Abercrombie Lab Is Rapidly Nearing Completion

Though few adequate facilities are
ready to receive students, the new
Abercrombie Laboratory is
rapidly nearing completion.

The new building is designed
for the use of students in the
department of engineering.

The laboratory is divided into
several sections, each

serving a different purpose.

In one section, students can
work on experiments related
to mechanical engineering.

In another section, students

will be able to work on
experiments related to

electrical engineering.

Another section is designed
for use in biological sciences.

The laboratory is scheduled
to be completed by the end
of the semester.

What I Liked—

Dr. Tsafon's "Philosophy of Religion"

Deals With Vital Phase of Existence

By Grace Allen

The course is an excellent
introduction to the study of
philosophy. Dr. Tsafon

presented the material in a

clear and engaging manner.

I particularly enjoyed his
discussion of the concept of

human nature and its
implications for ethical

decision-making.

I also appreciated his
emphasis on the importance

of critical thinking and

self-reflection.

Overall, I found the course

both informative and

stimulating.

Free Page Cases Will Be Distributed

All Rice students and faculty
members are entitled to receive
free cigarette cases, a package

of tobacco, and a free

cigarette case, with a package

of cigarettes.

The cases and cigarettes will

be available on a first-come,

first-served basis at the

front desk of the Student

Union Building.

In a number of the most highly regarded colleges and universities there has grown up the tradition of the Honor System. Many graduates of these schools regard it as one of the most impressive and valuable features of their training.

In a sense the name is inappropriate, for honor is not a commodity to be bought or sold, but the responsibility that accompanies the character of the student. The term is a misnomer. It is a body, free from the influence of men or of the State, that enrolls and protects to the left to someone else. It is a matter for each individual to conduct his own life so that in the end it may be said of him, as it was of Mr. Tyson, that he was a true friend to his God and to his Country.

The three polling places will be set up in the Men and Boys' Shop, in the Center of the Forum, and in the corner of the Men's Dormitory. The three polling places will be open from 8 a.m. to 8 p.m. on Tuesday. Any student who is registered in the University and who is of voting age is eligible to vote.

The challenge was also made that the Rice Honor Council and Honor System should be declared as a secret body. This is not true. Mr. Tyson has the desire to make clear to the student body the system as it is practiced, and the result was to give Rice a working Honor System, but it can give us a definition of it. The system of the Honor System is that every student is responsible for his own actions, and that any student who violates the principles of the Honor System is subject to punishment.

The system of the Honor System is that every student is responsible for his own actions, and that any student who violates the principles of the Honor System is subject to punishment. The system is run almost entirely by this student group. These things and others have been favorably noted in the inspection of the students, with the stipulation that any improvements, additions, or deletions that are made are not to be done without the advice and assistance of the Honor Council and Honor System.

The system is run almost entirely by this student group. These things and others have been favorably noted in the inspection of the students, with the stipulation that any improvements, additions, or deletions that are made are not to be done without the advice and assistance of the Honor Council and Honor System.
Dear Miss Space:

I've put lots of trouble and effort and I've done my best to answer your letter and I hope to please you. There are four main points I wish to make.

1. I am very much concerned about the quality of the clothes I am wearing. I am not satisfied with them and I feel they do not meet the standards of the club. I would appreciate it if you could suggest some improvements.

2. I am not satisfied with the service of the members of the club. I feel they are not treating me with the respect and kindness I deserve. I would like to see some changes in their behavior.

3. I am not satisfied with the way the club is run. I feel it is not functioning efficiently and is not providing a good service to its members. I would like to see some improvements in this area.

4. I am not satisfied with the way I am treated by other members of the club. I feel they are not treating me with the respect and kindness I deserve. I would like to see some changes in their behavior.

I hope you will take these concerns seriously and work to improve the situation. I am very much concerned about these matters and I would appreciate it if you could take action to address them.

Sincerely,

NAMELESS
Proposed Honor System Constitution

The Honor System is necessary in order to conduct our examination and maintain the highest standards of academic honesty and integrity. This document outlines the structure and procedures of the Honor System, which is administered by the Honor Council.

1. Article I. Object of the Honor System

The Honor System is established for the purpose of maintaining the highest standards of academic honesty and integrity. It is designed to foster a culture of responsibility, thereby promoting a high level of professional conduct and personal integrity.

2. Article II. Jurisdiction

The Honor System will apply to all students of the Rice Institute, including undergraduate and graduate students, and will be administered by the Honor Council.

3. Article III. Structure and Administration

The Honor Council is the body responsible for the administration of the Honor System. It consists of the Chairperson, Vice-Chairperson, Secretary, and seven members elected by the Student Body. The Council meets regularly to hear and consider cases.

4. Article IV. Pledge

Every student must sign a matriculation pledge before the Honor Council any suggestions will be entertained. The Council may adopt or amend the pledge at any time.

5. Article V. Examinations

Any breach of the Honor System is defined as a violation of the Honor System. Violations can include but are not limited to cheating, plagiarism, or other forms of academic dishonesty.

6. Article VI. Amendments

The Honor System can be amended by a majority vote of the Honor Council members. Amendments must be approved by the Rice Institute and the faculty.

7. Article VII. Trials

All trials of the Honor System will be conducted in accordance with the procedures outlined in this section.

8. Article VIII. Pleadings

When a student is accused of violating the Honor System, he or she will be suspended from the Rice Institute until the end of the trial. The student is not matriculated after the accused.

9. Article IX. Verdict

If a student is found guilty, the penalty will be determined by the Honor Council. The penalty may include suspension from the Institute for a specific period.

10. Article X. Records

All records of the Honor System, including minutes of meetings, will be maintained by the Honor Council.

11. Article XI. Hearing

Hearings will be open only to the President, the Dean, and the Honor Council. No other student or faculty member may attend.

12. Article XII. Judgment

At the conclusion of a hearing, the Honor Council will render a verdict of "guilty" or "not guilty." The accused student will be suspended from the Institute until mid-year for all violations.

13. Article XIII. Appeal

Any appeal of the verdict will be considered by the Honor Council or the Rice Institute. The appeal process will be conducted in accordance with the procedures outlined in this article.

14. Article XIV. Failure of Accused to Attend

If a student is accused of a violation of the Honor System and fails to attend the hearing, the rights of the accused will be limited.

15. Article XV. Verdict

A student found guilty by a seven-ninths (7/9) majority vote of the Honor Council will be subject to change by the Honor Council in accordance with the procedures outlined in this article.

The Honor System is designed to ensure academic honesty and integrity at the highest level. It is our collective responsibility to uphold these values and maintain the integrity of academic pursuits.
Sports

by David Miller

They ran for the home stretch on Saturday afternoon from E. T. Ericksen in front (Varsity and freshman) and they ran away from similar teams representing Baylor and SMU. As coach Joe Emmons' brother Brunson watched his varsity roll away, his eyes glinted black with the joy of victory.

The Rice boys were also in evidence on that last Saturday and really put it down to the wire with Baylor's 28-6 win. "What a day," was the comment of coach Joe Emmons, who added that his boys put it to the wire with the Bears.

"I think we should have won comfortably," said Emmons, "but the boys just didn't have it in them. They were worn out by the end of the game and didn't have the energy to finish it off."
Footlights

By LESLIE HOGAN

FOR THOSE WHO get a kick out of listening to classical music with company, Pierre Girard, assistant professor of French, and the Thresher have dreamed on a starring idea. You are all invited to room 104 Anderson hall April 21 at 7:30 p.m. for the initial meeting.

This is the third date set for the initial meetings, so more time and it can’t be held any more. But we will have it next Friday even if the meeting molder of three lockstep in classical whistles until the old perfect.

There are bound to be a number of symphony groups around the campus, listening with start when they are Buck and Hub-

More about music, and a person of his knowledge, appreciation and capacity of quite necessary to keep the meetings flowing along.

Girard won’t have no to make a speech to sell the less experienced listeners... his discussions and answers to questions will be enough to satisfy Sigmund Spaeth.

For the first gathering, Mr. Girard will have on hand a number of rare recordings of music by Mozart, Beethoven, etc., that is just plain hard to choose from among the附属 rare recordings.

F. J. Proctor's Fifth and Fourth "Blue Devils" will undoubtedly be introduced when the film ends, but it is hoped that more time will be devoted to the lesser known, but equally splendid, works of the great composers. Anyone with a recording for discussion must make arrangements for their presentation at subsequent meetings.

Possibly the meetings run on their present plan of a performance of a piece of music where the chairs will be made and the arrangement of music reflecting the mood.

But for the first meeting several little tricks on the program were thought to be the best place, and the Anderson Hall was small.

This way more people will be able to attend.

There is not much need to mention the social affairs of the meetings, as the club will be the center of information, old and new.

Next year, Mr. Girard hopes to present a symphony or chamber music album.

"Chesterfield is my idea of a really enjoyable smoke. They’re O.K."
Mark Stevens Starring in "The Street With No Name" A Twentieth Century-Fox Production

WHY... I smoke Chesterfield (FROM A SERIES OF STATEMENTS BY PROMINENT TOBACCO FARMERS)

"I think Chesterfield is the best cigarette on the market. I’ve smoked them for about 20 years. It’s mild and it’s got more real tobacco taste."

"Lippett & Myers may say the middle leaf... it’s the best leaf... it’s mild... it’s got to be nice. They consistently pay above the average to get the tobacco they want."

R. B. Earbank
