Rice Professors Attend Language Conclave Over Halloween

Seven Rice Institute professors attended the South-Central Modern Language meeting in Denton, Texas on October 21 and November 1. Dr. Alan D. McKillop, chairman of our English department, presided over the English section; Dr. Carroll Caines, professor of English, was chairman of the English, Medieval and Renaissance Literature section; Dr. Wilford Tharp, visiting professor of English, read a paper before the Comparative Literature section; Dr. George Wilson, associate professor of English, led the discussion in another section on American Literature; Dr. Marcel Manoil, chairman of the Romance Language department, read a paper before the Comparative Literature section; Dr. Jack Bourgeois, associate professor of French, read a paper before the section of French Literature after 1850; Dr. Andrew Lord, chairman of the Romance Language department, read a paper before the German Literature and Paleography section.

"All chapter members and students present at this meeting tonight will be able to participate in the membership drive and receive any prizes which may be offered to the candidate who brings in the highest number of new members," said Sledge. He urged all candidates to attend the meeting and set in on the ground floor of the organization.

Rondelet Program Underway Says Chairman Kesselman

As the last few shreds of grups paper were blown away by the dust of the class, plans for another all-school event are being laid. Many new features will be added to the annual Rice Rondelet which this year is scheduled to take place on the work-end of May and before the last day of school is opened Monday. Sigma must be done by Friday.

Deminiter George, chairman of the election committee urges all students to get out and vote. "Please bring your actual election cards in order to vote. Candidiates for the positions must read the election rules and regulations which are posted on the bulletin board in the Lounge, and must also show their cards to the count before the polls open," said George.

The polls will open at 8:30 A.M. Friday, and remain open until 12:30 P.M. Students are not permitted to bring their actual election cards in order to vote. candidiates for the positions are Bill Bisco, Bridget Buss, Tom Jordan, and John Quaid Adams for the Senior Student Council; Barbara Fleck, Joseph Bonney, Florence Bina, Nailee Tumutse and James Lord for the Junior Student Council; and Dick Kari and Joe Watt for the assistant editor of the Thresher, with J. W. B. Diboll as assistant for the candidate of the Arts and Science faculty, or the selected candidate for the student for the chairman of the election committee for the College of Liberal Arts for the chairman of the election committee.

At this meeting tonight will be able to participate in the membership drive and receive any prizes which may be offered to the candidate who brings in the highest number of new members," said Sledge. He urged all candidates to attend the meeting and set in on the ground floor of the organization.

Chevron To Open Membership Drive Plans Made Tonight

Plans for a membership drive and social event to be held at the end of the drive will be discussed tonight by ten members of the Student Council, including Wharton, a new organization open to all Army ROTC students. Bobbi Sledge, president, announced that the annual military ball will be held Friday, March 21 at Elisburg Hall. In addition to the dance, a number of other plans for the organization will be discussed, said Sledge.

"All chapter members and students present at this meeting tonight will be able to participate in the membership drive and receive any prizes which may be offered to the candidate who brings in the highest number of new members," said Sledge. He urged all candidates to attend the meeting and set in on the ground floor of the organization.

FACULTY LECTURE

W. B. Diboll Outlines Transmission Working

By Brad Thompson

Assistant Professor W. B. Diboll, continuing the very interesting series of Faculty Lectures being given this year, gave a talk last Sunday afternoon on "The Operation of Automatic Automobile Drives in Lounge." The talk was designed to explain such things as fluid transmission, control of planetary gears, for example, and striking out anything in the speech. Mr. Diboll also took up the economics of automatic transmission, working series which will be continued under the direction of Race in the World Today.

From The Top of the Lamp Post

Now that the tension of election is over we can tell a good story on one of the pre-Stevenson factions. The pre-Stevenson gentiles had two children who were anxious to earn money. The Eisenhower faction was offering to pay the kids for spreading Ike buttons, but that ran against Pop's principles. The result was that the children spread Eisenhower buttons right and left, and donated their earnings to Pop.

In connection with Houston's Art Festival, the Rice Forum has planned two outstanding programs. One of the programs, the Lecture Lounge of the Fondren Library, will be held in the lecture lounge. The second program, mentioned above, will begin November 17. This is an innovation in Houston art and exhibition since picture. The Spectre of the Rose is a film that is based on the life of one of Nijinsky's famous last works, and the ballet dancer who has murdered his first wife and因而被送到精神病院。然而，生活会比第一部更刺激，因为影片将在一个不寻常的安排下，我们会有机会去获得第一手资料。你的真实想法可能在某些时刻会受到我们的影响。根据你的反馈，我们会进一步改进我们的服务。
NYU School of Law Offers Root-Tilden Grad Scholarship

Dean Russell D. Niles of New York University’s School of Law today extended the nation’s outstanding college seniors an invitation to apply for the $6,000 three-year Root-Tilden Scholarship for the 1953-54 term. Designed to help train and develop potential leaders in public affairs, the scholarship program was inaugurated as N.Y.U. two years ago and at present has 42 young men under training in the legal profession.

In the tradition of men for whom they are named, Root-Tilden Scholarships are awarded on the basis of superior academic record (merit), potential capacity for unselfish public leadership, and active extracurricular participation in college life.

A candidate must be over 20 years of age but not over 28 when he enters the program, a high school graduate, and must meet the above requirements. Tuition, books, normal fees, uniforms, and 900 each year for 4 years. All scholarship holders are drafted deferred while in the program.

The student agrees upon graduation to accept an appointment in the United States Navy and to serve on active duty for a period of three years.

Male citizens between the ages of 17 and 21 who are high school seniors or graduates are eligible. Any high school student who meets the above requirements is eligible to apply for the program. Application blanks are on hand at the Naval ROTC building. The Lincoln Professional Foundation, Cleveland 17, Ohio, gives suggestions for subject matter, a bibliography, and previous award titles illustrated with drawings.

Halfway Point In SWC Reached; 
Owls In Cellar

Southwest Conference grid activity has reached the halfway point and the only two things definite are that it is running true to form, and Arkansas is out of contention for the championship.

Texas
At this stage, with 10 of the 11 loop games things of the past, Texas is in the best position to pick up all the chips. With three victories without a setback, the Longhorns lead the pack. Their three remaining contests are with Baylor, TCU and A&M, with the latter their only home game.

TCU
Texas Christian has an odd record of one victory and two ties in the comptitude of the Southwest. A defeat of the Sooners and victories to the other two contests could win them the crown. SMU, with a win and a loss, is in far from the race.

Aggies
Neither can the Aggies nor the Baylor eleven be counted out of the picture. Each has a victory, a loss and a tie to date, Arkansas, as stated previously is mathematically eliminated from the race, although they do have an extremely slim chance. Their record is one win and three losses.

Owls
In the cellar at the moment, the Owls are behind TCU and the Razorbacks. With no wins and two defeats, the Owl squad can still conceivably win the championship. Many of the questions will be answered next week when Texas meets TCU, Rice affronts Arkansas, and SMU takes on A&M.

Scholarships
(Continued from Page 8)
A stipend of $2000, The National Research Council has initiated a number of postdoctoral fellowships and a few predoc toral fellowships with attractive terms of appointment.

The Social Science Research Council has announced the availability of predoctoral and postdoctoral fellowships and grants in the field of social science for the academic year 1956-57.

More detailed information concerning these various fellowships is obtainable in Dr. Maskell's office.

Chapman Junior President

By Bill Whittemore

If you were told the president of the junior class of The Rice Institute wears glasses on occasion and majors in the study of physics, you most likely would picture that fellow as a sedate, staid and the non-athletic type. But the completion of the description of Richard Chapman reveals this young man is 6'6" tall, weighs 202 pounds, and is one of the nation's finest defensive linemen in college football.

Nestly young Richard is well on his way to football fame in the Southwest and the nation as he starts the second half of his college career with the Rice Owls. An excellent performer from his first start as a sophomore last fall, "Chappie" is improving with every appearance as the Owls move into the final four games of '55. By fall there might just not be any better lineman in America with this worthy young man.

While the Owls have had their troubles in the current campaign, the defensive line play of the team has been above average with Chapman and co-captains Don Rhoden and Max Schuebel among the group that has played well in this phase of the game. Chapman has drawn plaudits from opposition coaches and teammates alike as well as his own. In fact, Rice head coach Jess Neely, a highly respected observer of 30 years experience as a grid mentor, has said he considers Chapman "as fine a defensive guard as there is in college football." And with all due respect as Texas' Harley Sewell, Baylor's Bill Alby, R.M.U.'s Bill Formica among rivals in his own Southwest section, that is praise indeed.

The big, good natured (off the field, that is) Chapman halls from the North Texas city with the quaint name of Waxahachie. It is somewhat surprising he ended up at Rice since his father is a graduate of the University of Texas law school, and in turn his very close friend is R.M.U. athletic business manager and sports publisher Lester Jordan.

Chapman is unusually good at rushing the passer. As Nestly re-If you were told the president of the junior class of The Rice Institute wears glasses on occasion and majors in the study of physics, you most likely would picture that fellow as a sedate, staid and the non-athletic type.
