By Betty McGeever

Fifty girls have been selected by a student committee as candidates for yearbook beauty.

This year's slate consisted of students not elected in the spring election or that have been vacated by resignation, will be voted on Monday, October 29th.

The officers are: Sophomore Representative to the Student Council, Assistant Editor of the Campanile, and Assistant Editor of the Thresher.

The girls are: Therese Arnold, Patti Ambrose, Ann Adair, Betty Backler, Carmen Beinbacher, Betsy Belstrom, Nancy Benter, Karleen Bevan, Nancy Brandon, Jane Booker, Vera Cares, Noel Carroll, Car-

The Thresher is also planning a party to immediately precede the Christmas holidays.

By Neal O'Brien

The Forum jumps from inter-collegiate war to international peace in its second meeting of the year, which will be held at 8 p.m. Wednesday, October 17, in the Lecture Lounge.

The subject is the possibility of an Atlantic Union for the prevention of any action or agression which would tend to culminate in a third world war. The Atlantic Union Resolution, which has been introduced into both Houses of Congress, seeks to replace the mandates of the League of Nations.

The economical problems and possibilities will be explained by Dr. Norman T. Neve who has worked as an economist for Anderson, Clayton & Co.

An Open Letter to the Student Body:

On Monday of this past week, Mariel Bryant and I attended a meeting of the Southwest Conference Sportsmanship Committee at Fayetteville, Ark. At this meeting, the constitution of the Committee was formally ratified by the seven Conference schools, and a program of promoting sportsmanship was initiated.

As part of its program, the Committee will award a trophy at the Cotton Bowl Game to the school voted as displaying the most sportsman-like qualities among its student body and athletic teams. This award has been made in previous years and Rice Institute was the recipient for the 1949-50 year. The Committee will meet three times a year and will provide the schools participating with the opportunity of exchanging ideas and experiences.

The Southwest Conference is unique in that it is the only major conference in the nation that has an official student-sponsored committee to encourage and promote sportsmanship. Several other conferences are noting this Committee and are willing to adopt its method.

Such are the facts behind the Committee. The philosophy underlying it is of course more complex. However, I have been most helpful in publicizing and recommending its establishment.

The Rice Dramatic Club

To the Editor:

The idea of a newspaper, particularly a college newspaper, is to report to its readers the news as it happens, and not to ignore anything which may be of interest to the student body or the larger community. The Rice Dramatic Club put on a good performance at the run of the play "Blithe Spirit" last week. The cast and the backstage hands had been working and scheming every day for two months in order to present the student body an entertaining performance.

In the past, "The Thresher" has been most helpful in publishing and recommending the Rice Dramatic Club in previous issues of "The Thresher," and your recent advance notices.

But we are counting on an ad

While the audience Friday night, I understood that a well-written review was turned in to be published, but that it was cut because there was no room for it due to the heavy advertising and the insertion of several features, though clever and well-written, of comparatively minor interest.

The Thresher, in its capacity as the official organ of the student body, will always do its best to present the student body an entertaining performance. The Rice Dramatic Club is a fine example of such an effort.

The Thresher's Corner

In his year in lowering the price of admission for students from one dollar to sixty cents, this was done with the purpose of interest ing more students in the theatre, according to a fighting financial chance to see the plays because it primarily for the student entertainments that the Dramatic Club exists.

It seems to me that the primary purpose of "The Thresher" should be to inform and inspire its student audiences and its organizations, and to provide adequate and timely coverage of student affairs. There should be no "part" to a page so that everything of interest may be included.

Sincerely,

Hal DeMano
President, Student Association

Newman Club Plans Communion

The Newman Club held a regular meeting Monday evening at the Fondren Library Exam. Room. Father Conlin spoke on the "Authority of the Pope and the Government of the Church." The club has been invited to attend the Annual Conference of the Newman Club of the University of Houston at Holy Rosary Hall. These two clubs will also hold a joint Communion at Annunciation Church on the First Sunday of every month.

The Lutheran Student Association will have a party after the Navy game tomorrow night at the Christ the King Liqg in the past. They are about to the Rice and Greenbrier. It will be an

The LSA will have a regional meeting at Texas Christian University November 2, 3, and 4. Delegates will be elected at the next meeting.

The Student Council Fellowship is meeting today at 12:15 in the Foshay Library Exam. Room. Dr. Neil Nelson, of the Philosophy Department, will speak on the World Council of Churches.

The Presbyterian Westermille Fellowship is meeting next Monday at 7:00 at the home of Mrs. Roosevelt. The Fellowship is a branch of the Presbyterian Church in the United States of America.

The Houston Museum of Fine Arts is now offering an exhibit of their foreign countries, with varied subjects and numerous examples of the latest types of photo developing. Also an exhibit of fine art Chinese contemporary paintings. The show will be open until October 28.

One of the most interesting and influential clubs in town, the Houston Civic Theatre, has announced an ambitious program for this year. The club will be "Alice in Wonderland" to be followed by "Tea at Five," "The Teahouse of the August Moon," "Fannie Hurst," "Animal Farm," and "The Fantasticks." The season of the Civic Theatre will be under the direction of Dr. Robert Phillips, who will be the director of the Thresher Theatre. The Thresher Theatre will be open for the first time this year with the production of "Blithe Spirit." The Thresher Theatre will be open for the first time this year with the production of "Blithe Spirit." The Thresher Theatre will be open for the first time this year with the production of "Blithe Spirit." The Thresher Theatre will be open for the first time this year with the production of "Blithe Spirit.

The Editor's Corner

If attendance at Tuesday night's Forum on intercollegiate athletics was reduced, further, those who prob-ably did not learn much about the question; that's already been said several times in time, the L.A., the Thresher, and other weeklies, and periodicals, they were provided with a fascinating study in types.

The differences were not of op- ature but of opinion.

Howard Martin, Sports Editor of the Thresher, led off with a fascinating presentation of some of the problems and abuses to which the present system has given rise; an academic double standard for athletes, paid players, and the consequent loss of integrity, by the institution that guarantees it, the commercialization of the game, the making of the students and their coaching sectors into "part of the show," the champ- summit of college degrees by bestow- ing on its athletes who have not earned it.

He made no biting criticism of anything done by any of these things. Just factual, objective statement of his existence. Further- more, he had no core, no narrative of the facts of the system. He was the position of a thoughtful observer in the things, he undertook to do not undertake to: "What is the aim of a college? Now does the present system of intercollegiate athletics advance these aims?"

Next, Mr. Gilbert Romain, the Professor of Physical Education, spoke. He successfully avoided the issue by saying that intercollegiate athletics had not left the campus. They had never arrived there, that athletes have always been treated like a step-child by university administrations.

From time to time he lapsed into the trade jargon of physical education. The gist of these digressions was that the highly relevant point that the modern theory was that elementary school children shouldn't start playing football before they 'acquire the fundamental skills of physical education' he, for a while, said.

The speaker was Dr. E. R. Phillips, assistant sports fan and member of the History Department. He was the only speaker of the evening who had a solution to offer. His th esey was that intercollegiate sports have "gotten away from the campus because faculties have deemed the matter none of their concern and let it pass from their control. According to Dr. Phillips, athletes should be controlled by the faculty just as any other phase of university life.

If this control isn't possible, he added, athletes should be segregated from the colleges—and both would benefit.

The point is that he had an an- swer to the problem. He understood to answer, from a different angle, the questions posed by Howard Martin.

The fourth speaker, Backfield Coach Otto, gave little light on the subject. He maltreatment was a passing remark which, in answer to a question about gambling in intercollegiate athletics, he blurted out, "Why, if I had known there was an(train act) talking to our boys . . ." Enlightening.

Foreign Students Enrolled At Rice

By Alcyon Tinsley Cole

A German physicist, a French graduate student in English, a German architect, a Norwegian special graduate student, and a Swedish student studying English are the newest additions to the ranks of foreign students studying at Rice on scholarships.

Gunn Lundberg, a 19-year-old Swedish girl who came here "just to learn English" is sponsored by the Institute of International Learning, an international group which attempts to promote understanding among the peoples of the world by exchange studentships. Students under this plan are required to live in homes in the countries where they are studying in order to gain a better understanding of life there.

"I was allowed to bring $100 out of Sweden," said Gunn. "Now I live with an American family and in return for rooms and board I take care of their children and help the mother."

The blonde Gunn came from Stockholm and spent three months in New England before coming here for a year's study on a Rice scholarship.

An ex-Luffwaffe signal corps member and paratrooper, J o r e g Ludwig, and a Norwegian special graduate student, J o r e g Stromme, landed quietly at Rice last month. They are American literature and government students under this plan.

"This summer, I hope not only to go west to California and Oregon, but I also hope to get up to Pennsylvania," J o r e g said. He is studying architecture here on a government scholarship.

The 26-year-old Norwegian has the American accent and is the son of a Sorbonne professor, and an old friend of Dr. Moraud, head of Rice's French Department.

Benedicte Pons, Conrad Schlemmberger, and Gustav Beckmann, all scholars from the Nansen Fund, are taking courses in the French Department in addition to their studies at Rice. Benedicte is the daughter of a Sorbonne professor, an old friend of Dr. Moraud, head of Rice's French Department.

Benedicte, living in the woman's dorm, confided that she had expected a few cowboys and less big city atmosphere from Houston. "And you need a card?" she sighed and was heartily echoed by the other foreign students.

Eight Teams Enter Women's Volleyball Tournament

Because eight teams have entered the Women's Intramural Volleyball Tournament, the event has been divided into two leagues, according to Mrs. Sally Beth Poinsett, head of the Physical Education Department. The leagues were selected by an unlinked individual, said Miss Poinsett.

The following teams will compete

Campus Interviews on Cigarette Tests

No. 24
THE CLAM

"I should have kept my big mouth shut!"

Fresh out of Bivalve, N. J., he arrived on the campus all bug-eyed and his big mouth hanging open. He was immediately sucked into a "shell game" and found himself making all the quick-trick cigarette tests.

But his native instinct told him that such an important item as cigarette mildness couldn't be tossed off lightly. Millions of smokers everywhere have discovered, too, that there's but one true test of mildness.

It's the sensible test—the 30-Day Camel Mildness Test, which simply asks you to try Camels as your steady smoke...on a pack-after-pack basis. No snap judgments! Once you've tried Camels for 30 days in your "T-Zone" (T for Throat, T for Taste), you'll see why...

After all the Mildness Tests— Camels lead all other brands by billions
by Howard Martin

Billy Hair of Clemson is everything they said he was: an outstanding tailback. Hair was one of the primary reasons for Clemson’s 20-14 win over Rice.

But, under Clemson’s single-wing attack, Hair was a marked man. The Owl defense on stopping Hair. As a result, though Hair turned in an excellent performance, he had to take a physical beating.

The Owl defense could focus its foremost attention on Hair. He was one of the primary reasons of the professional Philadelphia Bears.

More than just a liquid, more than just a cream washes hair gleaming clean, manageable, curl-defining. Even in the hardest water Wildroot Shampoo is around the corner from anywhere.

Be Patient... The Co-op is doing its best to get your books and supplies to you as quickly as possible. Some back orders are now in and others will be delivered soon.

HOMER VERSIFIED:

...and pines with thirst
midst a sea of waves

Homer Odyssey

Homer wrote about ancient times—before Coke. Nowadays there’s no need to pour pines with thirst when Coca-Cola is around the corner from anywhere.
Rice, Navy Clash Tomorrow Night

Both Teams Looking For First '51 Victory

By Dick Karig

The United States Navy will drop anchor in Houston tomorrow night and board the USS Rice Stadium for some hand-to-hand combat with the Owls. The Middies have yet to enter the remembrance of their defeat of the 1950 Army powerhouse, they cannot be denied for long.

To date the Naval Academy's opposition has been仓风 to the top two teams of the Ivy League. In a hotly contested game they fought Yale to a 7-7 standstill and last Saturday the Midshipmen came within four points of halting Princeton's winning streak at fourteen games.

Zastrow Is Passer

The Navy savior in the Pentagon may fight service unification, but predictions

(Continued from Page 4) ed ways, with the Bruin's and the Cadets scoring important intersectional victories. Texas found as scheduled, and the league winners its offense, SMU discovered a running attack, TCU scored Conference win number one, and Rice declined to take advantage of LU's kindness. The scores:

Texas A&M 14, Oklahoma 7
Baylor 27, Tulane 14
TCU 17, Arkansas 7
SMU 35, Missouri 0
Texas 45, North Carolina 20
LSU 7, Rice 6
*—Conference game

The predictors, in case anybody's curious, are marking as a likely aft clip, with 12 out of 18 so far.

Baylor vs. ARKANSAS. Last year, the Razorbacks scored a stunning win over the surprised Bears. This year Larry Isbell has more experience under his belt — and the Bears have yet to find the man to direct their attack. Baylor 27, Arkansas 7.

SMU vs. NOTRE DAME. The Fighting Irish have begun to make noises in the midfield—noises like the Notre Dame of old. The Ponies had a running attack against weak Missouri, and have managed to hold a good Ohio State team, 7-0. This game could develop into the battle of the week, but from here it's Notre Dame 20, SMU 7.

TEXAS vs. OKLAHOMA. The Longhorns, fresh from a terrific win over North Carolina, come up against a Sooner team fresh from a loss to Texas A&M. A lot of questions will be answered with this game, and the Bears ought to be making a passing grade on them. Texas 26, Oklahoma 14.

TCU vs. TEXAS TECH. The Red Raiders have a team this year, but losses to the Aggies and the Cougars should take a little starch from their attack. The Horned Frogs may be playing minus Mal Fowler, but Gil Harmon and Bobby Jack Floyd are still around. TCU 21, Texas Tech 7.

TEXAS A&M vs. WAYBELOW. We've often wondered if anybody reads this stuff. Yep, according to the schedule, the Aggies have an open date this week, preparing for the important TCU game next week. We can hear Dick Meyer moaning from here.

Owlets Face Del Mar IP Tonight

Frost, Going For Second Win, Face Tough Game

Following an impressive début with a 21-13 victory over the TCU freshmen last Friday night, the Rice Freshmen grid team comes back in another home game tonight against Del Mar Junior College of Corpus Christi. The game will be 9 PM.

Charley Moore's Owlets will be fortunate if they can come up with a victory over Del Mar. The Corpus Christi outfit last season won ten games and lost only two and averaged just short of 40 points a game. They beat Garden City (Kan.) Jr.-College and Holmes (Miss.) Jr. College decisively in post-season games, the Physics Education Department.

Kervelle, will miss the Del Mar game and possibly the remaining Rice fresh games because of a knee injury. But ready to go will be back-up quarterback, Claude Roach, who made 217 of the Owlets' 386 yards on 16 plays, an all-time Don Costa of St. Thomas who piled up 123 yards on 21 carries. Don Leon was also impressive with his running.

Rice-Varsity

(Continued From Page 6) was grand Dave Flachner.

The Owl defense looked very impressive against the Flies in the past week-end and could make trouble for the Middles. Particularly prominent were Dick Cornman, Leon Trendroy, Leo Ricks, and John Hudson.

With a dry field underfoot the remaining portion of the squad will show more yardage gain than was displayed against LSU and the passing, which is steadily improving could be a deciding factor.

For Professional Haircuts, Visit the Herman Professiona1 Barber Shop. Across the street in the Herman Professional Bldg. Lester Mayes, L-3116.

The Wogs got their first TD with 25:30 left in the first quarter, Cashion, Bob Furchner, Jerry Murff Bledsoe.
