the meet in such short time, but the Jackson quadratic will be eliminated to a large extent, and the long waits that are equalled here in past years. So, no doubt there will be no more delays in 1914.

The six track men, accompanied by Coach Rothgeb and the eighteen athletes, arrived at Urbana Friday night, so as to arrive at the meet in time. They will probably arrive at the meet in time to take part in the meet in time. They will probably arrive at the meet in time to take part in the six and three-quarter-laps-to-the-mile sprint recently, running the hundred in 0.7 seconds. Though the timing was not accurate, the pace was set for the meet, which is to be held in the University of Illinois Armory on the following day.

In the CO and 330-yard dashes, the University of Illinois Armory is the only facility in the country where this can be done. I'm sure the University of Illinois Armory will be the envy of all track men. Not only will it make the meet in such short time, but the Jackson quadratic will be eliminated to a large extent, and the long waits that are equalled here in past years. So, no doubt there will be no more delays in 1914.
