Phi Betas To Hold Initiations Today

New Members Will Be Peteted at Cohen House
With Informal Dinner and Lecture by Doctor Johnson of Columbia

The Freshman Class

Evolution of U.S. Geology Known

By Dr. B. Johnson

Series of Lectures Given
In Physics Amph.
At Rice

Millions of years will be refined in one hour in physiography trends in a single lecture given at the University Club on Monday evening by Dr. B. Johnson, distinguished professor of geology at the University of Indiana, who will entertain the students at the annual Freshman Class Banquet.

Dr. Johnson will give an illustrated lecture on "The Origin of Caves" and "The Evolution of the Earth" in the physics amphitheater at 6:45 p.m. The student body is cordially invited to attend.

The banquet will be held in the Rice University Club at 7:30 p.m. The national freshman banquet will be held concurrently.

Chooses Cast of The Blue Ghost

Dramatic Club Presents Play at Houston Little Theatre

The cast for The Blue Ghost, which is to be presented by the Dramatic Club in the Little Theatre, was announced by Lunsford W. compilator, whom the club has selected to take part in the play. Dr. George Williams, B. J. Kuhl and F. E. Rice are members of the cast.

The Blue Ghost is the production of the Houston Little Theatre Club. The play is to be presented at 8:15 p.m. nightly from Monday to Thursday.

Rice Team Wins In Debate With State Normal

Affirmative Held By William Blanton and
a Liusan Ryan

Proclaiming a plea for increased education for all people, the Rice debate team defeated State Normal in a two hour debate held in the Rice Union Monday evening. The affirmative team was composed of William Blanton and Lewis Ryan.

In his opening argument on the affirmative side, Mr. O. L. Seawright of State Normal said, "The subject matter is education for all peoples. We believe in liberal education and the welfare of all peoples. We believe that all people should be educated to the best of their ability."

Mr. Seawright went on to say that it is the duty of the government to provide education for all people. He also stated that education is a right of all people.

On the negative side, Mr. R. L. L. Thompson of Rice said, "The subject of the debate is education for all people. We believe that education is not a right of all people. We believe that education is a privilege of all people.

Mr. Thompson went on to say that education should be paid for by the people who receive it. He also stated that education should be limited to those who can afford it.

The debate was moderated by Mr. J. O. H. H. of Rice.

Rice Debaters Are Judges At Try-Outs

Marshall's Freshmen Swept Up

The Rice debate team was chosen to serve as judges for the try-outs for the state debate team. The team was chosen by Marshall's debate team.

The Rice team consists of William Blanton, Lewis Ryan, and William Ryman.

The try-outs were held at Marshall University on Monday evening. The Rice team served as judges and selected the members of the state debate team.

The state debate team will be chosen on the basis of their performance in the try-outs. The team will represent the state in the national debate tournament.

Are Freshmen Capable? Are freshmen capable of developing their own ideas? Do they have the ability to think independently, to challenge authority, and to contribute to the intellectual life of the college? These are questions that all students face at some point in their academic careers. But for freshmen, these questions can be particularly daunting. They must learn to navigate a new environment, make new friends, and adjust to a faster pace of life. Yet, despite the challenges, freshmen are often able to rise to the occasion and prove themselves capable of intellectual growth. The key is to provide them with the support and resources they need to succeed. This may involve mentorship, tutoring, or simply creating a welcoming and inclusive atmosphere. Ultimately, it is up to the freshmen to take ownership of their education and to take the initiative to learn and grow.
Advice to Love Lorn
By an Experienced Skirt Chaser

Dear Advice-To-Lorn:

I am a freshman girl, twenty years old, but I am a bookish girl (or else), I would like to make a really pretty, but shy, girl my date for a year. I am planning to tell her, but she is a little older, and I am afraid I won't succeed, so don't ask me what it means. The dates that you don't want to go out with are better than the dates that you do want to go out with, but you should do something about it.

Sincerely yours,

Engineers Hear Wise, Hackaday
At Regular Meet

Department Managers Give Bi-weekly Report to Group

The Engineering Society heard two prominent speakers at its regular meeting last Wednesday night, Mr. R. M. Young, traffic manager of the General Electric, and Mr. T. H. Mabry, manager of the International Harvester Co.

Mr. Young, in his address, spoke on the importance of safety in the use of power plants, illustrated with interesting slides, on the necessity of proper power plant location at the home office of the General Electric at Schenectady, New York.

Mr. Mabry, general manager of the show, outlined the duties of the department managers for their bi-weekly reports. Both Mr. Young and Mr. Mabry expressed the belief that some new television equipment that has been developed may be expected to have a great impact in the near future, and asked the group to study the problem of television and radio to determine how they may be used for educational purposes.

In conclusion, the Chairman, Mr. H. E. Kline, thanked both speakers for their informative addresses, and suggested that the group consider the possibility of holding regular meetings to discuss technical problems and to promote the development of new ideas and methods in the field of engineering.

Intramurals
Open Practice For Spring Go

According to Dr. Johnson, the president of the Intramural Board, there will be open practice for spring sports starting next Wednesday night. The purpose of the open practice is to give the players an opportunity to improve their skills and to prepare for the upcoming season. The practice will be held in the gymnasium and will be open to all members of the Intramural Board.

If you have any questions or need further information, please contact the Intramural Board at their office in the Brown building.

May Fete Princesses

We are pleased to announce the selection of our May Fete Princesses: Miss Tuttle and Mary Hornback, who were recently honored in the grand unveiling of the May Fete Design at the Plant's Alumni Luncheon. Miss Tuttle, representing the independent faction in the contest, was chosen because of her leadership and enthusiasm.

the pipe tobacco that's MILD
the pipe tobacco that's COOL

—folks seem to like it
Two kinds of people are always in the last line. There is that person who come last, and there is the person who will be first. One is usually hungry, and the other is usually not. The latter is more likely to be the one who will be left behind, if only for a moment. The former is more likely to be the one who will be the first, if only for a moment. The difference is in the way they think, in the way they act, in the way they feel. The difference is in the way they look at life, at love, at knowledge. The difference is in the way they look at the world, at the universe, at the infinite. The difference is in the way they look at the future, at the past, at the present. The difference is in the way they look at their own lives, at the lives of others. The difference is in the way they look at the meaning of life, at the meaning of existence, at the meaning of being. The difference is in the way they look at the world, at the universe, at the infinite. The difference is in the way they look at the future, at the past, at the present.
