The Olympic Games Question

The Olympic games of 1936 are scheduled to be held in Berlin, Germany. Right now, America is preparing a team of athletes that will be taking part in the American Amateur Athletic Association and the American Olympic Committee. This is because in a definite doubt of the validity of which Jones will be assisted by the coach.

The question of whether the American athletes will go or not at the American Athletic Association is gaining much attention. The question in America is whether American athletes, who have a score of upstairs for unparalleled, should give silent consent to the mixture of politics with sport, or whether they should withdraw from the competition in the name of their government.

It is not our place here to discuss Millheim, for it would be considered not only the British but the American athletes too. We can only discuss the question of whether they are to be diplomatically ignored or upheld by American interest until full assertion of their own and events shall have nothing to do with the membership of Olympic games, or that the 1936 Olympic games are to take place.

The question is truly a diplomatic one, or we can say that it is the American diplomatic side. If the American athletes are to adhere to their beliefs in international sportsmanship, we don’t see any other means but to withdraw.

Here is where the diplomatic side enters. Suppose such a stand would have a definite bearing both on international and domestic politics. Moreover, it is not easy to foresee completely what such an American stand would mean in the present dispute international situation in which it is likely to be more stable in 1936. As for domestic effects, the immediate result will be the emotional changes in the American public.

Mild and yet they Satisfy
—how do you do that?

Well, to start with, we take tobacco from our own Southland—mild ripe tobacco with lots of natural flavor but no harshness or bitterness.

THEN AS A SECOND STEP—
We blend this home-grown tobacco with spicy, aromatic Turkish tobaccos from across the seas. These Turkish tobaccos, you may know, have a flavor and fragrance entirely different from our own.

AS A THIRD STEP—
These tobaccos are cross-blended—welded together—the best way we've found to get a more pleasing flavor and a better taste in a cigarette.

THAT'S WHY CHESTERFIELDS ARE MILD AND YET THEY SATISFY
