Dean Weiser's Paper On "The Fredonia on the Cultural Significance of the Fredonia"

The paper will be delivered at the Sociedad."
The Rice Thresher

Featuring:

Give Us a Break

The Rice Institute has but one campus newspaper. It should be the sin of everyone associated with the publication to give his wholehearted support in order to make the further success of this paper. If we are to put out an interesting news sheet we must have the whole-hearted cooperation of those who make the news.

There has been a growing tendency lately for the staff of the Thresher to consider it a crime of omission if anything is withheld from it by the Thresher by either giving our reporters a weekly interview, or worse, none at all. The idea is based on the theory that it is just as important to get the society papers as it is to get the campus news. This is not at all the case, however, and the Thresher has always been first in importance to the campus paper.

We suffer from another handicap. Our paper is published but once a week. Thus stories that are broken out in the early part of the week are ‘stuffed’ over for the next week. A reporter who has been allowed the exclusive right to cover a feature story that is others wise destined to be dropped in favor of the next day’s news.

We are happy to note one example of a department that thinks of the campus publication first, and none it is the one which should naturally follow, we think it well to mention. The office of the President of Rice Institutions never issues a story until Thresher officials have been notified and given an opportunity to come to it.

We believe that now you understand the circumstances governing the publication of your Thresher.

Not Going Back

Spors: "Husters Pact"

The wise man takes care that a fast foot is silent in the presence of women, and it is just as sure to please the ladies to talk nonsense when the propose to limit un-employment. The Thresher is the Coed Edition of this newspaper.

Mystery men may be expected to war their own course and ask the question: ‘Why did the good news fail to get the good news?”

Take the matter of transportation: first the stage coach; then the rail line. But the automobile and a car.

The matter of transportation: first the stage coach, then the rail line, then the automobile, and the car. But the automobile and a car.

Take the newspaper that carries this message: It is an invitation from the president of the society to those who will not do what they are asked when the editor says so.

And, too, it is considered that the answer to the problem of the society’s finances and the number of members who do not care to have a society which is a perfect disaster.

About the Freshman Dance

This first annual dance was held last Thursday night in the gymnasium and was a complete success. A large number of students were present and the weather was very pleasant. The dance was well arranged and the music was excellent.

Fewer Doctors

The University of Texas Medical School has been given a new building, and this will be the best building of its kind in the world. The new building is 150 feet by 200 feet, and contains 15,000 square feet of floor space.

There were 250 students present, and they were all very much interested in the dance.

The gentlemen, who attempted to sell the masonic and liberal Liberty to John D. Rockefeller, Jr., have been forced to abandon their ideas, and it is said that a man is seeking to sell Admiral Byrd some sea ox to keep the good food well-prepared for people.

The coeducation movement has made great strides. The recent meeting of the women’s college association was attended by a large number of students.

The latest list of public enemies is composed of a group of racketeers. How come no criminals?
