RICE INSTITUTE REVIEW

VOLUME THIRTY-SEVEN — NUMBER NINETEEN
HOUSTON, TEXAS, FRIDAY, MARCH 2, 1950

Entered as second class mailing matter, October 17, 1945, at the Post Office, Houston, under the act of March 3, 1879.

All Departments Primp For '50 Review Opening

by Finis Cowan

With little more than one month left before opening day, April 14, the next few weeks are extremely important for the progress of the Rice Institute Review of Science and Arts. March 1 is the deadline for pictures of exhibits to be printed in the Review program. For this reason, the most important projects should be near completion by the first of March.

With academic pressure slightly lessened by the termination of the recent crisis, work on the Review is expected to move ahead rapidly.

George R. Brown Announces 10-Year Expansion Plan

Rice Institute trustees plan to start in 1958 or earlier a second 10-year program of improvements which they hope will ultimately raise the endowment by an increase of 500 in the number of students admitted annually. George R. Brown, newly-elected board chairman, said Saturday.

Mr. Brown, first ex-student of Rice to become chairman of the board of trustees, said that the first 10-year program, started in 1945, is virtually completed now, five years ahead of schedule.

Major immediate objective of the board, Mr. Brown said, was to increase and strengthen the facility to bring the teacher-student ratio down to one teacher for every 10 students.

The ratio is now about one to 12, with a faculty of 115 for a student body of around 1500. This, Mr. Brown said, is the lowest ratio in the Southwest. At the time Houston arrived, the trustees were in the process of adopting the first 10-year program, which the late Harry C. Witherspoon, as vice-chairman of the board, played a big part in starting.

"Rice is not like most other colleges and universities, which raise from 40 to 100 per cent of their operating funds through tuition charges. Princeton raises 40 per cent of its operating funds through tuition and the University of Houston raises 150 per cent that way."

"But Rice charges no tuition, the mote-control car will be capable of raising the 100 per cent way. Princeton raises 40 per cent of its operating funds through tuition and the University of Houston raises 150 per cent that way."

"But Rice charges no tuition, the only privately endowed American University which does not. That amounts to giving 150 scholarships a year—every student covers it on a scholarship. We do not arbitrarily set this figure, it simply is all Rice can take care of with its present faculty."

There was no comment on the announcement now plan from the office of Mr. James Morehead, assistant to the President.

Tryouts for "The Impressionshable" by Clarke Foster and Henry Roy Walters will be held at 7:30 PM Thursday and Friday March 9 and 10, in AH 110. The play can be read any day in the RJ Office. Tryouts are not limited to Dramatic Club members.

President and Mrs. Houston request the presence of the graduate students and their wives at an informal dinner to be given in Cohen House at 6:00 PM, March 4.

More Freshman Girls Admitted to Lit Groups

On Saturday morning, the freshmen girls on probation received their bids from the four Literary Societies. The new member of the BHS is Marydelia Edley.

The OWLS received Pat Cunningham, Beverly Brooks, Pat Byrne, Lynne Rice, And Lingafelter, and Ellen Yanger. The new members of the PALS are Carolyn Hooten and Maggie Peguinerty.

The BHS took in June Gordon. The new girls were honored along with the rest of the pledges at the Open Houses Sunday night.

Alpha Phi Omega Elects Officers

Spring elections of the Rice chapter of Alpha Phi Omega, national service fraternity, were held at the fraternity's sound open meeting Wednesday night, 7:00, in Senior Commons. Karl Hall. Dean Cameron spoke to the members and prospective members about the administration's relations with APO. The spring officers are Harry Hoover, president; Leslie Spencer, vice-president; Neil Gerland, secretary; Bill Withropreu, treasurer. Charles Howe, historian.

The first open meeting was held Wednesday, February 21, in the Senior Commons. Guest speakers at this meeting were Gilbert J. Hearn, chairman of the faculty advisory committee, and Dick Burks, advisor from the Scout office.

APO is the largest fraternity in the United States, consisting of more than 170 chapters.

Film Society, French Clubs To Present "La Marseillaise"

The Rice Film Society and French Clubs sponsored by Dr. Luster Mansfield will present as the next film in its series the French motion picture "La Marseillaise," a story of the French revolution. The show will be on Monday, March 5, at 7 and 9 PM.

Since the membership of the Film Society now numbers 180, the entire Lecture Lounge will be held for members until the starting time of the film; any seats not then taken will be free to non-members.

Membership cards may be picked up from Helen Chillman in the Fine Arts Room of the library, or at the Monday night showing.

REVIEW DEMONSTRATION.

Two civil engineering students are preparing the form for a pre-stressed concrete plank which will be a part of the 1950 Rice Institute Review of Science and Arts, new name for the old Engineering Show. These concrete planks, which are being made by L. M. Graves (left) and Carl Clark, bend enough to be used even for a diving board. Very little work of this kind is being done in this country.

Prizes are being made by L. M. Graves (left) and Carl Clark, bend enough to be used even for a diving board. Very little work of this kind is being done in this country.

Harry C. Weiss, as vice-chairman of the board, played a big part in starting the first 10-year program, which the late Harry C. Witherspoon, as vice-chairman of the board, played a big part in starting.

The Laughing Maniac

By Emmett McGeever

I see by the University of Houston Cougar that they are holding what they call a "Career Day" in April. The idea is a day devoted to lectures and study of open job openings for the college graduate. The program, according to the Cougar, is aimed both at prospective graduates, and at freshmen who are aware of the need for specialization. This idea is probably the only good thing to come out of Career Day, for I disagree its worth simply because of the "career" that is in a plan. This would be particularly applicable to the Rice Institute, where you can't just drop in and study the odds after the other and still graduate in six years.

This might be something for the Forum Committee to look into. And again, a really constructive idea like this might be beneficial to the level of the ethical notice of the Forum Committee.

While more or less on the subject of American education, I would just like to point out that there is a lot of people have been noted in pointing out. Namely, while it is true that we are becoming more democratic, they are lowering themselves to the high school level. This is the level of which has received little attention, however, there are continual successes, and a student, that is, a STUDENT, one gets is one good for the his time he's twenty-six or seven, just like all lines of an educational system has more depart-

These contemporary college journals and newspapers have been picking on the University of Houston (of course, the MU Campus) carried an election story that was a dilly. It seems that a lot of people have been noted in pointing out. Namely, while it is true that we are becoming more democratic, they are lowering themselves to the high school level. This is the level of which has received little attention, however, there are continual successes, and a student, that is, a STUDENT, one gets is one good for the his time he's twenty-six or seven, just like all lines of an educational system has more depart-

* • *

This year's freshman class has shown that there is a lot of people have been noted in pointing out. Namely, while it is true that we are becoming more democratic, they are lowering themselves to the high school level. This is the level of which has received little attention, however, there are continual successes, and a student, that is, a STUDENT, one gets is one good for the his time he's twenty-six or seven, just like all lines of an educational system has more depart-

Aside from the Kinsey report and
Mercy Death: Right or Wrong?

Mercy Killers Often Go Free; Church Condemns "Release"

F PRECEDENT MEANS anything, Dr. Hermann Sander, the New Hampshire physician, now on trial for "mercy killing," will probably go free. In the last 15 years, several doctors and laymen have been convicted of murder for killing a patient with an incurable or highly painful disease. To trial and most of those who have been convicted have since their sentences, or pardoned.

As early as 1955, agitation for the legalisation of "mercy killing" or euthanasia, began in England. Several doctors stated that they had deliberately ended the lives of patients who were suffering. One doctor said that he had killed five such patients.

A bill to legalise the killing of people with incurable disease when they requested the act was actually introduced in the British House of Lords in 1956, but was voted down. Both clergy and the medical profession were divided on the issue.

In 1967 a similar bill was introduced at the behest of a patient. The first statistical expression of what has become a worldwide problem was brought to light in 1980, when a Gallup poll showed that 54% of the people favored legalising euthanasia. Three-quarters of the people in Britain favored euthanasia, but only 25% of the people in Britain favored euthanasia.

The position of the Roman Catholic Church has been one of the most inauspicious. The first significant Vatican statement on the subject was that of the Holy Office, the highest doctrinal council of the Church, and stated that the "end of suffering is not a sufficient reason for euthanasia to be permitted." The question on which the group was asked to rule was: "Is it legal to take human life.

Dr. Harry Emerson Fosdick, a well known Protestant clergyman, who was asked to rule was: "Is it legal to take human life."

I have no doubt that under the law, the man is guilty, but ethics is sometimes different from the law. The doctor had a terrible responsibility to his patient. But the man is guilty. That is an inconstant position, I realise, but I am not sure of the basic solution to the problem.

"I have no doubt that under the law, the man is guilty, but ethics is sometimes different from the law. The doctor had a terrible responsibility to his patient. But the man is guilty. That is an inconstant position, I realise, but I am not sure of the basic solution to the problem.

"As an aside, Mr. Williams pointed out one of the interesting aspects of his case: that even though the doctors and the nurses and the relatives and the legal profession have faced the same question, they have not faced the same question.

"The storm's energy is dependent on the water before them) and there-
Juniors. This is a remarkably young one have one man out of the first five; Buster Brannon. Lutz of SMU has three Juniors and 2 Seniors on the two Rice, group, usually there is a terrific Owlook Picks SWC Team

One of the requirements of writing on the subject of athletes whether you are ever read or not, is an attempt to rate them as to ability. This always brings about discussions of a pretty heated nature. Of course sticks and stones and monsters may hurt me, but you know darn good and well that names won't.

So, not giving a hoop about the names, and trying not to think about the sticks and stones, etc., the staff heartyly promotes its blessing on 13 Southwesterners.

Switcher

FIRST TEAM
Hamilton, 6-3, Texas
Husthington, 6-4, Baylor
McLeod, 6-4, TCU
Lutz, 6-1, SMU
Owlook

SECOND TEAM
Cathcart, 6-4, Arkansas
McDermott, 6-4, Rice
McLeod, 6-3, SMU
Switzer, 6-3, Rice

THIRD TEAM
Frostace, 6-4, TCU
Hudspeth, 6-4, Arkansas
Preston, 6-3, Baylor
Brown, 6-1, SMU
Tigges, 5-8, Rice

A quick rundown will see that Rice, Arkansas, and SMU each have 3 representatives; Baylor and TCU two apiece, while Texas and A&M have one man out of the first fifteen. Two are Sophomores and one is a Junior on the first squad; three Juniors and 2 Seniors on the second squad; while one the third team one is a Soph along with two Juniors. This is a remarkably young group, usually there is a terrific predominance of Seniors, and rarely is a Soph on the All-Star squad. Here, only 5 Seniors are named along with 5 Sophes. The three teams are more evenly matched than usual, and having representatives from five schools on the first team bars out the closeness of all the seven teams in the conference.

Committee Sets Rules For Elections

The following rules have been set forth by the Election Committee for the conduct of the spring elections, now only a month away:

Section 1: Fee violations of any part of the election rules the candidate shall automatically be dropped from the election by the Election Committee. Disposition of all violations shall be left to the election committee.

Section 2: Types of Elections and their dates: Student election of the Senior Class Officers and the President, Vice-President, and Councilman-Large of the Student Association shall be seniors. The Secretary and the Treasurer of the Student Association may be either juniors or seniors.

Section 3. Types of Elections and Adjustment Service to Visit the South's Finest Rice Students and Faculty Are Welcomed to Our Free Optical Dispensing House.

Section 4. Requirements for Student and Class Officers.
A. No person of a probationary status as prescribed by the Administration of the Institute shall hold or run for an elective office. B. The President, Vice-President, and Councilman-Large of the Student Association shall be seniors. The Secretary and the Treasurer of the Student Association may be either juniors or seniors.

Section 5. Limitations of office held. No student may hold more than one major and two minor offices at the same time. Major offices are: the editors and business managers of the Thresher and the Cam- pusline; the President, Vice-Presi- dent, Treasurer, Secretary, and Councilman-Large of the Student Association; the President and Treasurer for the Senior Class. All other offices are minor offices.

A. Student Association Officers: Nominations for Student Association offices shall be made by written petition signed by at least 25 Student Association members and by the petitioners.
B. Class Officers: Nominations for class officers shall be made by the Administration of the Institute and the petitioners.
C. Nominations petitions properly signed as provided above must be delivered to a member of the Election Committee by 12 o'clock noon of the 10th day preceding the elec- tion. (Friday, March 17)
D. Ballot Petition: Each candidate whose name appears on the ballot in all elections sponsored by the Student Council shall be assessed a fee of $5.00 to cover costs of printing ballots and other costs incidental to such elections. This fee must accompany the candidate's petition when turned in to the Election Commit- tee and is necessary for the validity of such petition.

Section 7. Approval of Petitions.
All nomination petitions must be approved by the Student Council upon the day immediately following the deadlines date for handling them to the Election Committee. A nom- ination petition must be certified as a candidate until the Student Council has approved his petition.

Section 8. Campaigning.
A. Candidates must limit all ex- pressions of election campaign during primary and runoff elections to a maximum of $15.00. They must submit a de- tailed account of all such expenses to a member of the Election Com- mittee at any time after twelve noon of the day prior to the election. E. Posters may be tied on trees. Nailing or otherwise harming the trees or shrubs shall be prohibited. All posters and signs must be re- moved by twelve noon of the last school day prior to the election.

Section 9. Limitations of offices held. No student may hold more than one major and two minor offices at the same time. Major offices are: the editors and business managers of the Thresher and the Cam- pusline; the President, Vice-Presi- dent, Treasurer, Secretary, and Councilman-Large of the Student Association; the President and Treasurer for the Senior Class. All other offices are minor offices.

Section 10. Limitations of offices held. No student may hold more than one major and two minor offices at the same time. Major offices are: the editors and business managers of the Thresher and the Cam- pusline; the President, Vice-Presi- dent, Treasurer, Secretary, and Councilman-Large of the Student Association; the President and Treasurer for the Senior Class. All other offices are minor offices.

Section 11. Limitations of offices held. No student may hold more than one major and two minor offices at the same time. Major offices are: the editors and business managers of the Thresher and the Cam- pusline; the President, Vice-Presi- dent, Treasurer, Secretary, and Councilman-Large of the Student Association; the President and Treasurer for the Senior Class. All other offices are minor offices.

Section 12. Limitations of offices held. No student may hold more than one major and two minor offices at the same time. Major offices are: the editors and business managers of the Thresher and the Cam- pusline; the President, Vice-Presi- dent, Treasurer, Secretary, and Councilman-Large of the Student Association; the President and Treasurer for the Senior Class. All other offices are minor offices.

Section 13. Limitations of offices held. No student may hold more than one major and two minor offices at the same time. Major offices are: the editors and business managers of the Thresher and the Cam- pusline; the President, Vice-Presi- dent, Treasurer, Secretary, and Councilman-Large of the Student Association; the President and Treasurer for the Senior Class. All other offices are minor offices.

Section 14. Limitations of offices held. No student may hold more than one major and two minor offices at the same time. Major offices are: the editors and business managers of the Thresher and the Cam- pusline; the President, Vice-Presi- dent, Treasurer, Secretary, and Councilman-Large of the Student Association; the President and Treasurer for the Senior Class. All other offices are minor offices.

Section 15. Limitations of offices held. No student may hold more than one major and two minor offices at the same time. Major offices are: the editors and business managers of the Thresher and the Cam- pusline; the President, Vice-Presi- dent, Treasurer, Secretary, and Councilman-Large of the Student Association; the President and Treasurer for the Senior Class. All other offices are minor offices.

Section 16. Limitations of offices held. No student may hold more than one major and two minor offices at the same time. Major offices are: the editors and business managers of the Thresher and the Cam- pusline; the President, Vice-Presi- dent, Treasurer, Secretary, and Councilman-Large of the Student Association; the President and Treasurer for the Senior Class. All other offices are minor offices.

Section 17. Limitations of offices held. No student may hold more than one major and two minor offices at the same time. Major offices are: the editors and business managers of the Thresher and the Cam- pusline; the President, Vice-Presi- dent, Treasurer, Secretary, and Councilman-Large of the Student Association; the President and Treasurer for the Senior Class. All other offices are minor offices.

Section 18. Limitations of offices held. No student may hold more than one major and two minor offices at the same time. Major offices are: the editors and business managers of the Thresher and the Cam- pusline; the President, Vice-Presi- dent, Treasurer, Secretary, and Councilman-Large of the Student Association; the President and Treasurer for the Senior Class. All other offices are minor offices.

Section 19. Limitations of offices held. No student may hold more than one major and two minor offices at the same time. Major offices are: the editors and business managers of the Thresher and the Cam- pusline; the President, Vice-Presi- dent, Treasurer, Secretary, and Councilman-Large of the Student Association; the President and Treasurer for the Senior Class. All other offices are minor offices.

Section 20. Limitations of offices held. No student may hold more than one major and two minor offices at the same time. Major offices are: the editors and business managers of the Thresher and the Cam- pusline; the President, Vice-Presi- dent, Treasurer, Secretary, and Councilman-Large of the Student Association; the President and Treasurer for the Senior Class. All other offices are minor offices.

Section 21. Limitations of offices held. No student may hold more than one major and two minor offices at the same time. Major offices are: the editors and business managers of the Thresher and the Cam- pusline; the President, Vice-Presi- dent, Treasurer, Secretary, and Councilman-Large of the Student Association; the President and Treasurer for the Senior Class. All other offices are minor offices.
Hamilton Stars for TU

(Continued from Page 4)

been one of the mainstays of that fine ball club. Don Henderson of the Blue Jays has been the all-time leader for the Bruins on many nights, his 80 points is high for a single game. The other Stars of the Bruin club have been Charlie Tighe, the Aggie. His ball handling and shooting has been one of the mainstays of that team. His lack of height is at no disadvantage. The game will be a benefit, costing adults $1.20, all of which will go to the March of Dimes.

There's been a lot of bantering back and forth this year; for instance, a short'n'ugly member of the Thunder staff has been called "coach" on several occasions. Then too, certain cagers have been called "coach" because of their best game of the season, and Switzer is one of the top scorers in the Conference.

The game will be a benefit, costing adults $1.20, all of which will go to the March of Dimes.

Weaver Captures Amateur Golf Title

Last week, Buddy Weaver, Number one man for the Blue Golf team came through with one of the most surprising victories in amateur golf as he took the Houston Open title. Establishing the same stretch power that has been associated with Owl athletes of late, Buddy came back from being four down at the end of 28 holes, to win from Dave Mullenix, who led him at the end of 36 in the championship finals.

Merry is former Indians state champ and ex-professional. Weaver also has the scalp of Dick McGreavy, an ex-champ of the Open and was Dave Bowles's most feared golfers. Buddy had a round of 68 for his best efforts. The star of golf is good enough to rate him among the top of the heap of SWC golfers.

Weaver led the Owl golf team into picture this week. The squad ran in fourth place last year. From being four down at the end of 36, Buddy came back from being four down at the end of 36. Hoosier Bob, with 16 points. Huffman got 15, Womack has 18 points for the night, and Switzer is one of the top scorers in the Conference.

With James Dowies, who wound up with 16 points for the night, hitting 3 short ones and a free tee, the Longhorns went into a 90-82 lead early in the second half. Joe Mekelberg, finding the cut, ran it to 33-28, but the Bearers, led by Huffman, gained 9 points for the night. Womack switched to the second half, and led the scoreboard to no points on one shot attempted.

With James Dowies, who wound up with 16 points for the night, hitting 3 short ones and a free tee, the Longhorns went into a 90-82 lead early in the second half. Joe Mekelberg, finding the cut, ran it to 33-28, but the Bearers, led by Huffman, gained 9 points for the night.
