RI Magazine In To Appear Within a Week
Says Editor Herndon

Something almost definite about RI magazine to appear within a week—
Says editor, announcement that it will be on sale in Saullport or the first part of the first week.

Already, even though the staff, RI has a nine month history. The idea of a new magazine to appear at the first of the new year is still very fresh, as was the name of George Eliot's novel. The title was chosen by a committee of faculty and students. The name was announced Tuesday as "The Thresher." The name suggests a weapon, and the editor, a weapon with special emphasis on the cartoonist.

Senior Commons: Topics for discussion of Dr. Maurice Ewing, Rice Institute, and Mr. J. L. Scardino, Mr. John L. Girard on "Student Life in Paris," and Mr. Cameron on "A New Club for All Men." The Class of '49 announces a committee to work out and coordinate for the first part of the first final week.

Editorials

Dedication

It is our desire to dedicate this volume of The Thresher to the success of the administration of The Rice Institute in its plans of building for the future of Rice.

It seems a fitting dedication for at this time definite and extensive plans have been formulated and many more are pending to make Rice not only a more renowned institution but also increasing its already recorded merits. So to this ultimate success of making Rice a still greater Institution do we dedicate this volume of The Thresher.

Utilization

With this issue we end volume thirty-four of The Rice Institute Thresher.

Throughout the school year The Thresher has striven to increase the scope of the papers to the students. The degree of the success is indeed difficult to measure for the factors involved in preventing The Thresher from attaining the ultimate are many and varied. However, the transitional work has begun and needs to be carried on with ever increasing intensity.

The students must not only remember that The Thresher is the student paper but make use of it. It can be a potent tool of the students, but it can only be effective if the students themselves make it so by their participation and interest.

This year The Thresher has had marked success in composition and development, the interest of the administration, faculty and students. The work has begun but it must be continued. The aim to which The Thresher may obtain complete success of its purpose is to mold the voices of the students, but it can only be such if the students have begun.

With this issue so ends volume thirty-four of The Rice Institute Thresher. This year The Thresher has had marked success in composition and development, the interest of the administration, faculty and students. This year The Thresher has had marked success in composition and development, the interest of the administration, faculty and students.

Rice Fencing Team Go to Austin for Last Meet of Year

Members of the Rice Fencing Team will attend the three regional meets in Austin June 8 and 9 and the National Interscholastic Fencing Tournament sponsored by the Texas Fencing Board June 10 to 12.

The team has been in promotion and practice for the entire year. The final meet of the year on June 12 is the National Interscholastic Fencing Tournament at the University of Texas and the meet will be attended by over 1000 fencers from all over the United States.

In the 1961-62 season the University of Texas, Rice, and the University of North Texas held the top three spots in the state and were the only schools to attend the National Interscholastic Fencing Tournament in Dallas last year.

The team will be represented by Sam Match and Bob Curtis. Match is the number one fencer and will represent the team in the National Interscholastic Fencing Tournament. He has represented the University in six regional meets and has been the best fencer in the state during this period.

Curtis has been the second best fencer in the state and has represented the University in four regional meets. He has won the state championship in each of the last two years.

The National Interscholastic Fencing Tournament will be held at the University of Texas and the meet will be attended by over 1000 fencers from all over the United States. The tournament will be held from June 10 to 12.
