Now that the war is at all intents and purposes over and the exhilaration of holding swords in gleaming gears, we take thought for the future. As we leave the roads of war and start on the paths of peace, do we have learned enough in the last four years to be able to lead fuller lives? It is true that war has taught us that we are all one people, and that团结 among nations is a condition that free us from the constant conflict which divided us eight years ago. While we continue to recognize that differences exist between North and South, let us not make them cause for hatred. If we respect one another's modes of thought and action, and have the courage to love one another, we can search the past for methods to be applied to the future. We should not shun the world that we have learned to know in the last four years, but take it as a part of the future. The friendship we have made with the war is something that we can employ against the world that we have learned to live in, and by which we may be able to create a world that is more just for all nations.

Hi, Hermance's
P. T. Hour Goes On
Spraying Cheese

Sports Skivvies
Shorts, to Civvies

by Mr. G. H.

This is another of Hermance's experiments. You never know what they'll lead up to, so, you'd better stick around awhile. Last year's names and numbers meandering along "Tampico How" have kept him away from his proper domicile. We, be reporters, have witnessed "pops" for the Sally kid until tales of Rice's golden classmen again came down from on high. On with the experiment.

Though Rice's varsity sports are at a standstill now for a few weeks, a few Owl athletes have managed to distinguish themselves in other competitions.

Jack Haynes, Rice's tennis star, was defeated last week in the semifinals of the Houston men's singles tennis tournament. Not to be denied, the World War II veteran came back strong in the doubles competition to win the championship.

In a game that featured the brilliant bat-wielding and pitching of "Heck" Arroyo, the Wilson Cup was carved out a 4 to 2 victory over Eastern States at Baytown Saturday.

Several Rice baseball stars, including Powell, Murphy, Mitchell, and Station help make up the nine midway, which are strong contenders for the Southern prep semi-championship.

The North-South high school gridiron bands last week saw Tom Murphy (what—another one?) start at end for the Confederates. The results of the game were two Owls: August Hurdle's Refusal at half, and Dick Desonier at full.

Additional strength tests were taken again last week; now you know the reason for those many nights of Bible study! After putting in 14 months here at the Institute, the boys are now in basic training; looks like an I give up has been decided upon.

Congratulations to Jim Wall who was named to the Navy Group Classification. Congratulations to Jim! The boys will come back with a more well-spent effort.

The inspecting party then returned to the main building of the Institute for outstanding services rendered while a member of a hospital unit until Pearl Harbor during the Nip's sneak attack on 7 December, 1941. Commander Miller extended the welcome to Wall at the review held Monday afternoon.

Final victory will come the important decisions. For the Baytown semi-pro championship is in the works. We will be with you again next week to report further sports news.

The Rice Student Branch of the ASME was invited to the Grand Prize Ceremony last Friday night to inspect the establishment. Forty-five members rode out in a chartered bus. Arriving at the plant about 7:30, all were invited into the Grand Prize Theatre and there were told what things to notice on the trip and to expect.

The main part of the trip was started in the laboratory where each shipment of ingredient which is to go into the beverage is checked to ascertain whether or not it contains the proper things to make a good beer. Even the water used, which is obtained from the company's own wells, is tested to make sure that it contains the proper minerals to bring about fermentation. The practical and the theoretical work hand in hand, for Mr. Brouwe, the brew master, has his office just outside the laboratory and from these two rooms came the important decisions. After a few minutes learning the history of Grand Prize, all went to the packing room, where all the cooking is done on the hoppy, barley and rice. After this the only time we saw a multitude of filters and the carbon dioxide is removed, it goes into the fermenting room. It remains in the fermenting room from 30 to 90 days. The carbon dioxide is put back in the beverage and it is stored ready to be put in bags and bottles.

The main part of the trip was spent in the store and storage rooms the laboratory led into the bottling plant. Here the bottles are brought in, washed, checked, filled, capped, and shrink-wrapped for shipment. This is done on a continuous line of the production equipment.

As a matter of fact, Wall would have been more than pleased to have returned to Rice feeling that an evening had been well spent.

May Be Navy Dance at Coliseum May Be V-J Celebration

"What is it, guy?" This week the answer to that ever present question is that it is the Navy Dance, a guy. Yes, the big news of the week is the Navy Dance! This will be the first dance of the year so everyone is reminded to make plans to be there. The big affair will be held at the San Houston Coliseum this Saturday, 18 August.

Music for dancing will be furnished by the Navy Orchestra between the hours of 9 and 1. The orchestra will feature songs by Kenny Barry and trumpet solos by Gene Wallace. The dancing will be interrupted at 10:30 in order to present a little floor show that was cooked up by Lt. Feeney who is in charge of entertainment. The program will consist of Edith Hillbrand, a well known songstress, Miss Sydney Hall, who will entertain on the piano accordion, Bob Blau, a magician and juggler who has performed at many local night spots. More songs will be furnished by Tippy Errington, a veteran of 27 months overseas and 12 months in an army hospital in the states. The remainder of the show will be filled by Julie Russo and Victor Atlkoff, two local novelty dancers who have performed recently in the Houston Light Theatre productions at the Houston Stage Centene. From what we have heard the young ladies should be one of the best acts of the evening. (Cherry, boys, they're married.) The Navy Club quartet will entertain throughout the evening with a few old favorites.

Lt. L. W. Reese, Welfare and Recreation officer, once again extends an invitation to all civilian students and their dates to come. Naval trainees of Texas and Baylor medical units are also welcome.

Well, to sum it up, guys, don't forget Saturday at the Coliseum from 8 'til 1, and we promise you all a good time. In the event that V-J Day is, or has been declared, come anyway and celebrate there.

Men In Service

by Mariel Wirks

This week, feeling in a very hilarious and jubilant mood, we are strictly going in for the novel, that is, we are featuring the men in service who are closest at hand, right here on our fair campus. With their futures in the naval training program very much in doubt at the present moment, most of them form the backbone of our V-12 program, and will probably (pure speculation) be in on the occupation forces.

First and foremost, we choose Larry Whittaker, because of his effective attempts in helping to organize the forthcoming Navy Dance at the Coliseum (plug!) For further details, address your correspondent personality, just call Lt. Commander Al-ward. We look forward to seeing this one materialize in the near future. Truly the future of Rice Institute looks bright.

Next day he was crowned king of the annual Navy Dance. Just call him "croaking reasons." We have an inventor in our midst, the small frame of Jerry Shaw, a for a young maiden to take care of Five Major Problems . . . and a mystery man at that!

Chick Herbert is tall, dark, handsome, and very aloof where Rice is concerned. He's afraid of the few But-ensemble who aren't in Sallyport building up A. B. building at T. V. A., but he does attend all the Ave Marie Club's functions, to the delight of the female population.

Joe Shender, an importee from Illinois, has been in the Navy for four years, and was a battle-starred veteran before being sent to Central College in Missouri, where he re-

One of the most handsome of the trainees is Barrie, "Ah love that corn-pone, you-all!" Barrie, a former Kappa Alpha at a Missouri college, Barrie is currently alienated for a young maiden to take care of Five Major Problems . . . and a mystery man at that!

Rice Songs

These songs are reprinted so that all Rice students will be sure to have copies and an opportunity to learn the words of our school songs before football season gets underway. These are important to know, so if you have not already done so—learn them!

RICE'S HONOR
All for Rice's honor,
We will fight on,
We will be fighting,
When this day is done
And when the dawn comes breaking,
We'll be fighting on Rice
For the gray and blue,
We will be loyal,
To Rice be true.

RICE FIGHT SONG
Fight for Rice,
Rice fight on,
Loyal sons arise,
The Blue and Gray of Rice today,
Comes breaking through the skies:
Stand and cheer,
Yip'll our scorn,
Sammy leads the way,
Onward go! to crush the foe,
We'll fight for Blue and Gray.

THE BONNET SONG
"Put on your old gray bonnet,
With the blue ribbons on it,
And we'll hitch Sammy to the fray,
And we'll ride a horse in a day.
And we'll lock, sock, sock 'em.
Till the end of judgment day.
