BULLARD, LOCKWOOD

Brown Announces Additions To Board of Governors

The election of Dan R. Bullard and Mason Lockwood to the Board of Governors of the Rice Institute was announced Tuesday by George B. Brown, chairman of the Board of Trustees. Mr. Bullard is president of the Fidelity Oil and Royalty Company, with offices in the Second National Bank Building.

REMEMBER

Arch-I-Arts Is Symbol Of Pageantry, Mystery

By CHARLES TAPLEY

Sometime in the early morning of February 21, long after the revelers have broken up, another Arch-I-Arts square will be sleepily written into the pageant's rich yellow past. "Selapampango" will become a shatter of bricks and mortar which has worried the mystery of tradition.

"This is the first one. We're going to have it every year." And so they said.

STUDENT COUNCIL

Adams To Pen Column; Life Writes Schultz

By JOHN QUINCY ADAMS

In spite of the numerous wheedle (and threats) that this writer has been subjected to the wishes of the general public, this column will be written with a person with little talent for the task at hand. I must say, I am in English 100, and will, therefore, spiff in tufface and inflexible and hardy, participates to my heart's content.

The Blood Drive that was scheduled for yesterday, January 15 was postponed until Thursday, February 10. The crowded condition of the infirmary and the influenza epidemic is the cause of the postponement. Miss Werner of the Student Health Service noted that there are approximately 150 cases of flu on the campus. During the period of January 5 through 13, she had treated 93 cases of cold and 90 of influenza. The 150 estimate was reached after totaling number of cases treated plus absences and absent students. This figure backs the statement of Dr. George W. Co of the State Health Department that in 30 counties, 20,000 cases were reported, a figure that is quintessential in Texas counties.

Price Junior Queen; Nicholl, Madden Prom Princesses

Jim Price was presented at the dance Saturday night as the Junior Prom Queen. Mr. Price is a junior majoring in Chemistry and the son of Mr. and Mrs. Price in Houston. Nicholl Madden was presented as Prom Queen for 1953 with Princeses Esmerelda Lava, the educated savage (Rice man for a woman) and Bryan Lockwood, the cultivated savages (Rice man for a man). The Misses Vanhagen and Nicholl were played by Jean Youngblood, and Nicholl was represented by the Misses T. E. Mansfield, Rice's best friend. The Meadowlark was also present.

Flu Hits Campus As Influenza Fills; 150 Cases Reported

Tuesday inaugurated a new form of relaxation at Rice—The National Intercollegiate Bridge Club Series. Around twenty students rounded into this union and sat comfortably in those huge soft couches and chairs to listen to the records of "Don Juan in Hell." The playing started at 5:30 and ended at 8:30.

With a sigh of relief the workers were able to come in from their labors and enjoy the games which the students were able to play. The recording equipment in the Lecture Lounge is of top quality; the comfort for listening is unsurpassed. In ten, this assembles another meeting of the Rice Renaissance.

The National Intercollegiate Bridge Club Series has been set for February 15. It is hoped that the tournament will be successful and that the students will enjoy the games which the students are able to play.

Arch-Arts did, except for several lapses during the year, and each one has been an advancement in presentation and success over the previous.

Remember the extraordinary ship-wreck and water, "Philadelphia Sea," presented in '48, at which the honorees appeared as the various rivers of the world? The "Dance of the Evil" caused mild sensation in the advancement in presentation and Sea," presented in '49, at which the dancers as "Much Ado About Shakespeare," vintage 1938, "Jabberwock," "Tyr-El Khari" unraveled itself in the splendorous glamour of crusade, and "Selapampango" will be presented on February 20.

This year, "Selapampango" will remain a secret until it is presented on February 20. Eight girls appeared as the archi-arts balls was held last year, the Temple Emanu-El into one except the trustees were in favor of the pageant was so different to those who could not find spaces elsewhere. The residence of the new maston was approved by Dean McBride when the new school property, it will be kept in the East Hall in the Pel Trident Hallroom. It may be wise to assume that the outcome of the dance, its sets, costumes, and pageant, will be interesting, but it is a sure thing that the finished product of almost four months of work will be as exciting and wonderful show as ever has been un-

New Rush Rules Now Under Consideration By Octo-Lits

By GERALDINE LEWIS

The eight literary societies discussed and voted on the new rush rules for 1953, at their last meetings. New rules for this year limit the number of days of rich parties, schedule only one day of open rush and require each literary society to invite every girl on its prefer-

RELIGIOUS NEWS

Religious Emphasis Week Plans
Set on Sunday Retreat

A Retreat for the purpose of planning Religious Emphasis Week was held Sunday, January 11, at the home of Pete Hoegerwald. Nineteen representatives of the various religious organizations attended. Dean McBride and Dr. Nielsen discussed the religious emphasis weeks which they visited at other colleges.

Bill Lee, a student who had attended the A&M Religious Emphasis Week, explained to the group the program schedule of the week, explained to the group the program schedule of the week. Discussion followed in which the members present asked questions to clarify in their minds the kind of program Rice could bring to the student. Committees were organized and their duties explained.

The meeting adjourned at 6 PM to go to Dr. Talmadge's home for a buffet supper, evening chat and inspirational talk by Rabi Il Kahn.

Members of the Presbyterian Student Association will meet this Sunday at 5:30 PM at the First Presbyterian Church for the Westminster Fellowship. After supper and the service, the group will go out to the sponsor's home. There will be no meeting of the P.S.A. next week.

The new officers of the Rice L.S.A. are Henry Varrell, president; John Hauck, vice-president; Helene Olson, Secretary Treasurer; and Ruth Wachendorf, representative to the Religious Council. Saturday evening the L.S.A. is giving a house warming for their consultant Miss Vicki Norstog at 7:30 P.M. the students will meet at Simpson Dining Car to go to their Sunday meeting which is being sponsored by the cadets at Ellington.

Brady Tyson, Rice graduate, former editor of the Thresher, and now a Methodist minister, told Rice students what he would do if he were going through Rice again. He said he would be active in as many activities and make as many good and true friends as possible.

Almost every person needs and wants more friends. Tyson claimed that nearly two-thirds of the students (largely town students but including some dorm students) were not active and knew very few people at Rice.

Speaking of his days as editor of the Thresher, Tyson said we tried to inject a few issues into campus politics. We argued for some things that we knew couldn't be done, just to combat Rice's traditional apathy.

Almost every person needs and wants more friends. Tyson claimed that nearly two-thirds of the students (largely town students but including some dorm students) were not active and knew very few people at Rice.

Members of the Baptist Student Union went on a hayride last week. Summer mission work is being stressed in inspirational; after finals, the emphasis will be on vacation emphasis week.

There will be no more meetings of the Newman Club until after finals.

Modern Israel Life
Film and Talk

Miss Ruth Goldschmidt, Israeli Public Relations Director, will speak on "Life in Modern Israel" Sunday at 4 P.M. in the Lecture Lounge under the sponsorship of the International Council.

Born and educated in England, Miss Goldschmidt covered as a journalist, the activities of the Anglo-American Committee of Inquiry on Palestine and the U.N. resolutions on the Middle East and the Palestine Partition. For the past three years she has interpreted Israel to the American public through lectures, radio, and television. In 1948 she was on the faculty of the New York University Summer Workshop in Israel and this year was its co-director. In addition, she has been co-editor of an annual course for teachers on the culture and civilization of Israel in conjunction with the Board of Education of New York City.

Students and public are invited to take advantage of this opportunity to hear an expert on one of the world's youngest democracies, located in the land where the world's three major religions have their origins.
Houston Urges Students To Buy Savings Stamps

By JOE WATT

Technical Research was discussed by Mr. L. F. Koolstra, Technical Director of Research of the Babcock & Wilcox Company of Alliance, Ohio, to inaugurate the Rice Institute Engineering Lecture Series in the Fondren Library Lecture Lounge Tuesday night.

Before the talk, Rice’s President, Dr. William V. Houston, welcomed the audience to the first lecture. He said the purpose of the lectures is to give students a first hand view of the fields of engineering.

Introduced by Professor James Woodyburn, Mr. Koolstra discussed research in general, and then proceeded to detailed accounts of his company’s research on particular problems dealing with boilers.

He emphasized enthusiasm and persistence. A false answer to a problem can be just as important as a positive one, perhaps more important if it keeps your company from attempting an impossible task.

Mr. Koolstra listed the stages of good research procedure as a survey of the problem, background research laboratory tests to prove basic facts, building a pilot plant, field trials, and publication of the results.

With the aid of slides showing graphs, charts, and pictures, the speaker discussed his company’s cyclone furnaces, the purity of steam used in steam turbines (total impurities: % to 1 part per million), problems of scrubbing natural gas before pumping it into pipeline, and creep-rupture machines designed to explore the properties of steel at high temperatures, and super alloy steels.

Following his speech, European educated Mr. Koolstra was presented with a key signifying his membership in the Rice Engineering Society by Ben Edwards, past president of the group.

ROTC To Receive Chicago Tribune Awards At Review

Two Army ROTC students will receive Chicago Tribune Awards as the battalion’s two most outstanding cadets at a final review for the semester this afternoon at 4:45.

In conjunction with the review, an informal inspection of the corps will be conducted by Mayor H. G. Thompson, chief of the ROTC Section of the Texas Military District.

Lt. Col. Edward H. Dillon, Professor of Military Science, will review and present the awards.

The review, a citation will be read for the members of the corps who volunteered to donate blood in connection with the various Red Cross Blood Drives.

To the students

In cooperation with the U.S. Treasury Department and the Post Office, the Rice Institute is undertaking to make available to all on the campus means of participating in the current campaign for the distribution of US Savings Stamps and US Savings Bonds.

I have no hesitation about urging the participation of everyone. This is an activity which benefits the individual in providing him a small reserve of available cash and benefits the government’s financial plans.

To recognize the effort involved, a trophy will be awarded to the Houston school showing the best record of participation, and the Rice Institute student body is encouraged to win this trophy.

W. V. HOUSTON

U. S. Saving stamps are now available in the Cashier’s office in the 2s denominations. Small stamp albums for these stamps may be obtained by the Cashier’s office and by the Corp.

POLITICS

‘Freedom of Press’ Means Just That

By BILL ROBBY

This week, this columnist is going to take the liberty of wandering from the beaten paths that are usually trod in this space and talk about an issue that is far more important than “politics,” as the word is usually understood.

Last Monday night in the Chamber of Commerce auditorium, three men took part in a panel discussion on “How Far I Think A Reporter Should Stick His Nose Into My Business.”

They were Mayor Bob Hofhansl, County Judge Bob Casey and Port Commission Chairman Warren S. Bellows. The audience was composed for the most part of newpapermen from Houston and from nearby counties.

Each of the three men stated briefly what their concept of the phrase “freedom of the press” means.

Mr. Bellows drew the line at publishing material which he felt was not new but which could have been printed elsewhere. He said he believed in the case of a piece of news concerning a public or semi-public body (such as the Port Commission), the group concerned should have the final say as to whether the news should be run.

Few men have done more for Houston than Warren S. Bellows. He has always shown himself to be one of the most civic-minded and generous of Houston’s citizens. He is a highly successful businessman.

Yet the idea he put forth surely contains the seeds of totalitarianism.

In other language, what Mr. Bellows was saying was this: “A public official should be the final judge of what is printed about him in the public press. If he sees fit he should be able to forbid publication of a piece of news because he thinks it would endanger his own reputation or anyone else’s activity or function of his office.”

But the ultimate refutation of this idea about the function of the press is left for another time.

(Continued on Page 6)
It was two down and ten to go, following Rice's victory over Baylor Tuesday night, 75-63, at Waco. The win set up the Owls for at least an even split in their current and all-important two game tour away from home. The Owls meet Arkansas in Fayetteville Saturday night for the other contest.

Tuesday night's decision over the Bears was the first in Rena Mars' reign in Rice's victory over the Bears 11-2 in the first three minutes of the third period. The score at the end of this quarter was 50-35.

With five minutes remaining in the contest, an elite score at 66-66, Strasburger and Jim Welton fouled out, followed by Rice's Lanes. From there on out, the Owls were in complete control.

Although Rice did not maintain the early shooting pace, they finished with an excellent mark of 42 per cent. The Bears hit 32 per cent of their attempts.

Several of the Owls were not in top shape physically following attacks of the flu. Gene Schneier, Don Lanes, and Bunny Bryan were the ailing members. Schneier played the first half of the game as the tall center was held to 11 points, far below his normal output.

On the other hand, Bryan played his best game of the season. The six foot forward, handicapped previously by foot trouble, has shown a marked improvement in that area, and with the Owl prospects improving with each game, student attendance should climb.

In line with this, a question arises as to just how important a home court and crowd is to the welfare of a team. Does a partisan crowd influence the play of a team and if so, to what extent?

Coach Auerbach

Coach Red Auerbach of the National Basketball Association Boston Celtics has this to say on that point: "The home basketball crowd is in the greatest single psychological factor in any sport today. When a home team takes to a court, it goes out on the floor with the thought, 'this crowd is with us all the way.' The more rabid the crowd is, the better the home team likes it."

The Bear's performance was seen when the win and loss records of six years for home games-- from home games in the NBA were released. It was found that on the average, two thirds of a team's victories came in the games played on their home courts. Not one team had a winning average on the road. And this is in pro ball where the enthusiasm of the crowd does not approach that of college gatherings.

A look at the Rice conference record for the three years preceding this season bears out this finding. The Owls have lost to the Bears over this span, only one was achieved away from home. Until the Owls took that lone decision, a two point victory over Arkansas last year, they had accumulated a string of 14 conference defeats in road games.

There is no doubt that student attendance is on the upgrade for the Owls games, and with the presence of cheerleaders to lend the cheer, this will reflect in the team's play. However, it should be kept in mind that there is a difference between team support and unsportsmanlike conduct on the part of the fans.

Home Schedule

At Rice is also the remaining game of the season.

(Continued from Page 5)

The truth in this statement was approached that of college gatherings. Of the eight games won by the Owls, six had been given earlier in the season to the fans.

The athletic director at Hardin-Simmons, who joins with Neely in spring football, is E. W. Ledbetter. Head grid coach at the Ailmes, Texas school is Hurry Evans, a Hardin-Simmons football star of the early forties. It was announced recently that a new member of the coaching staff for the Cowboys in spring training and next fall will be the famed passer, Sammy Baugh, who has retired from pre-football after long service with the Washington Redskins.

With the Hardin-Simmons, the Owls will have six home contests on their ten-game card for 1963. The Owls home games are played in the 7,000 seat Rice Stadium on the school campus. The opening game with Hardin-Simmons will be with the University of Florida, recent victors in the 'Gator Bowl' game.

By DICK KARAS

During last year's basketball campaign there was talk about the lack of students at the cage contests. This season has shown a marked improvement in that area, and with the Owl prospects improving with each game, student attendance should climb.

It is true with this, a question arises as to just how important a home court and crowd is to the welfare of a team. Does a partisan crowd influence the play of a team and if so, to what extent?

Rice athletic director Jesse Neely recently dropped from intercollegiate football, and Rice met in 1961, the contest was hailed as a battle between the two smallest schools in the major grid circles, Santa Clara, with an enrollment of 1,400, was the smallest, and Rice's 1,800 placed second. Now apparently Rice has fallen before the title.

The Bronco's fans have gone the way of San Francisco and St. Bonaventure, but the Owls have been able to brand their grid squads following the 91 season.

Politics

(Continued from Page 4)
Rice, Texas, Pace Southwest Conference With Unbeaten Records

With a 75-63 victory over the Baylor Bears, the Rice Owls retained their unbeaten conference record and moved into the number two spot in the standings with a two victories and no defeat mark. Texas has gone unbeaten in three league games.

The Owls, the surprise team of the loop, has come up with its usual suspect, despite the loss of the Longhorn attacks, but senior two letterman forward Phil Ford, who broke his hand before Christmas, as was expected, George Sealing, and senior two letterman forward, is making potential (18 against Baylor), another center who has shown some conception of this basic purpose of the freshman history course, has given the inexperienced Frogs, won 1-0 in a scoreless tie.

The Conference Standings:

\[
\begin{array}{ccc}
\text{Team} & \text{Won} & \text{Lost} \\
\text{Baylor} & 5 & 0 \\
\text{Texas} & 5 & 0 \\
\text{Arkansas} & 5 & 0 \\
\text{Texas A&M} & 5 & 0 \\
\text{SMU} & 5 & 0 \\
\text{Rice} & 5 & 0 \\
\end{array}
\]

ARE YOU TOUGH ENOUGH FOR HIS JOB?

If you can make the grade, the U.S. Air Force will award you a commission, your wings and pay you over $5,000 a year!

CAN YOU "take it" 6 days a week? For 52 weeks? Can you meet the high standards required to be an Aviation Cadet? If you can—then here's a man-size opportunity! An opportunity to serve your country and build a personal career that will fit you for responsible positions both in military and commercial aviation.

It won't be easy! Training discipline for Aviation Cadets is rigid. You'll work hard, study hard, play hard—especially for the first few weeks. But when it's over, you'll be a pro—with a career ahead of you that can take you as far as you want to go. You graduate with the inexperienced Frogs, and now that Buzzy Boyce is coming up with its rapid improvement of 6’1” center Fred Sanders, a sophomore transfer from Schreiner Institute.

If you pass your physical and other tests, you will be scheduled for an Aviation Cadet Training Class. The Selective Service Act allows you four-month deferment while waiting class assignment.

New Aviation Cadet Training Classes Begin Every Few Weeks!

HERE'S WHAT TO DO:

1. Take a transcript of your college credits and a copy of your birth certificate to your nearest Air Force Base or Recruiting Station. Fill out the application they give you.

2. If application is accepted, the Air Force will arrange for you to take a physical examination.

3. Next, you will be given a written and manual aptitude test.

4. If you pass your physical and other tests, you will be scheduled for an Aviation Cadet Training Class. The Selective Service Act allows you a four-month deferment while waiting class assignment.

Where to get more details: Visit your nearest Air Force Base or Air Force Recruiting Officer.

OR WRITE TO: AVIATION CADET HEADQUARTERS, U.S. AIR FORCE, WASHINGTON 25, D.C.
Football Rule Change Astounds Rice

By DICK KARIG

Two-platoon football is dead. In a surprise move Wednesday night, the NCAA football rules committee killed the free substitution rule that has been with football since 1941.

The change took the sports world by surprise. There had been talk of altering or modifying the rule, but it was generally conceded that it would not occur this year.

The resolution which will have a far-reaching effect reads as thus:

"A player withdrawn from a game during the first or third periods may not return during the period from which he was withdrawn. Players withdrawn from the game before the final four minutes of the second or fourth periods may return during the final four minutes of the period in which they were withdrawn, but if withdrawn during the final four minutes of either the second or fourth periods, they may not return during that four-minute period."

The comments of Rice coaches and players all ran along similar lines: surprise and amazement at first followed by disgust.

Coach Jess Neely stated, "I don't know exactly what they have in mind, but I don't like it."

Kosse Johnson, offensive specialist for the Owls at the fullback spot commented, "I bet there'll be another change before fall. Someone's going to get mighty tired."

"This really messed football up," stated Billy Fisk. "Now the last part of the game will be like the end of a 15-round fight." Fisk has played defensive end, but has also been an offensive tackle.

"It's too much of a blow."

So it goes. Answers to what will happen will come during spring practice, which opens in a few weeks, and next fall.

Thompson, Cargill
Head APO Chapter
For Spring Term

Election of officers for the spring semester was held by the Theta Lambda Chapter of Alpha Phi Omega, the Rice chapter of the organization at its regular meeting Monday evening.

Brad Thompson was elected president; other incoming officers are Bob Cargill, vice president; Russell Baird, secretary; Austin Bland, treasurer; and Fred Lux, historian. Installation of the new officers will be held the first meeting of next semester, according to Mac Caldwell, incumbent president.
