Council Elects Newlin, Foley To Positions

The regular meeting of the Student Council which was called for Thursday last week was duly conducted, with only two absentees. After the regular business of roll call and minutes, elections brought up in order lastly. Four nominations were made for Senator representative positions at A.S.R.M.C., and Roberta Newlin received the major of the run-off. Voting was by secret ballot, with only two absentees.

The second election concerned the President's representative. Again four were nominated, all of which were serving, but to be sure to a short space was delivered on each candidate to acquaint the members with them. Bob Foley was elected in this position.

Scoring copies of the constitution for each member will be taken care of, it was announced. Ann. Marx incorporated directorates from the Bond Drive have not been tabulated yet. Four students were selected Tax sales to the Navy boys were reported to be a total of 240, which was more than was expected. Bill Hamrick, assistant director of the N.S.S., is destined, and it was discovered that April or May was the choice.

Carnagees at Dance

Jack Dunn, mayor brought before the council a new topic. This concerned the carnagees at Rice dance. Arguments were given pro and con. Especially is it thought that they are harmless and that they will be short while, but also, formal dances arc not too frequent to arouse agitation. Dottie Marshall suggested that the matter of buying or not buying be presented at a later meeting.

Drive Extended

Service Fund

Although it was agreed that the drive would cease last week, it has now been extended until this Saturday. This will allow those who have not already done so to donate. Donations may be put in the box at the Student Religious Council. The original goal has not yet been reached, but the drive is expected to end at $120. Fifty cents per student to the Drive would put the drive over the top. All students are urged to give what they can to help out fellow students the world over.

Special thanks to the Li-Locin Society, Glubdubdrib and all contributors. To each one who contributed, our personal thanks. The thanks of each one of these guys in a P.S.W. award where you have helped.

World Student Service Fund

Drive Extended

By Dean Weeks

When an appeal for aid to the World Student Service Fund was made, the members really listened and replied with their donations. These donations are vital to the campus and contributions are in every individual. Although it was agreed that the drive would cease last week, it has now been extended until this Saturday. This will allow those who have not already done so to donate. Donations may be put in the box at the Student Religious Council. The original goal has not yet been reached, but the drive is expected to end at $120. Fifty cents per student to the Drive would put the drive over the top. All students are urged to give what they can to help out fellow students the world over.

Owls' Blue Rhapsody Slated For 2 December At Rice Terrace

"Blue Rhapsody" will be the theme of the first formal dance of the season, given by the O.W.L.S. on 2 December from 9 to 11. Buddy Brock, a popular young Houston band leader, will be on hand with his fourteen-piece band to be decorated in blue and silver colors. Following the idea of the theme, Dottie Marshall, president of the O.W.L.S., also announced that the fourteen O.W.L.S. pledges will be formally introduced at intermission.

Fairy Tale—For Children?

"Sleeping Beauty" Wakes Them Up at Autry House

By Mary Jane McNair

"Sleeping Beauty," presented by the Girls’ Club, took A-House by storm last night in fact, so much so that some guests had to get out of the weather. But, really, the skill in all the twenty minutes in action, as well as the full array of characters, ad-libbing, etc., had to be done. After the conclusion of the "Sleeping Beauty," House mom had been mitigated to soft ball—at the chilly vistas of the audience. The greater part of the vegetables were made at Woods Hole, in the Autry sealab.

According to Dr. H. H. Richter, assistant professor of organic chemistry and director of the Rice Owls for four years, he was a very good assistant while in the Institute and ended it all. The next personage to appear, Miss Bradford, seemed to have grey hair and was in a way that the play did by the inefficient service three days.

Well, the story began, subtitled "Up in Mabel's Room," with the first formal presentation of the fourteen freshmen pledges. While on numerous occasions individual pledges have been introduced to small groups, this will be the first time that they have been introduced as a group to the entire student body. C. C. C. will therefore, have the honor of presenting another group of freshmen pledges.

Tickets will be on sale until Saturday noon, after which time they can be purchased at the door or from members of the O.W.L.S. The rest of this week, a table will be set up.
After approximately a month of school during the current semester, it must be obvious even to the most callous Freshman that the Student Association is only a nominal thing. Indeed, Frosh probably does not realize that it exists. This situation, to put it mildly, is deplorable. In a comparable length of time at any other institution of higher learning the entire Freshman class could have become very much a loyal and integral part of the student body, knowing school songs and yellow duties toward the superior upperclassmen, etc.

In order that all concerned—the entire student body—may know the purpose of the Student Association, Article II of the constitution is herein reprinted:

"The purpose of the Association shall be to unite the student body of Rice Institute, to organize and orient itself, to coordinate college and interclass relations and classes and customs and privileges, and to direct such matters pertaining to the best interests of the Rice Institute as come within the province of the student body."

At the present writing, not only Froshmen are at fault. Sophomores, Juniors, and Seniors either do not know or do not care that the Student Association should be a vital unit. Little or no interest in activities of the council characterizes the convocation area. Just about anything seems to be a new page for the officers, for they are also officers of the Association, go about unknown and unheralded—save for recognition of merit in other activities, i.e., band, football, etc.

Conducted action by the student body seems a thing of the past. In the last general election only about 60% of eligible voters cast ballots, in contrast to 70% or more voting for a president of the Student Association. This is no exaggeration. It is no wonder then that very little in the way of government is accomplished by the elected officers.

There is little wonder either that dances are not like those of "the good ole days" (a chronic complaint). The entire Student Association does not organize support for them. Instead, each little clique organizes its own party and holds an evening of mutual admiration among its members, expecting to be duly recorded in the Staff column the following Thursday. The same holds true of almost any project, drive, or what-have-you.

This sort of general indictment could include many more items. It is the purpose of this writer to suggest that all is not well. An unhealthy and apathetic attitude exists among the students here, an attitude which should be changed in the near future to keep a vibrant group of what being fellow members of the Student Association of the Rice Institute could mean. We might look ahead and strive toward the realization in fact of the theory of the Student Association.

M. McC.
The Owls unofficially open the 35th football season, 5 December, with a practice game at Elkington Field. On 31 December the Ellington Flyers play a return trip here at the High School Stadium. In 14 days is the date for signing a game exhibit for the McCloskey General Store.

Lawrence made one touchdown on a 4-yard run and the other on a 53-yard run from scrimmage. But the Owls don't lose! TCU 9, conference play, and the rain started to make it second and 10 with a minute gone before the owl's kickoff. TCU 19!

Girls’ Basketball Invases Campus, Bloody Battle On!

By Mary Jane McAllister

With the air of basketball beginning to pervade the campus, the girls of the intramural basketball league have begun to work out and have organized teams to compete in intramurals. These games will take place on Wednesday nights in the Field House, thus enabling the Navy to attend. Profiting by past experience, it can be assumed that these games will be quite exciting—if not in ball-handling in terms of basketball, at least in fighting. It has been remarked how surprising it is that such pretty and demure types at school (as are most girls) can become so rough in their play.

The first games will be played next Wednesday, 6 December, beginning with one at 7:30. The teams are matched thus: E.B.’s vs. P.A.'s, and O.W.L.’s vs. Girls Club. Coaches for these teams are Johnny Cox, P.A. L.S.; Bobby Faye, E.B. L.S.; Judi Dolesnic and Lee Williams, Girls’ Club; and Bill Henry, coach for the O.W.L. Foley, E.B. L.S.; John Donaldson Club. Coaches for these teams are beginning with one tangle at 7:30. The past two weeks, E.B.’s on Mondays, Girls Club on Tuesdays and Thursdays. Next Wednesday, 6 December, beaming the Navy to attend. Profitable Wicks.

The starting players have not been announced yet, but the girls are working hard to get their team ready for the game. The girls will turn up next Wednesday in various modes of attire, and if it may meet with the approval of the good (and not so good) order, many likely will be in shorts.

DR. MAURICE EWING—

(Continued from page 1)

was also a member of the Oel band, and was prominent on the track field. His collegiate companions were well-known track men, and it is assumed that he can carry the drum in ways as of the time he transferred to Rice. Nicknamed “Wild Child” by fellow students, he was picked for the Greenwich Drug Store as an “experienced” jobber. He has been working on the recruiting crowd and well to witness the novel concoctions presented by the amazing Mr. Ewing.

Early Accomplishments

No order was so difficult that he did not triumph with an entirely new business that was originally intended for business men. But since those duties involved the carrying out of heavy business responsibilities, he decided it was best to let someone else take care of that.

As an undergraduate, Dr. Ewing had another article published in the

Entertainments Come Fast as Frost

The regular appearance of the fall’s “Radio” at the 16 December matinee; the new “Le Bourgeois Gentilhomme” and the annual, stimulating “Stenographers”—all gaited by Danlevy and Franklin—will be evening of the same day; and the new “Don Carlos” on December 15 and Christmas right programs, will be the stand-out productions of the season.

Also deserving of notice are the following: The Interfraternity Production of the “Student Prince” in December, the Blasting Vanity, 15-17 December; the Glee Club sponsored operas, “La Traviata” and “Il Traviata”; and 27 and 28 December.
