SOUTHERLAND: In the French picture "La Maternelle." The past week brought to Houston a French picture "La Maternelle," directed by Maximilian Schell, with a cast of French children from the Paris Conservatory and a director who is a pacifist and an idealist. The girl is a softly gracious creature that may go a long way toward making the picture a success. The story of the picture revolves around Chaplin as the tramp, who has fathered a baby by a young and pretty girl. The baby was born in a hospital, and there is a scene in which the tramp appears to be a hero, but in truth he is a poor man who has had a stroke of luck. The tramp is a man of few words, but his actions speak louder than his words. The picture is a masterpiece of naturalism, and it is a matter of regret that the director did not have the opportunity to develop the story further. The French children are excellent, and the acting is superb. The picture is a fine example of the French school of cinema, and it is a pity that it is not more widely known in this country.}

"La Maternelle" A Masterpiece of Simplicity, Naturalness

By ELIZABETH BURCH

The French picture "La Maternelle" is a masterpiece of simplicity and naturalness. The story is told through the actions of the characters, and there is no need for dialogue to convey the meaning of the picture. The acting is superb, and the children are excellent. The picture is a fine example of the French school of cinema, and it is a pity that it is not more widely known in this country. The French children are excellent, and the acting is superb. Last Saturday at the Rice stadium, those Coach 
Kennedy's team were waiting for the signal to 
start the game against the Owls. The Owls were 
looking for a chance to win, but the Rice team 
was determined to keep their winning streak 
alive. The game was a hard-fought battle, but in 
the end, the Owls came out on top with a score 
of 12-10.
