**Irvington College of Nursing**

Infrastructure of Institute

The Rice Institute announced last week the departure of Lt. Comdr. F. M. Newton, Jr., who was transferred to sea duty. Lt. Comdr. Newton came to Rice when the unit first started, and it was largely through his efforts that the unit now has the fine reputation it does among the other NROTC's of the country.

Newton had been at the Massachusetts College of Nursing before he served as a Naval instructor at Annapolis. He was commissioned in the war in Europe in 1939 and he was ordered to duty aboard the U.S.S. Yale and U.S.S. Alabama. He was appointed to Rice in 1941 from the West Coast.

In the one and one-half years that Lt. Comdr. Newton was attached with the NROTC unit, the school grew from a comparatively unknown unit to one of the most respected in the South. Many friends have come here not only among the cadets but also among the faculty and student body. It was a real boost to the unit to lose such a fine officer. We appreciate all he did for the unit the cadets presented Lt. Comdr. Newton with a watch.

### College Women Needed in Nursing

Galveston, Texas, April 16—Opportunity to train for a specific vocation in a variety of fields is now available to women who are more plentiful and promising now than ever before, according to Miss Margot Bartlif, director of the John Sealy College of Nursing at the University of Texas Medical Branch here.

Nurses in many specialized fields of nursing particularly appeal to college women, Miss Bartlif pointed out. Urgent needs for women of college training exist in the fields of supervision and teaching of present nursing students who are about to assume the nation's need for nurses at the moment.

Women of college background have many advantages for work in administration, child health, psychiatry, clinics, or as consultants, head nurses, instructors, superintendents of nursing schools, hospital superintendents, and general duty nurses.

"Graduates of college training are qualified for positions which require the maturity of being First Magnitude. Women who have trained in college recognize the importance of being first, and they are impressed with the spirit and training of students they have been brought into contact with," Miss Bartlif said.

The John Sealy College of Nursing at the University of Texas Medical Branch here will start June 24, and will include two-year and four-year courses for both pre-service and in-service training.

### Campanile Picture Sale Is a Success

For the past three days students have swarmed down upon the Rice Co-op in unrelieved droves. This sudden tremendous popularity of the Co-op can be attributed to the sale of Campanile pictures there. All money collected from the sale of these pictures will be donated by the Campanile to the Red Cross. Students pay any sum they wish for the pictures, and thus far $60.97 has been collected. The Campanile is expecting a total $75 before the sale closes and if this much is not collected they are prepared to make up the deficit.

It has been announced that more pictures from the Campanile will be placed on sale at the Co-op today.

---

### Ten Brink Leaves For Naval Duty

Dr. Karl Cornelius ten Brink, instructor in chemical engineering at Rice Institute, has received orders from the Navy Department to report to Fort Schuyler, New York on April 28. There he will go into indoctrination training before entering the Ordnance Department as an ensign. Dr. ten Brink received his orders last week, releasing him from his occupational de- fense at the Institute. He plans to leave the latter part of the week.

### "Happy Go Lucky"

**Two Pictures Held Over At Theaters; Light Comedy Is New Offering**

"Happy Go Lucky," another light-weight tropical song and dance movie, featuring Mary Martin, Dick Powell, Rudy Vallee, and Eddie Bracken, will open Thursday at the downtown theaters this week. As the dance of the summer, "Happy Go Lucky" is only new film to appear at the downtown theaters this week, since the Lawo's State is holding over "Keeper of the Flame," the Denman directed Spencer Tracy, Katharine Hepburn mystery and the Majestic's "This Is La-" helio, "Frisco, Hella."

The studio announced that "Happy Go Lucky" is second feature to be released by the firm since the picture was acquired by Warner Brothers. It is an offering of Miss Martin and Miss Hutton, who has a corps of attractive and charming and is among the most popular of Miss Martin's films. RKO has released a new film to appear at the downtown theaters this week, since the Lawo's State is holding over "Keeper of the Flame," the Denman directed Spencer Tracy, Katharine Hepburn mystery and the Majestic's "This Is La-" helio, "Frisco, Hella."

**Petitions Due**

Petitions for candidates in the election for positions on the Student Council must be in on Thursday, April 28, at 1 p.m. The election will be held on the following Monday, and it is expected that the members of the Council will have served on it at least one year before their election as senator representatives.

**Pamphlets Are Mailed to Other Churches**

The laurier Sermon and the Commencement Addresses for the year were covered in a partial list of the membership of the American Baptist Student Union, announced by the University of Maryland and the University of the South at Sewanee, Tennessee. In his talk on "The Church and the World Tomorrow," the Rev. J. Lawrence Flumley will speak on "The Church and the World Tomorrow." The first issue of the Rice pamphlet appeared in April 1935, opening with the Institute's inaugural address. The Campanile is expected to have an issue of the Rice pamphlet during the summer.

**B. S. U. Reaches First Magnitude**

Mickey Newman, president of the Baptist Student Union, announced at the weekly meeting of the governing council that the group has reached the point in its development at which it is now expected to have a complete record in the next fiscal year. During the previous year, members of the group were expected to have a complete record, but they were not able to complete and maintain the record. The group now has a complete record and a complete record for graduation at the present time, without taking final examinations; provided they are approved by the registrar.

In the past week, members of the group have been asked by the Navy to continue their work and to return for graduation at the present time, without taking final examinations; provided they are approved by the registrar.

The University of Tomorrow

When the last shot is fired in this war, and we return from our various fronts, there is no doubt that those in the colleges who are learning behind you. Do you think that your diploma will be sufficient equipment for earning a living?

No one, except those born in the midst of something even bigger than World War II. We are taking part in a Social Revolution, which is lifting the moral face of the world.

And now we are in the very roots of Social Revolution.
**Sports Stuff by Tommy Dunn**

This is going to be a very busy weekend, as the Rifle Range and Bow and Arrow meet begin Friday and Saturday the ball game is played and the Aggie tennis team goes against the Aggies and Texas are tied for the number one spot in the South. The Aggies and Texas are tied for the number one spot in the South.

**Rifle Range Will Close Tomorrow**

Tomorrow will see the closing of the NROTC rifle range until next fall. Chief Lynn has announced. During the years in which the range has been open the Rifle Range under the instruction of Chief Lynn has been very successful. Last year the Rifle Range was available only 140 days.

The Rifle Range was opened on Thursday afternoon, and the从去年 to Friday and Saturday the ball game will be played. The Aggie rifle team has been very successful. Last year the Rifle Range was available only 140 days.

The Rifle Range was opened on Thursday afternoon, and the range has been available only 140 days.

**The Team Has Practiced**

The Aggie tennis team has been practicing secretly so far this season and there is no advance dope on them. It has been estimated that they have a serious disadvantage since the matches will be played on clay courts instead of the played courts used at College Station.

**Stuff**

(Continued from page 3)

The tennis team from that same A & M, the Texas A & M tennis team, has a similar meet 42-40 and one of the coaches is quite pleased at the success of the team. It is a rare occasion when you can find two teams so evenly matched. Students that enjoy track meets should take note of this one for a great. Due to the transportation shortage the buses were not able to get there in time and the track and the ball will not run this year. You can use your money and you take your choice.

A person that wants to see a tennis match will get satisfaction also on this eventful weekend because the Aggie nation will be here to play Francis, Walker, Bradley et al. The Aggie tennis team has been practicing secretly so far this season and there is no advance dope on them. It has been estimated that they have a serious disadvantage since the matches will be played on clay courts instead of the played courts used at College Station.

**Bowl**

First matches in bowling were played Friday afternoon and the aggregation played the Deeray three games. The Peacocks and Slippery Slimes were in a deadlock for second place with two wins and one loss. Matches will be bowled every week, so team members remember to bowl.

**Table Tennis**

We regret very much that we have not announced the doubles champs. They are none other than Charlie Books and Perry Martin. The boys really want to bow to beating the hardest teams.

**Tennis Singles**

Entries were very heavy as thirty-three boys signed up. Last year’s champ, “Chuck” Francis withdrew to go out for varsity tennis. Some sprinter was counted on for another Owls in league 1 are: West Hall, Company I NROTC, Company II NROTC, Odum and Richhson. In league 2 are: Slippery Slimes, Faculty, and Walker’s Slides. The first games will be played tomorrow and are set to start at 1 p.m. sharp. The losers will play a round-robin and the top team in each league will have a play-off.

**Owls Face Aggie In Track Meet**

The Texas Aggie track team will meet with the Institute tracksters at Blue Field Saturday afternoon. The field events begin at 2 p.m. and the 440 yard dash comes off at 3 p.m. This is the second dual meet between the teams this spring, the Owls taking the first one by a close margin of 42-38. The Owls are expected to have a larger margin at the end of this one according to close observers.

Windell Williams will not compete because of a leg injury. The hand-sprinter was counted on for two first place but with Perkins and Christopher running the loss of Williams should not be too deeply felt.

**Handball**

Woo-hoo’s two big stars are Dick Jones and Betty Joe Russell. The two men qualified for expert rifle-shots and nine for sharpshooter. This year promises to be as close. It’s a rare event when the range has been available only 140 days.

Engineers Sponsor Picnic Saturday

The Engineering Society has announced that it will sponsor a picnic Saturday, to give members of the organization and those of the student body who desire to attend. Arrangements for food should be made by the individual attending, since the razzmataz makes it impossible for the society to supply any.

The picnic will start at approximately five o'clock so that it will not conflict with the track meet to be held on the same day. Directions will be posted later as to the exact meeting place although it will definitely be somewhere in Memorial Park.

A charge of 50 cents, couple or club, will be made to non-members of the society.

Ten Brink—

(Continued from page 1)

N.A. and a doctorate in chemical engineering from the Institute. Later he became a fellow and laboratory assistant. He is a member of Phi Lambda Epsilon, Phi Beta Kappa, and Sigma Xi. While at Rice he was secretary-treasurer of the freshman class and he was also a member of the Rally Club.

"Happy Go Lucky"—

(Continued from page 1)

singers, native minstrels who chant long impromptu narratives on matters of personal or international interest. For those who can't follow the dialect, there is a variety of songs ranging in population from 2,500 to 10,000, while less than 8 per cent came from rural towns that numbered under 5,000 people.

The marital status of the students' parents was favorable. The survey showed that only 3 per cent of the homemaker families were separated. One out of every six American marriages ends in divorce.

The Engineering Society will have a luncheon and meeting today at 12:15 at Astry House. Invited members are particularly urged to attend.

Dr. B. A. Tanen will speak today at 12:00. The program is sponsored by the B.S.U. but all interested persons are invited to attend.

The Christian Science Organization will meet next Thursday night at Astry House at 7:30. Everyone is invited to attend the bi-monthly meetings of this organization.

The Presbyterian Student Association met yesterday at Astry House at 12:15 and held a discussion on divorce.
