Student Council authorities prepared this week to take care of what is expected to be the largest vote in the history of Rice Institution. The special interest in this general election is due to unprecedented battle of clubs, cliques, and organizations.

Miss Stevens is an E. B. L. "S. editor of the Camonian. O. D. Wyatt pitted against Bill Ballew and Robert King was named by Bill Reed as the new assistant editor of the Owl. Carey Thomas is now a senior but is also backed by the Blanton clique. Five candidates have been named by the group master-minded by Ben Blanton and Betty Bennett opposes each other for the position of assistant editor of the Camonian.

The work is outstanding for its realism and composition and technique in the art of photography with two unusual enlargements of excellent detail.

Two one act plays were also read at the Engineering Show today. Forrest Orman has some unique pictures of excellent detail, and state high school junior champion for two years, will assist the Owls' opponent, Bill Ballew. The club has been invited to participate in the Engineering Show.

As an athletic attraction to the Engineering Show, a demonstration of how Rice Institute will exhibit its work in the middle-west for two nationally prominent universities. The club has been invited to participate in the Engineering Show.

MINIMUM OF 40,000 VISITORS EXPECTED TO VIEW EXHIBITS

Electric Eye To Count Spectators: Ed M. Wise Officially Starts Show. Ed Main Gate; Broadcast Proceeds Opening.

A closed switch, a flash of light, and the gates of Rice Institute will be opened the first time ever. At 1:00, to the thousands of visitors who will attend the tenth annual Engineering Show Friday and Saturday, April 28 and 29, the gates will be opened. Previous records are expected to be shattered. Last year the total given by the electric eye was 20,000. This year, Dr. Wise expects at least 40,000. Ed Main gate will become scene until 10 p.m. Saturday evening. The article was given to the students by Mr. Wise in his last speech before the engineering class.

PHYSICS—(Continued from Page 1)

The instrument is adapted so that
by means of variable voltage it is
possible to change the position of
the ball, and to vary the distance
between the magnets. In this way
the ball can be made to describe
any curve whatever.

This is the spirit of the work
being done in the laboratories of
the Institute, to which so many
students are coming to study.

BIOLOGY—(Continued from Page 1)

We separate these living objects into
cells, and this is a means of doing
it. We also study the properties
of the cells, and we study the living
objects as a whole. We study the
structure of the living objects,
and we study the chemical and
physical properties of the
living objects.

The study of living objects is
everything. We study the
properties of living objects,
and we study the chemical and
physical properties of the
living objects.
