Getting kinda hard to get dirt these days, but we were given the go-ahead into the build-up of an unannounced lady persisted. It’s the crooked坞 window.

We wonder if the lady who was that day at Mr. McElroy’s was the same one who visited us on Monday. She seemed to be in a hurry and a bit with a mouth full of gum.

We hear the BILLY SCHLICK was a special guest behind the bar last night. He was in a very good mood.

Now we have the SOUTH HENDRICK on a very rare outing of a certain type. He seems to be a bit of a recluse these days. Why just another one this time? We’re not sure.

Now you can’t help but notice the smiles of the lady on the way in. She was wearing a fascinating necklace. Good aura about her.

FRANK LOVE pulled a “drama” or something when he appeared in the lounge last Thursday. He seemed to be in a very foul mood.

GEORGE BROWN, variously described as the smartest, the wisest, or the most charming, was at his usual place.

EUGENIA MILLIAMSON was patronizing the bar with her usual charm.

The way tobacco is cut has a lot to do with the way Chesterfield burns and tastes.

There are many different ways of cutting tobacco.

A long time ago, it used to be cut on what was known as a Pease Cutter, but this darkened the tobacco, and it was not uniform.

The cutters today are the most improved, modern, up-to-the-minute type. They are uniformly, and cut in long shreds.

The tobacco in Chesterfield is cut right— you can judge for yourself by the Chesterfield burn and how they taste.

Everything that science knows is used to make Chesterfield the cigarette that's milder... the cigarette that tastes better.
