Sallyport and Elsewhere

By B. D. DRAKE

From none or very low enumbered attendance to a really enthusiastic crowd of students, the Architect House who were watching the architectural show on campus last week will be pleased to know that they should have been there. It was a success, and it was held to some extent in a fine weather. There is no way to get a fine weather, but it was a fair start on the Architect House series of events. After the Architect House series of events, the Architect House series of events will be held in the auditorium on campus. It is a very good idea to know that there is a fair weather on campus, and you can get to know it by seeing what the Architect House series of events are doing. The Architect House series of events are held in the auditorium on campus, and they are good weather on campus.

PRIZE IS OFFERED FOR FARM THESIS

Content Will Be Open To All Rice Students and Graduates

An attractive prize for Texas College that best is being conducted by the Agricultural Publishers' Association and is open to all students and graduates of Texas Institute.

The first price will be $25, with a second and third prize of $15 and $10 respectively. The contest is made public under the following announcement:

"Farm publications constitute an important part of the agricultural literature. The contest is being held to encourage interest in this field and to stimulate the production of good publications. The contest is open to all students and graduates of the Texas Institute, and the entries will be judged on the basis of originality, substance, and excellence of presentation. The contest is limited to works on the following subjects:

1. The Economics of Agriculture
2. The Sociology of Agriculture
3. The History of Agriculture
4. The Future of Agriculture

Entries should be submitted by November 1 and will be judged by a panel of experts in the field of agriculture. The winners will be announced by December 1."

TINTING MOSQUITO HIKE WINS

Acclaims of Biology 220 Class

"This is the most surprising conclusion of the work appears in "The Natural History of the Mosquito" by E. C. R. Doctor. In studying the behavior of these insects, the class concluded that the mosquitoes are not only vectors of disease, but also play a significant role in the ecosystem. The class has made several observations that suggest that the behavior of these insects is influenced by environmental factors, such as temperature and humidity."

RICE THREMBER

WITH THE ENGINEERS

ROSS POND, Engineering School Editor

HAIRYEARS HEAR COL. I KE ASHURN WEDNESDAY NIGHT

R. W. Stone Announces Annual Ball for Nov. 11.

Col. the Adjutant, of the Federal Reserve Corps, and formerly with the United States Chamber of Commerce, spoke to a meeting of the Engineers Wednesday night held in Rice Auditorium, the occasion being the semi-annual meeting of the Engineers Student Council. According to the announcement made by the student council, it was hoped that the engineers would take advantage of the occasion to meet and to discuss various problems of interest to the engineering profession.

HAIRYEARS CONDUCT SECON Dock SEMINARS

Telbert, Van Zandt and Lee Standiford Speak to Engineers

The second weekly meeting of the Engineers brotherhood was held last Friday afternoon, October 3. This meeting was the first of the present school term to be conducted entirely by the students themselves. The two speakers for the meeting were the president and the secretary of the group.

The meeting began at 2:30 with Mr. Telbert, who was asked to speak on the subject "The Engineer and the Arts in Engineering." His talk was characterized by a descriptive description of the foremost achievements in the fields of engineering and architecture. He pointed out the importance of the engineer in making the city beautiful and the automobile comfortable. Mr. Telbert's talk was followed by that of Mr. Lee Standiford, who spoke on "The Engineer and the Law." His talk was more of a practical nature, dealing with the legal problems that arise in the engineering profession.

GEORGE KLUPPE Completes Ten Years for School

George Kluppe, a senior student in civil engineering, completed his tenth year in school last Saturday. Mr. Kluppe was one of the original members of the "Old Class," having entered school with the class of 1926. Since then he has worked hard and has become an outstanding student and an active member of the student body. He has taken an active interest in the promotion of the school and has been a credit to the engineering profession.

ATTENTION STUDENTS!

For self-supporting students desiring fascinating summer work either temporary or permanent, may I suggest that many of the smaller firms have started recruiting clerical workers and that careful study of their advertisements should be made in order to secure the best positions for available workers. It is always advisable to apply in person or by letter to the company directly in order to avoid the intermediate steps.
