**EBLS and Pre-Meds To Present “Black Fantasy” Saturday**

Eagle's first formal of the year, the E.B.L.S.-Pre-Med. Black Fantasy, to be held Saturday, promises to be everything grand in the way of entertainment.

Saturday night will see the Rise Hotel Crystal Ballroom transformed from its daytime personality into a glittering, oil-vernaved with black understudy, with black understudy; and at 9 that evening, and as you find yourself steeped in the dimly lit atmosphere and your thought interrupted only by the carolingly electric. If you dare, you will be able to receive the notes of dissatisfaction and delight.

The show will rival the atmosphere of the famous and exclusive clubs of the East Coast. Four-hour entertainment will begin at 9:00 and run until 1:00 a.m. The entertainment will include the following:

- **T. C. W.**: traditional dance of the club, chosen to please the majority of guests.
- **Voted For Favorite Polar Player**: vote for your favorite player and be sure to cast your vote in the lobby of the Regis hotel.
- **Contest to End in Two Weeks, Cast Your Vote for Subsidence Checks Will Not Be Received by Some Veterans**

Appropriately 160,000 of the 16,000 veterans who are in training at the University of Texas are getting checks for their subsistence payments. The reason for their tardiness in receiving their checks is that the veterans who are training now have less income and therefore have more demands on their funds.

**Council Clarifies Majorette Query**

The question of whether a majorette should be allowed to wear a crown in the December 11th dance, was considered at the Student Council meeting Wednesday night. The Council declared that the majorettes should not be allowed to wear crowns.

**Vote For Your Favorite Polar Player**: vote for your favorite player and be sure to cast your vote in the lobby of the Regis hotel.

**Eagle's Quiz**

The NROTC and NACF provide educational institutions with educational opportunities for veterans and their families. In order to be eligible for these programs, the veterans must meet certain requirements.

**Frogs Fresh From Victory Over Steers Ready to Meet Owls**

When Coach "Dutch" Meyer brings his team to Rice Field Saturday afternoon, he will have everything to gain and nothing to lose. Without hoping for a share of the title themselves, the Owls look to the University of Texas for a tune-up game.

The Owls have scored against most of the Ivy League teams and are ready to face their toughest opponent yet. They are looking forward to facing the Owls and are ready to try the same things done here.

**Dr. A. C. Chandler To Lecture On Maltese Conspiracy**

The fifth lecture in the rice Student Council lecture series, conducted by Dr. A. C. Chandler, will be given in the Rice Student Council lecture room on Saturday afternoon, November 26, at 12:15 p.m. The lecture will be on the topic of "The Maltese Conspiracy." The lecture will be open to the public. The title of the lecture is: "The Maltese Conspiracy in the World of Today."
The recent gift to the Rice Institute by Mr. and Mrs. Harry C. Weiss will long be remembered and appreciated by all who take an interest in the future of Rice. Coming at this time, when Rice has started its post-war planning and expansion, it will be especially helpful in making Rice one of the most advanced and respected schools in the United States.

Mr. and Mrs. Weiss directed that the income from 30,000 shares of Humble Oil and Refining Company be given to the Institute for the next 17½ years. Their wish is that the money be used for the general purpose of the operating fund in making Rice an advanced technological and engineering school. In this way the school will be assured of being able to carry out its ambitious plans for building and adding new facilities without being worried about the many, small but important things that make up a large part of the budget of a school.

Mr. and Mrs. Weiss showed great interest in the future of a strong America by so using their money. Believing that the only way to protect our heritage is by having an educated citizenry, the Wee's have challenged us to do our best to become strong and useful citizens in a few years. Knowing that our ideas have such a great effect in our future can not help but inspire each and every one of us.

We thank you, Mr. and Mrs. Weiss, for your generous gift. We shall take it upon ourselves to prove to you and the world that your trust in us is not misplaced.—J.Y.

The first few days of the month were once a time of feverish activity for telephone accounting personnel. In that short period millions of telephone bills had to be prepared, checked and mailed. But the Bell System accounting staff, seeking to level off this work peak, found a practical solution. It's called "rotation billing." Now in our accounting departments, a new month begins every few days. Accounts are divided into six or more even groups, each with a different billing date. This spread the work evenly and eliminates the last-minute rush. This special problem, solved by telephone accountants, is typical of those which often confront management in the many branches of our business. They present a stimulating challenge to the young men with initiative and imagination who will find such practical solutions—now and in the future—on the path of exciting and rewarding careers.
