Carnival

The Girl Festival is over, and although its final result may seem nothing but a fairy-tale, the memory of the war clouds which threaten to cover up all the fun we have seen in the last few days will hang closely in the air. In the last few days, we have had the best time possible on the campus. The whole campus was enlivened with the spirit of the festival, which made all the students feel as if they were in a fairy land. The whole town was filled with the sound of music, and the air was thick with the smell of flowers. The whole town was bathed in the glow of the sun, and the whole town was filled with the joy of life.
