AS THE Thresher SEES IT

The Thresher has been questioned as to what policy it will have in regard to candidates for the Student Council. The Thresher will support NO individual candidates. Being a newspaper of all the students, and not for any particular student, the Thresher feels it would be decidedly unfair to favor one student against another, when each student should have the right of equal representation in the columns of his student publication. In justice to each candidate, the Thresher will present the simple facts of his candidacy, without embellishment.

The Thresher will accept—rather, demand—announcements from each candidate.

The Thresher makes one requirement—that the candidate include his announcement in 100 words. Announcements will be printed at our discretion, and should be handed in before 11 a.m. each Thursday of the two weeks prior to the election.

The Thresher does not approve of the present system of having the student council members for two years. Thereupon, the Thresher feels that Rice is an undergraduate college and that the student council should have complete control of the student government.

The Thresher will not hesitate to point out any absurdities that might spring into the various campaigns, or in the case of any candidates who are willing to advertise their campaign, will issue these announcements and names of contributors, so that the students can judge for themselves.

CHALICE NATHAN

We found an interesting account about our Native Son, Harry Belcher, who was hunting in Canada when the Drake cardinals won the big game against the Westerners. As usual, Belcher was first encountered at the Chicago Henry's by lunch, companionship in his usual style. He had a fine time hanging around, and was later seen in the Drake cardinals' dressing room.

Harry has a lot of friends in the Drake cardinals, and is always welcomed with open arms. He is a great sportsman, and always has something interesting to say about the game. He is a good judge of players, and is always on the lookout for new talents.

The Methodist Student Union on the Rice campus, one of the oldest and most successful groups of its kind in the country, recently organized a Rice Student Union, as it is now known, the Methodist Student Union.

The Student Union, which is the largest group of its kind in the country, has a membership of over 1,000 students, and has been in existence for over 50 years.

The Student Union is sponsored by the Methodist Student Union, a national organization that promotes the interests of students at colleges and universities across the country.

The Student Union is open to all students, regardless of their religious affiliation, and welcomes students of all races, ethnicities, and genders. The Student Union is a valuable resource for students, providing support and resources to help them succeed academically and personally.
