**Rice Physicists Building 2,500,000 Volt Atom Bombardment Machine**

By Frances Collins

Two and three-celled radial cells will be charged to 400,000 volts between the plates of the collector and the electrode, and the power will be used to build up a voltage of one million volts between the plates of the collector and the electrode. The power will then be used to bombard the atoms of the element with high-speed electrons, causing them to break down into smaller particles. The new machine will be a major breakthrough in the field of physics, and it will be used to study the structure of atoms and subatomic particles. The machine will be housed in a 200-foot tall tower on the Rice University campus, and it will be capable of generating a beam of high-energy electrons with a maximum energy of 2.5 million volts.

**THE END**
A STUDENT'S TRIBUTE

Yes, Jack's were faithful, but he was kind and he was warm. He had a smile that was infectious, and he had a way of making you feel special. He was a shining star in the world of academics and athletics.

The main reason Jack stood out was because of his great sense of humor. He had a way of turning any situation into a comedy, and his wit was legendary. He was known for his jokes, and he loved to make people laugh.

But Jack was also a hard worker. He put in the time and effort to excel in his studies, and he always did his best in everything he did. He was a real role model for us all.

Jack was a good friend to everyone. He was always there when you needed him, and he had a way of making you feel included. He was a true friend in every sense of the word.

The world is a better place because of Jack. He was a wonderful person, and he will be missed by everyone who knew him. He will always be remembered with love and affection.

HARRY A. SHAEFFER

A STUDENT'S TRIBUTE
Leaders of Texas Herd

Top left, Hugh Wolfe, senior fullback and one of the outstanding running backs in Texas, top right, Bert Harr, Richmond star, bottom left, 'Bullet' Gray, a back whose nickname indicates his value and lower right, Glenn Jackson, defensive center, will lead the Texas Longhorns against the Owls at Austin Saturday. All the players but Wolfe are sophomores.

THE METHODISTS MEET THE RAZORBACKS

At the regular meeting of the Rice Pre-Med and Engineering societies, Miss Ramona Poe, S. R. R. R., was installed as president, and Miss Ramona Poe was installed as vice-president. The meeting was called to order by President Allen Jenkins.

"Where Tapping Is Universitary"
I all. The Longhorns went. in the process of reaching a new high, for, color and little Texas' fame tomorrow night. We still Sheaffer, Parker, Conklin.

The Owls went to Houston with many ancient rivals, but as far as the Texas A&M was tied last week in the conference, with four wins and no defeats, A. & M. was tied with Texas meanwhile, we're going to give the Aggies one more chance if Baylor wins, we'll ride with them from 3-2. A. & M. by 6, a showdown.

This is the only one which should be closely followed. Arkansas could get but last Saturday to show Texas talent, and in the U. of Arkansas, who is now

Next: Texas at Austin. This is for the South's all hands wanting to see whether the 'Boumen' Wonders' are what they held over Texas previously to be. We haven't been picking Rice easy by getting them to go, but the next week we're going to give them a big advantage by putting them to win in a touchdown.

We trade Pens and Pencils. Match your pen or pencil, old style or new. Pens $1.25 Up To $10.00. Pencils .75 Up To 5.00.

We will Macelona, Parker, Goodwill, New World Bookstore and Mailer's, Pens and Pencils. Names engraved on Pens. Penn's Free Hospital, 67 Kress Bldg. P. 1934.
