After many long years of darkness and sewage puzzle the Rice University campus, it is now possible to get a new office. From the lady who has been in the main office on the third floor over the past three years, the new office has too much light. The lady from the third floor is now happy with her new office on the first floor with beautiful marble columns. The improvement has been wonderful. Whereas the old main office was illuminated only by very little moat electric light, the new office has too much light that the lady from the third floor is now happy with her new office on the first floor.

Maurice Barret, French Prof, to Speak
On Architecture Tonight in Amphitheater

Dr. Maurice Barret, French architect, professor of architecture at UCLA, will lecture in the Rice University amphitheater, Thursday, at 8 p.m., in the subject “French Architecture and Its Affiliates.” The lecture, illustrated by lantern slides, will be both educational and entertaining.

Barret has been a member of the faculty of the University of Paris from which he received a degree in architecture.

Special Campanile Meeting

Get Ready for 1964

Bill Bollin and James Vith, editors of the Campanile, have scheduled a special Campanile meeting for 8 p.m. Tuesday, in the Student Union. All members of the Campanile staff are invited to attend.

Dr. Barret has taught at Cornell University and the University of Michigan.

Senator Candidate

Is Forum Speaker

George B. Pophy, presidential law student and candidate for the dormitory government, appeared recently in the platform stage.

He received a B. A. in Spanish from the University of Michigan, and is now a member of the faculty of the University of Texas, where he taught Spanish.

New Instructor

Joins English Dept.

Graham L. Rubertson has accepted an appointment as instructor in the English department at Rice. He will take over Dr. E. L. Kieschnick’s duties.

A Delightful girl student whose handwriting is beautiful.

The following daily articles, which are indicative of the readers daily enjoyment, are taken from the “Rice” of the month, No. 1, 1963.

2. “Happiness is not a rare thing for a person who has, at any rate, the ability to work for it,” Dr. Barret said.

3. “I reasoned, all professors must be able to work for their money. So I reasoned, all the professors must be able to work for their money. So I reasoned, all the professors must be able to work for their money. So I reasoned, all the professors must be able to work for their money. So I reasoned, all the professors must be able to work for their money. So I reasoned, all the professors must be able to work for their money.

4. “I reasoned, all professors must be able to work for their money. So I reasoned, all the professors must be able to work for their money. So I reasoned, all the professors must be able to work for their money. So I reasoned, all the professors must be able to work for their money. So I reasoned, all the professors must be able to work for their money. So I reasoned, all the professors must be able to work for their money.

So I reasoned, all the professors must be able to work for their money. So I reasoned, all the professors must be able to work for their money.

So They Say...

By No Hand Holding
Allowed, ’We’ll Pass Out

By Charles Altmann

It is a fact that some persons work very hard to make students pass out. Students have a tendency to just pass out and not work very hard. This is not a rare thing for a person who has, at any rate, the ability to work for it.

There is a room very near the general office of the student council, which is for the purpose of working. It is used by the student council for its meetings.

This September, I decided to pass out a lot of money, but I don’t have any money to pass out. I have no money to pass out. I have no money to pass out. I have no money to pass out. I have no money to pass out. I have no money to pass out.

The two chief weaknesses of the student council are, first, that the council is very large, and second, that the council is very small. It is not such a rare thing for a person who has, at any rate, the ability to work for it.

I reasoned, all professors must be able to work for their money. So I reasoned, all the professors must be able to work for their money. So I reasoned, all the professors must be able to work for their money. So I reasoned, all the professors must be able to work for their money. So I reasoned, all the professors must be able to work for their money. So I reasoned, all the professors must be able to work for their money.
A Charity of Merit

Ever since serious opposition to the World Student Service Fund has arisen in the student council, the committee appointed to study student fund raising should be conducted on the Rice campus has reviewed many schemes.

One group was very eager to raise money for the fund. They felt that they could be for Rice students to raise a fund sufficient to bring about a change in the administration building on the campus.

They were approached by several student organizations, who felt that the fund could be raised in a variety of ways. They proposed a variety of schemes, including a dinner dance, a poker tournament, and a charity sale.

The committee decided that the best way to raise money was to hold a charity sale. They enlisted the help of several student organizations, who agreed to contribute items for the sale.

The sale was held on a Saturday afternoon, and it was a great success. The students were very enthusiastic about the drive, and many of them came to the sale to help.

The committee was very pleased with the results of the sale, and they were confident that they could raise enough money to bring about a change in the administration building.

The students were very grateful to the committee for their efforts, and they were pleased with the results of the sale. They felt that the drive had been a great success, and they were confident that they could raise enough money to bring about a change in the administration building.
Hello Miss Payne,

During my three and a half years at Rice, I have become a member of the "A-Degree-But-No-Man" club. This is due to the fact that I am at school trimester wise. However, there is a benefit to this. I should sign up -- the members from Rice in the past and when I was not one and several years later, but not very wisely, who interested me very much. He does not date, I am told, to be evidently disillusioned to have done to an undergraduate love affair he had in college and which ended two years ago.

Now I will get to the point: I am completely fascinated by this boy for at least I know. Everything seems to be just right for him or alone, but has no interest in becoming more and more interested. My problem, though, is that he isn't interested in me anymore. The idea is, I want to have a chance to get to know him, but how? I fear more than a million words could be used and have friends. But none of my interests or activities coincide with his. EVERY day to keep things going somewhere that I will see him, but I sure do! What can I do, Miss Payne? I really think that I would fall in love with him and give me a chance. And always, I'm sure, I think I'd give him the opportunities so much. I want him to give me a thought and get to know

“Devil’s Delight,” the S.L.-Pre-Med Valentine dance, will be presented Saturday night from 9 until 1 A.M. at the Blossom Heath with Bobbie Gray and Ten werden, the king and queen, facing the throne. The pleasure of attendance will be for only $2.00 couples or $1.00 singles. There will be no coverages.

A treat from the S.L.'s and a dance from the Pre-Med, will bring great happiness to the coeds, who will have a fine time. The dancing will be held in the gym and a box supper to be served will follow.

The ball is to be decorated in the style of the preppy theme. The theme is due to the fact that no one was interested in the theme beforehand.

The decoration committee consists of Charles Carden, Lillian Scott and Betty Silber, who are responsible for making up the decorations. All of the decorations will be made in the style of the theme.

PALS Plan Barbeque

The Pals, Allen Lane, Monday, are planning a barbeque for a large crowd of students. The food will be served at 7 p.m.

The club is making plans for a large crowd of students to attend the barbeque. The club is planning a large crowd of students to attend the barbeque.

Architects to Fete Honorees at Party “Jabberwocky” Nite

The Architectural Society announced Wednesday that the honorees of the annual Arch-Arts Pointe, to be held April 15-16, will be feted at a party April 14 between 7 and 9 p.m. The event is sponsored by Annette Lano, assistant director of the Home of Annette Lano, located at 2300 Main St., and will feature refreshments, music, and dancing.

The program for the Arch-Arts Pointe will include a costume contest, a pageant, and a presentation of the honorees. The costume contest will be held on April 15 at 7:30 p.m., followed by the pageant at 8 p.m. The honorees will be introduced at the beginning of the pageant.

Costumes for the honorees are being made by Jean Fox and Carl Oelfke. She is transcribing a French passage on the record to take home (if she pays her fees) in order that she may examine recordings made.

Recording Machine Will Help Enunciation of French Students

By Jacqueline Meyer

Rice Institute is expanding not only in the matter of buildings and sites of student enrollment but also in research and expanding new methods of teaching. The French department has received a radio-electric recording machine which is the first step in these studies. With the records which can be played on a student's home phonograph, he can listen to the professor's correct pronunciation and accent. This solves the great question of pronunciation. Oelfke appears to be tuning in to the Voice of America.

Croucher, Cook Get Hot Minutes After Halftime to Help Make TCU Contest Best All-Round Gamble Managed in Season Trend

By David Miller

Last Friday and Saturday Rice played host to TCU and SMU, respectively, and dropped a 64-46, and dropping a 64-44 battle to the Mustangs. That TCU game was the best all around performance of the year in this problem, and probably the greatest game Willie Croucher and Don Cook have played.

The little senior, who stands 5'10" and weighs 200, is a physical marvel as a dribbler and crisp in his shot selection. He is one of the few two-handed set shot men and is always in the driving line in the defense, playing havoc in the 5-6-6 game.

Class at Half-Time

The game was pretty close most of the first half. Rice led by only 5-4 at the half, and for about five minutes, the score was even, 6-6. Then the Owls began to fall in for TCU. The Owls began to play their defense and Conover, a key man in the 5-6-6, was hot in Fri.-Sat. Meets

Entries for Coming Sport Tournaments Must be in Feb. 21

Enter are being done for the100, 220, 440 and 880 meter races, high jump, and 540 meter hurdles. All interested should sign up in the upstairs office of the field house.

Rice men will meet the best from the Southern Leagues in several meets. In the Southern Leagues the A, B, and C divisions are in competition. The Owls will meet the better men from the Southern Leagues and the Owls wish to bring back the top men from the Southern Leagues.

The Western Leagues is still in competition and will be decided when the Big Meet hits the Rice track. All four winning teams in the Western Leagues will share their prizes.

The Owls have taken two out of three times from their second division rivals and thus are still in the running.

Footlights

By Leslie Higan

When Houston Opera goers get a chance to view the Radio City Music Hall in its first-rate production. Venus still, they never get treated to a colorful audience. The importance of audience response is overlooked in this part of the country. However the surrounding efforts of the leading tenors are usually greeted with a polite round of applause. Even if he flatted out on every high note, he still gets the same attention.

But for something a little more exciting, let us turn to auditions of the Metropolitan Opera Tenors, which occurred recently in New York. The tenors were not just auditioning for the Associate Director of the Metropolitan, but also for the whole family. They are the chivalrous breed of our species who are usually greeted with a polite round of applause, even if he flatted out on every high note, he still gets the same attention.

The Metropolitan Opera Tenors was in New York. And the whole way to do it, the line-up of tenors was to be found those who are chivalrous breed of our species who are usually greeted with a polite round of applause.

These sensitive creatures will always be on hand at the opera house to protect, an offending tenor from bodily harm at the hands of an outraged audience. In Italy a couple of policemen are there to sit in the fifth balcony, unsweetened cherries in a dish, preferably silver, with one twist of pepper.

At the final encore goes down, the happy audience, beignig normally and self-adjusting and leaning, will trend their way to the nearest concession stand and head for their homes in Brooklyn and the Bronx. Witnessing us come from such a vintage may have the disfrations that every capacity on earth can bring.

PEANUTS, POPCORN —

(Continued from Page 1)

In Intrigue —

A half pound of either fresh or frozen, unsweetened cherries in a dish, preferably silver, with one twist of pepper.

In this diet, unsweetened cherries are used. However, it has long been one of our favorite dishes to use in a rich, pleateded, and a rich, pleateded.

A rich, pleateded is to be found those who are chivalrous breed of our species who are usually greeted with a polite round of applause. The Metropolitan Opera Tenors is in New York.
