*ibout a worthwhile change, the average American will never be satisfied of its real value until he has performed his part in the achievement of this change. For if the world is to be a better place, each one of us must be willing to help make it better. To be a part of the solution, we must be willing to face the facts, to take action, and to work with others. It is only through cooperation and collective effort that we can hope to effect meaningful change.

The world would be a better place if all of us worked instead of being satisfied with things as they are. We cannot expect others to do what we should be doing ourselves. Each of us must contribute to the betterment of society. And if we do not want to see things change, we should not hesitate to make the changes we desire. It is important to remember that no one person can bring about significant change alone. Only through collaboration and the collective efforts of many can we hope to achieve the change we desire.

Football rightly played is a great thing, but there are certain practices which prevent it from reaching its full potential. For example, there is the practice of "50-50" dating, which is a flaunting of one of the fundamental rules of dating. This practice is highly entertaining to the boy and Romeo. "Too many doddering old men have tried to play these games," the speaker said. "A gentleman may not have that kind of economy with others, and does not need to do so, but I think we have in the White House..."

Rice President Gives Speech of Introduction

Watkins, Wilson, Found, Scott, Annesley Smothers in College Movement Radio Program

His faculty members of the Rice institution, including Dr. Harry Goddard, Mr. W. W. Watkins, Dr. A. W. Wilson, Dr. J. H. Found, Dr. R. A. Scott, and Dr. William Annesley Smothers, shared in the American Liberal Arts College broadcast Sunday evening. On Wednesday, on one occasion at 8 p.m. in the institute, provided his introduction of the speech by a brief address.

"For more than 40 years of his association, said Mr. Watkins of the Rice department of architecture, the school was able to produce engineers who were able to build and to build well. A certain integration and interest, love, joy and wisdom, to live and build, to produce and to do all excellently.

The school of architecture is truly the nursery of the imagination. Art and life of the world of the founders of the science of modern education," said Mr. Watkins of the Rice department of architecture. By high standards, the Rice department of architecture is due to its ever-growing importance.

"If art is to 'make more gentle the ferocity of man. Hand in hand with the age-oid desire to build and to build well, the nursery of the imagination. Alert and provide opportunities for the acquisition of desirable standards of moral and mental conduct." "

The test was due to its ever-growing importance. Those students who accept for admission to a medical school need fail. The test is to be taken immediately. The test is not given more than once a year.

The test will require slightly less than two hours. Each student should arrive with his two well-sharpened pencils and a list of 100, which will be printed in the Department of Education. The test is prepared in advance of the test. The required set of reference materials, including the use of modern Ultra Violet Rays, includes the use of modern Ultra Violet Rays.

The process that expels certain harsh, biting irritants naturally present in every cigarette, these particular irritants are not present in your LUCKY STRIKE.

There’s nothing like a microphone to show up the voice in its true colors. So I insist on Lucky Strike—the cigarette that’s a winner all the way. And you’ve certainly scored another hit with your new style Calliphone wrapper that opens so easily.

The Let's Play Cops

The bowling season is just starting, and the final two games on the schedule will determine if the A and B teams are to be declared intramural champions. The final two games were played off on the schedule, so accurately and record of the season will be held later in the year.

Following is the standing of teams after the first five games:

**A Team**
- Jeff Roberts
- William Wallace
- Harry Fouke
- Tom Dunbar
- Tom Jordan

**B Team**
- Wilmor Meredith
- Robert Miles
- W. H. Shafner
- Richard Moors
- Norman Seabrook

The Town B team also proved a strong group, as the only group entered failing to win in four starts.

THE SLIMES

Camel Slims are blended of fine Turkish and mild Domestic tobaccos that are never subjected to violent processing. That's why the Camel Humidor Pack is such a boon to the smoker who likes the smooth, palatable, cool taste of Camel cigarettes. It is as if you were smoking a cigarette that had been aged for years, with the added benefit of never having to remove the moisturizing wrapping from your package. You get the same great taste every time, without the hassle of unwrapping. That's Camel Slims, the cigarette that's been smoked for years.

**CAMELS are FRESH in nature's own wild way!**

EVERYONE knows now that CAMELS are the fresh cigarette. If inquiry went deeper, it would reveal that CAMELS are the natural moisture cigarette.

That's important, because in handling fine tobacco, when you process out natural moisture, you sacrifice freshness and flavor too.

Camel smokers needn't worry about that, because CAMELS are blended of fine Turkish and mild Domestic tobaccos that are never subjected to violent processing. They need no parching or toasting to make them smooth, palatable, cool.

That's why the Camel Humidor Pack is such a boon to Camel smokers—it preserves the freshness, flavor, natural moisture, fragrance that are in this fine cigarette to start with.

CAMELS are fresh in nature's own wild way, and if you want to see what that means, try Camels. You can find them at your local tobacco retailer. For more information, visit CAMELS.com.
