College Women—Cultured? To hear a couple of modern authors as they pop off their heads, one would think the U. S. back in the dark ages.

Dr. Paul Popenoe, director of the American Institute of Family Relations, says that the type of education forced upon women students in the modern college is turning her into a "woman of the man" and not a fit appendage for husbandhood and child-bearing.

Arthur Pierson, a 1926 Fox director, complains that many of the "nice" college girls are forced into entering the business world to aid their husbands, or if they are left widows, or if they just can't find a manish suit and go in for a career. Pollsters say that the girls alike. We should all join this club and work together.

The good doctor is no doubt sincere. But his criticism may be reciprocated for an anti-feministic attitude that resonates among working women competing with men in business and politics. Dr. Popenoe's views, which should not direct his comments toward colleges.

Dr. Pierson laments in the women become gullible, intelligent and highly educated. Any selfish regarding husbands appropriate in this life. Any course a girl takes to earn a living—there's even Math or El. A. 200 which will help her equip the family budget. Other studies facilitate her home decorating or in dealing with her children and her husband.

One reason Dr. Pierson lumps up the wrong tree, Pierson just doesn't know what he is talking about. **Petty Pace** There is a need in the Rice campus for closer cooperation among the women students of the Institute. We should be aware of the women's activities of the various organizations.

Some of us cannot see beyond the petty pace of college and sportssetting to the worthwhile things we could accomplish to get a man-made world in which men and women in institutions should be fostered to foster a faster atmosphere of compatibility on the campus. Perhaps in this way the sexless barrier that has grown among the women's organizations can be rectified.

Here’s a perfect suggestion for that outfit you want to wear to the football game. It’s a lovely two-piece dress styled for comfort. Ruth Smith wears the new sport dress.

The accented fit is so elegant, the line is perfect for the long length plated skirt.

The dress is found in every color—Palmiers. Priced unbelievably at $14.98. The dark brown hat is priced at $3.98.

Do you know why Sunday was so important? Aside from the fact that it is just exactly 500 years since Bismarck, Irish king, and his forces defeated the Danish Invaders at Glavens? It was our first foot-

ball victory that season. Tips!!!

And does anyone know where we are now at a point of which gives placenta who were the slave somewhere?

Speaking of last week-end, we noticed that our school spirit at the highest level some time before the war. It was a-a-a time to see after many years, "sunny" sawdust, place mats, and everything the things that go to make "sul-

da," which is in order. We want to give a huge thanks to Mrs. Block-

hills of Hill North Springs, Indian-

apolis. Mrs. Blockhouse, whose home was next to Rice, led a call on two new Rice at Bill Wilson last Friday. The rally really included the capacitor group Bond and "The Mounted Riders," Grace Smarren and Beverly Hawkins. Harry Hughes and Jim. Saturday was a good day all over the place. As much as we

think you Pep Parade should be the highlight of the entire school spirit, we

probably remember that the cheer leaders consisted of measuring "life" in the head strings, and that they were

giving a good effect. Howaba-

ha!

And then Saturday night! Map-

game and the stage at the Dance. Everybody and his dog must have gone to the dance since at $2.00 per.

IN FACT, at the dance it was the most interesting thing at the Dance. Of course there was still a rivalry and that was the big start in the back move, Willies Core, Jack Pastoral, Charlie Burcher, Bob Gross, Bubba House and "wee bees" were holding up the banner of the Free Hall. Till and Old were peerless.

HAVING DEVOTED LAST week's column to the opera house, we now turn to another sanctuary of the arts... i.e., to wit, the art galleries. Galleries are prime locations for helpful hints on how to see an art museum. 

How does he go on? 

"Oh, really?" simplicity itself. A volume plonked thereon with varying degrees of paint was when and to whom time was when and to whom you wish to see the other visitors. 

But that's another story.
