Rice Women

The women write to Rice. What does it offer them? Here is not a society school. There are no dances and no sports. But it is a place of great possibilities, of the spirit of "struggle" and "service." There are no home possessions. The men are away and the girls are left to do as they please. We don't see why and you shouldn't see why, but the social instinct is there, and to have its way. The men want us to have something like, and we are trying to get something like, the social life in the act of development.

The Emperor of Abyssinia is known among other things as "Powers of Peace." He is the Poet and "King of Kings." Wonder if he'd be interested in a Kentucky colonelship?

There's something about a Chesterfield —

There's one thing I especially like about

Chesterfields—entirely aside from the fact

that it's a milder cigarette—and I've

heard a number of people say the same thing

...While I'm smoking Chesterfield I

never get little cramps of tobacco in my mouth

...the tobacco doesn't spill out and that

adds a lot to the pleasure of smoking them

...I notice more and more of my friends
