Following is a list of fifteen important
actions of the year's study. It is an excellent
example of how the student can make the
most of his time in the University.

1. To keep the home fires burning, keep
the spirit alive, and never lose faith.

2. To have a good time, keep smiling,
even though you may be tired.

3. To have a steady head, keep calm,
even though you may be nervous.
