Row, Riesenberg
Elected to Head
Religious Group

Marking the beginning of a new year, which, it is hoped, will be as successful as that just passed, the Christian Science Organization began in the proper manner by electing new officers Tuesday at meet at Autry House. The newly-chosen officers, Tuesday were: John Evans, President; Margaret Bents, Vice-president; Allen Jones, Secretary and Ray Ferries, Treasurer. The officers of the group, Tuesday were: John Evans, President; Margaret Bents, Vice-president; Allen Jones, Secretary, and Ray Ferries, Treasurer.

Sockman to Deliver Last Lecture Tonite

Tonight Rev. Dr. Ralph S. Sockman, Minister of Christ Church (Methodist) will give the last lecture in a series of lectures "Prophets to Peace," entitled "The Dynamic of Adversity." His first two lectures entitled "The Barriers to Brotherhood" and "The Mind of the Peace-maker" were given Tuesday and Wednesday evening.

Dr. Sockman is here to deliver this year's series of Rockwell Lectures on Religious Subjects. The lectures have been given in the Physics Auditorium at 8:30 p.m.

LAST PICTURE NOTICE

Bert Bill, editor of the Campus, announces that Friday is definitely the last day for students to have their pictures made and Saturday is the last day for the Navy.

Chiefs S. H. Malone
Is Commissioned
To Lt. April 21

S. H. Malone, formerly chief specialist, received his commission as Lieutenant Junior grade in the United States Navy on April 21. He has been in the Navy since November, 1942, and it has been not quite a year since he arrived at Rice Institute June 7, 1943. His duties here as chief specialist included teaching classes in physical training and acting as hall monitor; he teaches no other courses. Before his arrival at Rice, Lt. Malone was stationed at Anacostia, Maryland, where he trained naval recruits—which in his own words he was occupied in "pushing books." He will be transferred soon to a new post in active duty. The name of the new post is a military secret.

The dance will be given in the Guild Hall of Christ Church located at the corner of Texas and Panhellen. The ticket, 50 cents couple or 50 cents each, will be bought at the door. The money will be used to pay the church pledge. Come one; come all. It ought to be fun. Don’t forget Saturday at 8:30 p.m.

Red Cross Drive
Nets Fifty Dollars

The Red Cross drive of last week turned out the huge sum total of $65.87. Mollie Alexander was at the head of this drive. The booth has been situated on the corner between the Physics building and the Chemistry building. Each hour of selling in donations was taken care of by representatives from the Student Council, the Liberal Arts, the Social Science, the Librarians, and girls. We are proud to see Rice has represented itself so well in this drive. Such spirit is the kind that we like to see around the campus—willing cooperation and interest of the student body in all activities and drives.

Saturday Dance Dope Doped;
All "Saxes" Report to Dunk

By Cecil Bass

Oh! for a Saturday "nite" dance! Many young ladies stalling about the campus with a glint in their eyes snickering, "Oh, boy, I have a date for the Engineer." And what happens, the Engineers scheduled for May 6 has been put off. Oh well, that’s life. The Navy Orchestra seems to be tearing its hair out over the loss of saxophone players and the loss of Logan on the drums. But, well, you can’t have it all, can you? Any sax players will please apply to Dunk. The Engineers are even daring Saturday "nite" to be at least arranged and G. G. Can, Hearn and Mario Jo, Ruthie and Bill Cook, Fran Hawkins and Ed Harkow, Sayles and Bob Swasey.

Scuttlebutt is carrying all sorts of tales. One hears such things as "There’s gonna be a Saturday "nite" dance this week." Also one hears "You’re insane, there’s not gonna be a dance this week." One also hears "This dance will have to be semi-formal and that the Knights of the Smalls will perform an unusual style of grand music.

The price of admission is to be $1.25 per couple and $.10 stag. Posters will be placed in Salliyet late in the week to remind everyone of the dance and also the price. The Dances Committee composed of chairs, William John, John Mark, Eunice, Glenn Ross, Rusty Darling, and Bob Swasey have made all the arrangements for the dance and hope that the student body will cooperate with them and turn out in full force for the dance. They will also furnish cold drinks.

Well That’s Life

By Cecil Bass

The lend-lease athletes of SLI once again carried the small Lafayette, Louisiana school to victory, this time over Rice and A&M in the triangular track and field meet here Saturday afternoon.

Although the Bulldogs won only two track events, they came out clear winners by virtue of firsts in five field events and numerous places in both track and field events. Their total score was 72 points, gained from firsts in the sprint relay, 100, the shot put, the high jump, the polo vault, the broad jump, and the javelin, and from second, third, and fourth places in every event except the 440 and the mile.

"Campus Cleaners ... Get to Work"

A plan was made during the earlier part of this week and will continue, not only through this week but during weeks to come, unless the idea has been driven home to each and every one of us. Mrs. Cannon and Rev. Smith are sponsoring what may be called a "clean-up" drive at Autry House. The purpose of this drive is to keep Autry House clean andAUTRY HOUSE CLEAN. They urge that all students try to cooperate with their "clean-up" program. Highlights of this program are as follows: 1. That all students refrain from playing bridge while eating. 2. That they keep their plates, trays, cups, forks, spoons, napkins, butts, dishes, etc., off of the floor at all times and 4. That people observe the new rule to be put into effect immediately concerning special tables, which will be placed along the wall near the cafeteria.

We should like at this time to add our "two-bits" worth to this plan. Autry House should be considered as more or less our home while we're in school because we're all just as welcome there as we are in our own homes. Why not treat it as such? Just because we don't "hang around" so much doesn't give us the right to break glasses or throw cigarette butts and paper on the floor. We don't do those things at home; why do we do them here? We just as well get it there as anywhere else, and that's one of the main reasons for this drive.

There's no reason why this drive can't be successful, but it depends upon each and every one of us. Let's take the A. House clean and make this drive a huge success so that another one will not be necessary.

If you should happen to see some paper on the floor or some dishes on a table which someone forgot to take back to the kitchen (or were just too lazy to take them back), pick them up and return them to the kitchen. We feel that this drive is an important one and should receive whole-hearted pitching from each and every student body, so that's why we ask you to do your part. How about it? Will you help make it a success?

By Reba Bethea

Mr. and Mrs. W. W. Lyford

The complimentary Saturday evening tea at the home of Mr. and Mrs. W. W. Lyford, Saturday evening, September 26th, was enjoyed by a large assembly of friends who were there to congratulate Mr. Lyford upon the birth of his young daughter. The house was decorated with white and green in keeping with the theme of the baby girl. Mr. Lyford is a member of the Educational Sign Board of Houston and has been in the teaching profession all of his working life. For some years he was principal of the Memorial High School System.

The Owen Winter Literary Society... (Continued on page 3)
By Mildred McCull

The track meet Saturday was not nearly as bad as might have been expected. Owl trackmen continued to show promise, and John Donaldson came through in his usual style to win the distance. To the Delander and Guy Groves go special credit for their grand showing in the mile relay.

Primary trouble with our team seems to be shortage of men, for the events of Saturday afternoon offer ample proof that a team cannot win merely by taking more first places than its opponents. For instance, A&M ended up with only four firsts to Rice's five, yet the Aggies totaled 88 1/2 points to Rice's 56 1/2. The Aggies' greater total was, of course, the result of numerical superiority, the plain fact of the case being that no team can win a triangular meet when it has not enough men entered to capture enough second, third, and fourth places.

Fred Wolscott, starter for the meet, said that he wished he could still be running for the blue and gray. Well, we wish, too, most fervently.

It is possible, but I do not say probably, that the conference meet, in Austin on May 13-14, will bring a different story. The Aggies and Longhorns are both strong in the dome events, and could (mathematically possible anyway) rub each other's shoulders enough to allow a smaller team to be victorious in enough events to walk away with the crown...well, I can dream, can't I?

Word comes from TCU that the Hurtford Frogs also are planning to enter a small number of men in the meet. Of the fourteen on the squad, only two are entered in the track events, and could (mathematically possible anyway) rub each other's shoulders enough to allow a smaller team to be victorious in enough events to walk away with the crown...well, I can dream, can't I?

To add a bit of humanism, students appreciate the touch of "all-sent-mindlessness" so traditionally associated with college professors. For example, forgetting that quiz he intended to give at spring as a surprise, or failing to call for that list of physics problems.
How long since you wrote him a letter?

KEEP THOSE LETTERS FLOWING 1:  KEEP THAT PIN OF YOURS GOWING WITH PARKER QUINK. Don't let that pen of yours fall foul of the "9-15 Shop" at Everitt-Buelow; the only ink containing anti-rust, anti-corrosion and rubber rot. Dissolves the only ink containing solv-x. Don't say we didn't warn you!

ALVIN DARK

(Continued from page 1) he had won the high jump and the 188-yard dash, was second in the broad jump, and was another man of the winning sprint relay team.

Second in Dark in individual running was Guy Groves of Rice, who amassed 115 points to trail only slightly behind the Lake Charles flash. He won the 440 and 660-yard races and ran the anchor leg on the winning mile relay team.

Other Rice athletes who were outstanding were John Donaldson, Dale Missime, and ex-Owl Bob Peckins.

That Mile Bets

Most exciting event of the day was the mile relay, which Rice won by just enough space to measure. In the first two quarters the Owls were never able to catch the leader, but in the third lap Missime picked up fifteen yards, or enough to put the Owls in the running. Then Guy Groves took the baton and out-gained Don Down to win. For three quarters of the lap, the fleet Aggie seemed certain of victory, but as they rounded the last turn, Groves began his winning spurt.

The only race of the day which was not close was the 220-yard low hurdles, which Lloyd Parker won for Rice.

Wolcott Back

For the races was the for- mer Owl great, Fred Wolcott, holder of numerous world records. The blind star and star said he wished he could still be running for Rice.
