"Undead" Slime Parade to Rally; Doc Blinder Takes Charge

The annual slimy "undead" parade will be staged tonight, according to George Brindley, president of the sophomore society and poll leader for the event.

Yesterday was appointed in charge of making all arrangements for the parade by the Helli Club Monday.

All shows will meet at the designated places at 7 o'clock tonight where they will be inspected by the officers before being started. With as few clothes as possible on, the companions will go down the street to the music of the band playing in the physics amphitheater. The parade will start at the normal place of assembly and march to the campus.

There will be a meeting held at 7 P.M. on Saturday to make brief addresses. Freshmen, who wish to make brief addresses, may contact the seniors in charge of the program.

Dr. Lovett Addresses Rice Class of 1937

**Freshman Day On Campus Is Wild Sight**

Smilie Comes To Rice in Costumes

One of the most unusual happenings of the week was the appearance of a group of boy in costumes designed by expert designers. They have been put together by the students in the art department. The costumes are made of various materials, and are put together with the aid of the students in the art department. They are all part of a series of costumes that will be used in the band's parade next week.

The costumes are made of various materials, and are put together with the aid of the students in the art department. They are all part of a series of costumes that will be used in the band's parade next week.

The band is planning big things for this year, and the parade will be the highlight of the week.

Scholar, Alumni, Committee In Charge of First Official Gathering

The first official Rice dance of the school year will be held at the university building, corner of Summertown and Emancipation, on Saturday night, October 8. The dance will be held at 9 P.M., and will be open to all students.

The dance will feature a popular band, and other activities will be arranged by the university building committee.

The committee is planning a variety of activities, and will announce the details at a later date.

**By JOE KOCUREK**

We have just been informed by the Department of Chemistry that the first order of rings will be taken in the near future.

The ring is made of a special metal that is extremely durable. The metal is treated with a special dye that gives it a golden color.

The rings are available in 10, 14, and 18K gold, and are priced at $5, $10, and $15, respectively.

The rings are made by the O. W. L. S. and are designed for the class of 1937.

They are currently available for purchase, and orders will be taken in the near future.
MATRICATION—Continued from Page 1
the top, and take care not to be too eager. The archaeological and historical material is abundant, and... is impossible to consider all of it in a single article. There is much that can be learned in... the New World. The material... is all there is in the New World.

Matriculation High-Lights

The undergraduate has under-

stood that the New World is the land of

riches, and that the New World is the land of

opportunities. He has understood that the

New World is the land of freedom, and that the

Support the Team

The enthusiasm of Rice, concerning its football team is similar to that of the first explorers of the new world. Those hearty pioneers, with their power yet untaxed, were out to discover a new field and pave their way. They were forced to struggle through strange territories of nature and against opposition from people of the Old World. This was true of the people outside of Rice who are skeptical as to the possibilities of their college’s winning even one mediocre game.

Regardless of the prospects that the Owl Grizzlies have of nailing a showing this year, the students are out to beat them in spirit. Our team will fight successfully. If the story bears a true picture of the campaign, confusion on the sidelines will invite only the team to action. The players on the field with grit and determination to win will force them to lose their secret without the support of us all a pep squad. Cheering stimulates such individual players, and when this happens it will power those, with his fellows when his spirit is at its highest. At the earliest moment the bell rings, every student will be there — even the old go out. In the course of the game, the spirit of the team’s competitor with George Bragdon, our hall leader and support that team with the sixth annual, "Rice Never Dies," Blanche Taylor.

An Appeal

We're not going to disgrace words. We're not going to think up a lot of long-winded phrases for soliciting funds. We're not going to use ambiguous sentences to cost us over what we have.

We're asking you in the most straightforward way we move to support our advertisers. We know that you will be the ones to advertise in the columns of Rice students. We believe that Rice students conductily do prefer to trade with firms which advertise in their college publications.

We want to support the firms which have seen fit to advertise in the columns of this publication, it would be impossible to go to death. We want to bring you those that have been invited to attend. The students are and always is going to be a very popular.

Our Dean

The selection of Harry boyer Wesner as Rice's new dean was a happy choice. We have no gain of the faculty better suited to carry out the varied duties of that office.

Dr. Wesner does not enter his new office, which he will handle in addition to his other duties as dean. He has had first experiences with undergraduates, both faculty and students, who have been invited to attend. That he did the job well is proven by the high opinion in which he is held by the students with whom he is in contact.

He has had more experiences with "students" as a father. He is a graduate of one whom, Dorothy, has entered in Rice in this year.

Engineering Profes at Fair

At the annual, Mr. Pershing of the Mechanical Engineering Department was named to the Board of Directors of the Society of Plastics Industry. He was one of the first men to receive his B.S. degree in this specialty at the time he was named to the Board of Directors of the Society of Plastics Industry. He was one of the first men to receive his B.S. degree in this specialty at the time he was named to the Board of Directors of the Society of Plastics Industry. He was one of the first men to receive his B.S. degree in this specialty at the time he was named to the Board of Directors of the Society of Plastics Industry.

Mr. White of the Civil Engineering Department was named to the Board of Directors of the Society of Plastics Industry. He was one of the first men to receive his B.S. degree in this specialty at the time he was named to the Board of Directors of the Society of Plastics Industry. He was one of the first men to receive his B.S. degree in this specialty at the time he was named to the Board of Directors of the Society of Plastics Industry. He was one of the first men to receive his B.S. degree in this specialty at the time he was named to the Board of Directors of the Society of Plastics Industry.

Javelinas To Put Veteran Team on Field

Coach Jack Meagher will send his veteran team this weekend to avenge the defeats suffered in the games schedule which opened on October 6 when the Owls took the field tomorrow. The game will start at 2 p.m. with the veteran T. A. & I. eleven on the field.

The Owls are hoping for an undefeated team this year, but only two Varsity men have suffered injuries that will keep them out of action. Saturday’s game will be a hard-fought battle, and Buddy Daniel, the team’s star, will be watching the game with interest.

The Javelinas are hoping for an undefeated season, but they must work hard to achieve their goal.
