CAYE EMPTOR!

The Latin expression familiar to all participants and meaning simply, “Let the buyer beware” appears to be the best slogan for those attending the Senior Play this evening. Sharp for secretary-treasurer of the senior class, a position he has held for the past two years, has established the emplacement of a new office and a new position — that of Caye Emptor. As a general policy, in spite of some of the past editorial comments to the contrary, Sharp insists that in the interest of the class that Caye Emptor shall be unbiased and make no attempt to advocate any particular candidate. Sharp states that Caye Emptor shall be a neutral figure, and that if Caye Emptor should ever advocate any particular candidate this shall be known as a separate and independent action of the Caye Emptor.”

The election of Caye Emptor is made by a secret ballot. The ballots are prepared by Sharp and handled by Caye Emptor. The ballots are distributed and picked up by Caye Emptor at the door of the classroom where the election is held. The ballots are counted by Sharp and the result announced by him.

The Caye Emptor office is located in the Senior Office Building on the second floor. The office is open from 10 A.M. to 2 P.M. and from 3 P.M. to 6 P.M. during the school year. The office is closed during the summer months.

Summer's "best seller"...

...and how it grew and grew!

In 1931 this writing desk type telephone was installed in a Long Island summer house. It was a good telephone, but it could be connected with only a part of the Bell System's 250,000,000 telephones. At that time, service was slow and expensive.

Year by year this strange looking telephone, which has modern transmission and transposition substituted from time to time, grew in usefulness from the Bell System grew longer in reach... smaller in time needed for making connections. Higher in quality of service — lower in rate.

In 1937 "old faithful" was retired to become a museum exhibit, but 15 million modern Bell telephones "carry on."

Walcott Turns In Another Record Performance In High Hurdles

The national spotlight focused on Rice Institute running back in the Drake University Relays at Des Moines, Iowa, when the Owls received a third place team score from two records and two other

Ted Wolcott, phenomenal hurdler, who looks like the most impressive performer given credit. Wolcott's 225-yard hurdles in 29.3 equals the old Drake record of 29.5.

Coach Eugene brushed mildred Wolcott from the 100-yard dash, in which he qualified Friday, to have his best or next to the 440-yard dash, which leads the Drake record of 48.6.

Captain Jack Patterson closely followed his instruction with a new record in the shot put throw. He won the event in 2:09.7, cracking-pattern to break the 2:12.2 mark which led the Drake record.

Russell, Cleveland; rated one of the best men in the state, he really needs improvement. Weights 195 pounds and can run fast.

Sullivan, Longview; footballer, who weighs 215 pounds and is right to put on some more.

Phillips, Springfield; only one in his class at the state meet. He is a fine athlete.

McDonald, San Antonio; left hand player, an all-state athlete.

McGown, San Antonio; a left hand player, an all-state athlete.
