"Naked, Carson was found lying on the floor of the office of the dean of the university, who said that he was too drunk to react. Carson was then taken to the hospital, where he was pronounced dead."
Margaret Sullivan says Luckies are the answer for her throat

"I am not sure which is more crucial—a Broadway microphone or the movie microphones. At any rate, whether in Hollywood or New York, an actress has to be certain that her performances are always up to the mark. And that means being scattered in the voice and throat. That's why, though I enjoy smoking, smoking Luckies. If I've too much judgment on the subject, I choose, when I first begin smoking, Luckies are the choice, because I found they take smoke away for my throat. And that's an advantage too. Luckies are still smoking.

An independent survey was made recently among professional men and women—lawyers, doctors, lecturers, scientists, etc. Of those who said they smoke cigarettes, more than 87% stated they personally prefer a light smoke.

Miss Sullivan verifies the wisdom of this preference, and so do other leading artists of the radio, stage, screen and opera. Their voices are their fortunes. That's why so many of them smoke Luckies. You, too, can have the throat protection of Luckies—a light smoke, free of certain irritants, takes the exclusive process

"It's Toasted". Luckies are gentle on the throat.
