Palaver Planned by Pogo's Pa—Kelly To Speak

I GO POGO
Thresher and Forum Sponsor Cartoonist's Lecture

Walt Kelly, originator of the famed Pogo comic strip, will address the students, faculty, and friends of Rice at 8 PM tomorrow night in the Lecture Lounge. Mr. Kelly will speak on the Political Background of Pogo. The meeting is sponsored by the Thresher and Forum committee.

Copies of his latest book I Go Pogo can be bought in the Coop. Mr. Kelly will autograph copies following his lecture.

Kelly has been touring the country on behalf of his candidate for president, Pogo. He will speak at A&M today and tomorrow and arrive in Houston in time to appear at Rice. Friday night, Kelly will greet the Slime Parade and plans are being made for a Pogo Kelly offshoot of the Rice Hotel.

The cartoonist will also visit the University of Houston and appear on radio station KTRH at 8:45. Students and faculty are expected to don their Pogo buttons which last year were distributed by the Campanile office. Put out any Pogo books and enter the Lecture Lounge to create the modern American artist.

Kelly Will Speak
To Parading Rice Slimes Friday

What might well be called the Freshman event of the year will take place on Friday, October 17; that is, at six o'clock on that evening, the men of the freshman class will assemble to perform for the entertainment of the Freshmen and Sophomores. As usual, the Ballpark will be the playing field, and there the ladies of the Sophomore class will aid the “slimes” in getting ready for the parade. After being assisted aloud with the help of a driver by helpful Sophomores, the parade will be on its way.

Drivers and Salesmen are Needed by Thresher

“Drivers and salesmen are badly needed by the Thresher,” declared Thresher editor Miron in the Campanile office.

The French Club’s "soiree" will be on October 20 at 8 PM at the Arena Club. The French Club’s “soiree” will be on October 20 at 8 PM at the Arena Club. All members are invited.

GUIDANCE

Sopsich, any ten can Yell Fresh

By Emil Bruen

The freshman cheering section, which started out so good, has seemingly flopped. There have been complaints at all quarters about the lack of cheering, and the sophomores claim that any ten of them can outyell the entire freshman class—

Soprano in the South, 1952-53 Blood Drive

Wallace announces "Tom Taylor will be director of this year's Blood Drive," announced Tom Taylor, director of Blood Drive.

The Blood Cross-Drive Mobille will be at the Health Service on Wednesday, November 5 from 8-11. Students should make plans to donate blood.

This is a continuation of last year's successful Blood Drive.

**18 Years Vote**

The vote for 18 year olds is scheduled to come up before the Texas Legislature some time this year. We feel that it should have the firm support of the students of Texas. No political issue today touches the general student body so closely as this suffersage for 18 year olds.

It is argued that at 18 a boy does not have the years of wisdom and discretion which might lie behind him at 21. It is argued that at 18 a boy might easily be swayed by demagogues or parents. Essentially, it is argued that at 18 a boy is still a child.

One can argue that at 18 a boy is no more of a child than at 21. At 21 he is old enough to hold a job of varying responsibility or to leave home to attend college. The former position today touches the same maturity. The latter is merely a prolongation of protection from the wide wide world.

To the really valid argument that if a boy at 18 is old enough to die for a country, then he should be allowed to vote for or against the men who send him out to the battlefields. Essentially it is tyranny to force a man into dangerous battle without ever giving him a single chance to sneak in his behalf.

Therefore, let 18 year olds have the vote. It goes without saying that if men at 18 have the vote, so should women for at 18 as any age men's voting equals.

We hope that other Texas schools will support the vote for 18 year olds.

If your school is one of the many over the country are assuming responsibilities greater than before. For instance, the age of marriage for both men and women is being lowered. More and more college magazines for college families are becoming a rational habit.

Our generation is one born in insecurity, raised in turmoil, looking out on an unsettled world. It is not impossible that future generations will face the same fate. Responsibilities come early to such youth. They will be ready, as we are to receive admittance to 18.

---

**Historical Majors Not Likely to Starve**

Selecting a job after graduation is something that must be considered carefully. Is this kind of work would you like to do for the rest of your life? What is its pay scale? The opportunities fo' advancement? Are you fully qualified? One of the best fields open to historical majors, particularly those taking courses in political science, international relations, history, is that of junior management and assistance in the state department. Variant administrative and program work positions are open in:

1. Organizational and procedural studies, in budget preparation, analysis, and review; in personnel activities.
2. Program analysis, planning, and operational work.
3. As a professional assistant in the fields of economics, history, political science, international relations, intelligence, or other social sciences.

These job opportunities are divided into two sections. The first section pays an entrance salary of $4500, and requires a bachelor degree. The second section requires thirty semester hours credit in history, social sciences, and related subjects. The second section has an entrance salary of $4500 and requires one year of graduate work in one of the above fields. The chances for advancement in these government positions are excellent. An entrance test must be taken, and application must be made before November 15, 1962. Those desiring further information should contact Miss Georgia Bink of the alumni placement service.

Other job opportunities for history majors lie mostly within the fields of education, library work, and certain specialized activities, such as the sale of antiquities. Also more and more industries and business firms are looking for history majors to work in research libraries.

All freshmen girls who have not been contacted by the Freshman Skit and are interested in participating in it are urged to come to A-Mouse at 7:00 Monday, Oct. 23. No special talent is needed.
Threshing It Out

(Continued from Page 2)

into a book, call them the "Epitaph to the Rice Students," and put them somewhere between the Endurance and the Romanesque. Better yet perhaps would be to call the collection the New Testament. Even with all this adulation, however, I wonder about the propriety of electing such a man as President.

Forgive me for using this rather corny perspective, but I am now becoming too old and responsible to include myself openly in whims of this sort.

Julius, Jr.
P. S. I'll write for the subscription October 18.
P. P. S. I finally learned why the Thresher is so old at the Texas material. According to an article in the Houston Post, it was because of the oil that they are frothing; it was because Ben Milam was killed in the Alamo.

To the Editor:
The government and other benevolent agencies have long observed the practices of protecting our native wildlife from extinction. The woolly crab would have entered the limits of the dodo long ago were it not for the sanctuaries from the all-encroaching tide of mechanical destruction sponsored by the idle curiosity of scientists and engineers. Those who do not wish to awake the horrid-at-the-bridge stand of our birds should be ashamed.

A startling episode this morning has come to the attention of the press. A dodo, no doubt a member of an ancient species (similar to the dodo) was almost struck dead in mid-air by the Freshmen girls, riding in a motor. It was none other than i (Continued from Page 1)

March 21. I use the word "wholesale" in the sense of the market in which there is no competition. It has awokened me to a shocking negation, however, I wonder about the propriety of electing such a man as President.

Owlets Knuckle To Vikings At Corpus; Garst Plays Thor

The Rice Owlets dropped a hard fought 29-26 decision to the Del Mar JC Vikings in Corpus Christi last Saturday night. George Garst's 10-yard field goal with one and a half minutes left to play was the deciding factor.

Rice had surged to a 26-14 halftime advantage led chiefly by 205-pound fullback Jerry Hall of Palestine, and halfback Bobby Graham of LaMarque who soared 80 yards for a TD, with a Del Mar kickoff. Hall got touch-downs on runs of 17 and five yards and gathered in one of John "Tiny" Nisbet's passes for the third. The Owlets play as a whole was very sharp, slowing several good linesmen as well as backs. Center Don Wilson, Tackle Riddly Bayhurn, and guard Tom Sturnag were particularly outstanding in the forward wall.

Del Mar opened the game by driving 60 yards to score, with Bobby Baldwin plunging over from the one. Quarterback Charles Dollar counted one, and halfback Dugan Thornton scored twice, ones on a 80 yard trap play through left guard.

The Owlets play their next game tomorrow, Friday, when they meet St. Mary's. The Owls have a good team as usual (they beat last year's Owlets 26-7) and will be trying to keep an unbeaten record.

Hogan Appointed Chesterfield Representative

Bill Hogan, has been appointed the campus representative for Chesterfield Company. "Chesterfield plans to sponsor contests during the year," Hogan said, "and anyone interested should contact me."

Chesterfield in past years has sponsored letter to the editor contests and given various of Chesterfields to the best letter received by the Thresher. Chesterfield has a campus representative on all major campuses of the nation.

Nose, Throat, and Accessory Organs not Adversely Affected by Smoking Chesterfields

FIRST SUCH REPORT EVER PUBLISHED ABOUT ANY CIGARETTE

A responsible consulting organization has reported the results of a continuing study by a competent medical specialist and his staff on the effects of smoking Chesterfield cigarettes.

A group of people from various walks of life was organized to smoke only Chesterfields. For six months this group of men and women smoked their normal amount of Chesterfields -- 10 to 40 a day. 45% of the group have smoked Chesterfields continually from one to thirty years for an average of 10 years each.

At the beginning and at the end of the six-months period each smoker was given a thorough examination, including X-ray pictures, by the medical specialist and his assistants. The examination covered the sinuses as well as the nose, ears and throat.

The medical specialist, after a thorough examination of each member of the group, stated: "It is my opinion that the ears, nose, throat and accessory organs of all participating subjects examined by me were not adversely affected in the six-months period by smoking the cigarettes provided."
