Girls Show Little Interest in Vote League Formation

At the monthly meeting of the Keough League of Women Voters last Thursday afternoon, there was a rather small attendance, the councilors commenting that this was the result of a lack of interest in the work of the league. However, they were optimistic about future meetings, as they feel that the intervention of the election season will bring an increase in the number of members. They are determined to carry on the work of the league even if only a few members are present.

Dean Williams will speak.

An announcement was made that Dean George Ouion Williams will speak. He will probably speak at the time of his graduation and also during the latter part of the month.

For the past week the attention of the campus has been directed towards a political campaign to stamp out corporal punishment in the schools. The campaign has been spearheaded by the student body, who have organized the "Kappa Society" to fight against corporal punishment. The society has been well received by the students, who have shown a great interest in the campaign.

Owls Determined to Redeem Selves After Past Reverses

By the unanimous vote of all in the educational line who have been watching the Rice Owls this year, it is clear that the Owls have not yet reached their peak. However, the Owls have shown great promise, and it is expected that they will improve in the future. The Owls will be facing tough opponents in the upcoming games, but they have the determination and skill to overcome them. The Owls will be ready to give their best in every game, and they will continue to strive for excellence.

A worthwhile prize will be awarded to the student who submits the best essay on the topic "The Importance of Education." The prize will be given at the meeting of the Rice Alumni Association, which will be held on the morning of Friday, November 12th, at the Autry House.

The penalty meted out to these students was discussed at a meeting of the three literary societies. The penalty was decided to be the suspension of the students for one semester. This is a serious offense and it is expected that the students will learn from their mistake.

Mr. Cabaniss, who has been head of the English department, has announced that he will retire at the end of the current semester. Mr. Cabaniss has been a valuable contributor to the campus and has taught many students. His contributions will be missed, and the department will miss his presence.

**THE IDEAL SOLUTION**

Convinced of the baseness of the Army House to care for Rice anyone any longer, Calhoun has conceded to the petitions of some three hundred Rice students and permitted the regular Saturday night affair to be moved to a larger hall. With chances for entrance and for dancing for the first time, Rice students have at last consented to the proposal of the Thresher which was at first looked upon as an end of the past experience.

The scheme which the Dean now endorses is this: All Saturday nights dances will be held at the larger hall. The doors will be open only to Rice Institute students and alumni, with the exception of the Thresher and the T. C. W. Whores. Under such an arrangement there would be no more Mohammadans than there are Christians. Under this restriction even the most indifferent individuals might overlook the bounds of good behavior occasionally. Being Rice students the hooligans will be reduced by half and the reputation of the Student Council will be characterized by this belief in the ideal method of handling the dances. A much larger dancing floor will be provided, and at the time of the new arrangement no people will be turned away by all University Club members on affairs held in their hall; it is hoped that the new arrangement will be as great an asset to the Rice as the old.

Unquestionably, this new system will work a hardship in some measure on the senior class, the orchestra, and the outsiders who become habituated. The senior class will lose a certain amount of profit because of the reduced number of admissions, as well as prestige. The cost of renting the downtown floor will, of course, be an item of considerable expense. If the faculty approves of the first few moves the school will soon have a reputation for delinquency, a position not pre-eminently that of Fogshower.

The scheme now indorsed is this: All Saturday nights dances will be restricted only to Rice Institute students and alumni, with the exception of the Thresher and the T. C. W. Those who wish not to go will be barred from the dances, and assure the most Rice.

There is much speculation as to whether there will be another war, and if so, whether it will be a war of the future, or a war of the past. The only thing certain is that it will be the end of the war.

None of us know what to expect, but if there is another war, we shall have to be prepared for it.

Well, things are getting worse and worse day by day.

FAMOUS CAR IS CAMPUS WRECK

A long, bulbous body has been found in the campus, and it was immediately decided to place it in the campus. This is because the campus is a wide one, and it is necessary to have a wide one.

Some say it is a car, and others say it is a large, bulbous body. The main point is that it is a wide one.
