LES HIBOUX VISIT LA SALLE, NO "VIN"

Les Hiboux French Club made a trip of inspection to the French Line boat, La Salle, Sunday afternoon. The party of about fifty people, mostly men, went down on the boat and rode around the docks, only to find that the necessary arrangement had been made for the required pass to be on board. The party's últimos were the handsome girls and they selected their respective beauties from their hands. Another genuinely entertained a few of the visitors by pretending to play an imaginary instrument.

When everything had been explained, the students adjourned to the rooms and were served tea and French crackers. Several of the club members entertained a few of the visitors by playing the banjo.

choose their captains and mood val- uable players. As their first hour in their place a flash of expectancy seemed to pass. Their voices rang forth the name of the hungry and the "Spud" were encountered by a green-eyed young lady with a quick smile. The game was played off as the Pickle's player joined the other end of the La Salle to the other, but without being able to answer in French, none of the girls could flirt with the sailor. One lad, however, lent a note of politeness by taking a box of chocolates from his pocket and a box of crackers from his hands. Another genuinely entertained a few of the visitors by pretending to play an imaginary instrument.

Something should be done about those milling machines in the M. E. building. No effort has been made to keep them in order. It seems that those milling machines in the M. E. building were set up, but they have not been given a chance to operate. It seems that these machines are not being used to their full potential.

Every student should be aware of the importance of these machines in the M. E. building. It is important to keep them in good condition.

Civil Engineers Will See Picture

At the next meeting of the A. B. C. E. on Sunday at 11:00 o'clock, the movie picture "The Aeronauts" will be shown. The picture was filmed in the hills of the historical Baja California peninsula, 300 miles from San Francisco. It shows the construction of a great hydroelectric plant on the famous Parker River, famed for its scenic beauty. The picture demonstrates the non-commission way in which a great dam is constructed.

Aircraft Company Offers Prizes for Aviation Articles

To interest more college students in aviation, the Alexander Aircraft Company at Colorado Springs offers a new prize for the best student article on aviation. Students are invited to submit articles, technical or non-technical, for possible publication in a new aviation magazine with 20,000 circulation. The best contribution each month will be published in the Alexander Aircraft, a magazine with 70,000 circulation. The winner of the best series of four short stories will be given a scholarship to any college of their choosing.
