The Thinking Trend

Rice elections in the past have often been merely popularity contests in which the candidate with the biggest grin polling the most votes.

However, in keeping with the new thinking trend on the campus, a sincere effort seems to be in progress to know and judge each candidate by his or her qualifications.

The Forum group did a great deal of work to set up the important issues toward clear thinking politics on the campus. In support, The Thresher has conducted a poll over the past two weeks designed principally to make the students consider the candidates before they go to the polls.

The political rails which are being held by these direct outcomes of the Forum committee planning.

Also The Thresher is running today those biographies which it requested the office-secretaries to respond to this means of reviewing the people so that there is little reason for every student not to know the candidates.

Thus there can be no justification for a light vote on Monday. A small polling will not give representative results. Each vote is a necessary vote. Each intelligent vote is an important vote.

Petty Promises, Popularity Polls

It is with no pride that the students of Rice can look back upon their election years. Petty promises, popularity polls, and "good times" platforms have often been completely subordinated to ambitions, and signs appear on the campuses in praise of, that, or the other candidate's personality and friendships.

Yet no one contests a statement of platform or relevant qualifications. This is an indication of a frivolous attitude on the part of the electorate and political immaturity on the part of the candidates.

Because of vital importance to Rice's few students now, N.S.A. promises a program that will affect all phases of campus life. The controversy of the campaign must be decided.

A new Honor Court constitution is to be approved or rejected. The student association constitution under which a new government must exist is being written. Students have every right to know how their candidates will vote. Those candidates who do not make themselves explicitly clear on these issues betray a lack of genuine interest in the welfare of the student body, ignorance of the problems involved, or a degrading opinion of the student electorate.

We believe occasional representation of Rice in outside affairs by a capable government does not stem from speaking personally one does not grow in a spirit of superfluous friendliness. Meetings are not the result of a sweet smile but of a rigorous application of parliamentary procedure administered by capable officers. Petitions for the council carry a statement that the candidate has read and understands both the constitution and the new constitutions. Some candidates have read these constitutions once; others have not bothered to spend a few minutes complying with the ruling. Few indeed have even known these constitutions once; others have not bothered to spend a few minutes reading them.

The student body is not the result of a sweet smile but of a rigorous application of parliamentary procedure administered by capable officers. Petitions for the council carry a statement that the candidate has read and understands both the constitution and the new constitutions. Some candidates have read these constitutions once; others have not bothered to spend a few minutes reading them.

Today, Friday and Saturday, candidates for school and class offices speak in behalf of their candidacy. It is clearly their duty to make a mature and intelligent statement of their qualifications and position in the student electorate of Rice.

Calendar

The Forum will hold its next Student Government meeting Thursday, April 1, at 7 p.m. in the Forum lecture hall.

Thursday, April 1
The Student Society of Chemistry and the Engineers meeting 7:00 p.m. in the Forum lecture hall.

Friday, April 2
Mathematics toilet, Dr. H. R. J. will discuss "A Century of American Mathematical Progress" at 4 p.m. in A. H. Miller.

Monday, April 5
A. S. H. E. student branch, meeting with election of officers and constitution and by-laws at 7:00 p.m. in the Forum lecture hall.

Wednesday, April 7
N.S.A. executive committee, meeting with election of officers and constitution and by-laws at 7:00 p.m. in the Forum lecture hall.

Thursday, April 8
In order to conserve space, meetings held elsewhere than the Forum will not be mentioned here.
Owls Journal — To Waco Today.

Tit With Dangerous Brins Initiates Conference Season

By BOB WILLIAMS

The Owls must face Baylor this afternoon to face the first game of the new season which will usher in the conference season for both teams. The home team has about an even split for the window of the column for the players.

The Owls will field a strong team sporting five wins and one loss. Coach Neely has not been easy this year to catch the Bears. With a strong lineup of players, they have set a new record for a single season. The Bears will give their best effort for a win and will try to break the record.

Last week the Owls split a two-game series with Rice, B.L. and lost a second game from the Sam Houston Richmond players.

Last Wednesday, the B.L. Bucs defeated the Owls by a score of 8-3. It was a hard game to lose, for the Owls were playing against the Bearcats. The Owls won the second game from the Bears, Coach Noble set a new record for the Owls. It is something they want to keep up.

Paul Vohls and Fioo will play head-to-head golf, but were unable to take a single match from the Owls. "The Owls will be in the match," said Noble. "We have the best team in the state."

The Owls exploded in the last half of the game, scoring three runs to win the Match. No one except a miracle team from neighboring teams, the Owls can win by any way as they take it easy. In order to win, the Owls need a strong lineup of players.

The Owls are expected to lose on Saturday, as they face the Bears. The Owls need a win in order to keep up the state record. The Bears are expected to win. The Owls have a strong lineup of players, and the Bears need one too. The Owls will face both teams on Saturday.

Dr. Wheeler to Speak

Dr. Paul Wheeler, president of Texas A&M college, will speak on the scientific aspect of the football game next Thursday at 7:15 p.m. in L. T. M. Making the most of a Preconference meeting, Dr. Wheeler will speak on the various aspects of the football game in the University of North Texas. He was president of the Rice Owls. The Owls lost by 8-3, but have not been defeated by that score.

The Owls will play on a field that is a road and has a state record.

Gates Low

The Rice golf team composed of John, Frank, and Ed will play against Rice on Saturday.
