Inside The Thresher

Excitement, glamour, and travel can come the way of the girl chosen May 1 for the Homecoming queen. Page 6 is listed some of the new homecoming events in the 1954-55 school year to be held Wednesday night, October 20.

The Rice Football Committee announced that the new school year will be held Sunday afternoon at 3 o'clock at Rice Stadium.

The Rice Football team will take on the Southwestern Athletic Conference's Texas State University Saturday, November 19, at Rice Stadium. The game will be played.

President William V. Houston has announced the appointment of Mr. Harry Carothers Wiess, late Harry Carothers Wiess, late...
Guest Ticket Information

Information concerning the purchase of student tickets for the football season was released this week by Emmett E. Brunson, Business Manager of Athletics, and Guy T. McBride. As a guide for students, the information is listed below.

General Information
1. Guest tickets for home games, and guest tickets for away games, will be sold at the Student Ticket Window on the east side of the Gymnasium main entrance.
2. The tickets window will be open from 8:00 A.M. to 6:00 P.M. weekdays and from 9:00 A.M. to 12 noon on Saturdays.
3. No tickets will be sold unless properly prepared
4. A limited number of guest tickets will be available on the same day and must be purchased in advance.

RiceCard Section Will Try Comeback For '53 Grid Games

The ever-popular card section will be tried again this year. The card section will be available for Rice Grid games this season after having been discontinued several years ago. Tried right after the war, the card section proved a great success, but the past few years the movement has lacked spirited leadership. The operation consists of a group of 20 students in one section of the stands, each with a card, following the directions of a leader. Their co-ordinated actions result in an ever-changing panorama that can be seen from the other side of the field.

The card section idea has gained wide acceptance, such that the credit going to the West Coast schools is appreciated. However, this system is not in use." (Continued on Page 19)

Maid of Cotton Selection Offers Excitement and Travel

Memphis, Tenn., Sept. 3, 1953 (Special)—How would you like to make an all-expense air tour of many leading cities of the world—in the United States, Canada, Europe, South and Central America? The glamour and excitement of far places may be yours, along with a complete 10-day, specially-styled cotton wardrobe created for you by leading American designers.

The chickens are coming home to roost in the 1954 Maid of Cotton. The second annual cotton crop opens on September 9, sponsored by the National Cotton Council, the Memphis Chamber of Commerce, and the cotton exchanges of Memphis, Georgia, and Texas. Application blanks may be obtained from Mr. John S. Apsey, Executive Secretary of the National Cotton Council, P.O. Box 18, Memphis, Tenn., and must be accompanied by a $10 fee. Applications are due by October 15. The second annual Model Search will be held in January to decide the Maid of Cotton and two alternates on a basis of personality, intelligence, poise, background, and appearance. After her selection, the Maid will be flown immediately for a month's training trip to

DeMolay In Process of Club Organizing

A college club of the Order of DeMolay is now in the process of organization on the Rice Campus. Preliminary work on this project was begun last spring by a group of Rice DeMolays, who felt that there was a definite place on our campus for such an organization.

The purpose of the club will be "to maintain the fraternal spirit of the Order of DeMolay by bringing into close friendship all DeMolays at Rice. All Rice students, both past and present, of the Order of DeMolay who wish to maintain the fraternal spirit of the Order of DeMolay, are eligible for membership in the club. The club will function as a service club and maintain the fraternal spirit of the Order of DeMolay at Rice."

Orientation Officers

By HAROLD LACY

Although it is seven months away, plans for the 14th Biennial Meeting of the American Chemical Society made up to shape already to be the most complete in history. The scope of the activities will be so broad that anyone interested in chemistry--as an instrument of Education Development and still sponsored by the Rice En- (Continued on Page 19)

Many Departments Gain Additions Over Summer Months

President William V. Houston has announced the additions to the Rice faculty for the academic year 1953-54. The appointments became effective September 1.

Dr. Arlid H. White has been appointed Assistant Professor of Civil Engineering. Mr. White received his Bachelor of Science from the University of Texas, and is completing his work for the doctorate at the University of California at Los Angeles. He has taught at Texas, EKU, Arkansas, and Southern California. Mr. William E. White, a practicing engineer in Houston, was appointed Lecturer in Civil Engineering. Mr. John E. Merwin of Houston will serve as Instructor in Civil Engineering, and Mr. Delbert H. Johnson of Channelview will also serve as Instructor in that field.

Mr. A. P. McDonald was appointed Assistant Professor of Engineering Drawing. Mr. McDonald was born in Louisiana and holds the degree of Bachelor of Science in Electrical Engineering and Master of Science in Industrial Education from the University of California at Los Angeles. He received his degree from the University of Chicago, where he held a postdoctoral fellowship from the Social Science Research Council.

Mr. Konstantin Kalendis was appointed Assistant Professor of Philosophy. He is a Phi Beta Kappa, who received his BA from the Rice Institute in 1930 and was the Susmita Banerjee Fellow in Philosophy from 1930 to 1933 at Cornell University. He received the degree of Doctor of Philosophy from Cornell in 1935.

Mr. George E. Bird has been appointed Assistant Professor of Chemistry. Dr. Bird's undergraduate work was done at Columbia University. Dr. Charles F. Cool, Dr. J. T. Elsinger, and Dr. Alfred Krass, Jr. have been appointed research associates in physics.

Mr. Arthur Dyess, Jr. will be Lecturer in Architecture from March to June. Mr. Dyess will be an instructor in Architecture. His position in Architecture will be filled by Mr. Arthur E. Hall, Dr. William H. Haselline will

Dr. Andre M. G. Bourgeois was appointed Associate Professor of Romance Languages. The position was vacated by Mr. Robert A. Montebello, formerly University of Ohio State University, has been appointed Instructor in Physical Education. Mr. Montebello holds a Bachelor of Science and a Master of Science in Physical Education.

Newly appointed Assistant Professor of Psychology is Dr. Donald R. Walker, a native of Chicago, who received his degree from the University of Chicago and comes to the Rice Institute from Yale University where he held a postdoctoral fellowship from the Social Science Research Council.

Dr. J. T. Eisinger, and Dr. Alfred Krass, Jr. have been appointed Research Associates in Physics.

A Few Words For The Class ’57

Greetings are an integral part of Freshman Orientation and they have been for so long that it would be interesting to conduct an investigation into these dissertations. Our experiment would run along these lines: Take two similar groups of freshmen and expose one to the various greetings, and the minds of the second group we would leave unshackled. A few days later of college life in the college’s tests would be given to determine the results. Results, more than likely, would prove highly inaccurate, and having reached this hypothesis —

Greetings, Class of ’57: You are taking a big step towards the real world which can be summarized to this new way of life. But do this as fast as you can, for things will begin to happen mightily fast in the next few weeks.

It might seem as if professors, superintendents and A sports event or rally affords this possibility. And the efforts are rewarding, not only for the student body as a whole but also for the individual. If you feel you’re burdened with an extra load, it’s time you inquired concerning your advisement for the forthcoming year. Need for the forthcoming year usually dissolves into the administrative offices of the Student Association. More so than ever before, every student feels the effect of what takes place not only on these 300 acres, but also in Washington, Paris, Moscow, and many other places. We would not be foolish enough to stem our local, national, and international news coverage, but we will reserve the right to editorialize on these subjects.

Cotton Bowl?

Friday night at 7:30 there will be a pep rally in front of the Field House, and Saturday night at 8:30 there will be a rally in the Student Lounge, ,,in the basement of the Academic Building.

The Rice Thresher, written and edited by students of The Rice Institute, is published weekly in Houston, Texas, by the Students of the Rice Institute. The opinions expressed by any student in this newspaper do not necessarily reflect administrative policies or editorial policies of The University of Houston. The editor and staff do not necessarily reflect administrative policies of The Rice Institute. The Rice Thresher is published weekly on Tuesday at 5230 Main Street. Subscription $3.00 per year.

To order reprints, phone (713) 892-0202.

Letters to the Editor

The Rice Bowl is closed to all students from 8:00 the Rice football team plays the University of Texas. Your criticism, we need your support to put out a well-planned advance notices in nationally distributed newspapers. Had you planned on attending both games? Know that in the opening game of the season Florida in our stadium in the University of Texas.

Advertising Manager: Tom Olson

I think it's logical to assume that if the non-participating student fit into the picture and what control does he have over his students? You may have read on the team bulletin board, but the top is in sight. And that is why, although the going may be rough in spots, there is a reason for it. And although it may seem that everyone is working against you, they are actually greatly concerned. Far, if you do not get down to the top, you want the acclaim of a good publication, and a lot of work.

The Rice Bowl is not a contest of subjects, and they need not be limited to campus topics. More so than ever before, every student feels the effect of what takes place not only on these 300 acres, but also in Washington, Paris, Moscow, and many other places. We would not be foolish enough to stem our local, national, and international news coverage, but we will reserve the right to editorialize on these subjects.

That Time Again

Yes, it’s rolled around again—that time when we all must leave our comparative life of leisure to return to a more serious occupation.

For each of us it probably means something different; some leaving a girl behind, some rather restless and eager for school to start, and all eager to make new friends and see old ones again. Perhaps many are staring with new resolve to do better, to “not let that stuff get ahead of me,” and “all in the same boat” out of department classes—get to be well rounded.

And for the Freshman, it’s a whole new life beginning. New home, new everything—except for the second hand books to be bought from the upper classes.

But for everyone, the ultimate meaning of this education we are taking up is the same. A goal of bettering ourselves, of developing our minds, of making our way in this life a success, so that we might pay back society in some measure for all it has been giving us free of charge since we could remember.

Well, we’ve got the opportunity, so here at it and good luck.

Kneel Ball

President of the Student Association

P.S. Have fun, too. It’s possible to do both.

K. B.

Thresher Policy

Letters to the Editor are welcomed and appreciated. However, there are certain restrictions which must be placed on these letters for various reasons. The policy for this year’s Thresher Letters to the Editor are listed below.

1. No unsigned letters will be considered for publication. Upon approval of the Editor, the writer’s name may be withheld for special reasons.
2. No obscenities, profanities or innuendos will be printed. No reflections of a personal character on any person will be printed.
3. The right to edit or not publish letters of more than 300 words is reserved by the Thresher.
4. Editor’s notes will be kept at a minimum. As a general rule, Editor’s notes will be used only for amplification or correction of facts stated in the letter. If the opinion of the Editor, the opinion expressed in the letter; the letter in its entirety will be printed.
5. The letters may be delivered or mailed to the Thresher office.

See you Friday and Saturday nights.

The Rice Institute has invited to visit the exhibitions of Mexican paintings and drawings which will be on view at the Contemporary Arts Museum through September 29. The museum is located at 2000 Main Ave., Houston, Texas.

The collection includes 55 paintings and drawings by 28 of the leading contemporary artists in Mexico, and has been assembled from major museums and private collectors throughout the United States. Outstanding examples of the diversity of works being done today in Mexico are included.

Los Otrasmanos.

In combined celebration of Mexican Independence Day and the Contemporary Arts Association’s exhibition of Mexican paintings and drawings, the Mayor of Houston issued a proclamation designating the week of September 13 to 20 as Mexican Art Week. As a special tribute to Mexican Indepedence and Mexican art, the Contemporary Arts Association presents the "City of Mexico" Open House on Thursday, September 17, from 8 to 10 p.m.

The museum is open from 9 a.m. to 5 p.m. every day except Thursday and Sunday when it is open from 9 a.m. to 9 p.m. There will be an illustrated lecture on Thursday, Sept. 14, at 8 p.m.

The Rice Thresher is a student publication, the "Rice Thresher" can be no finer than the student body from which it stems. This is a student publication, the "Rice Thresher" can be no finer than the student body from which it stems. Martin at the other guard spot. There are no lettermen centers returning, and that position is still uncertain.

Doug Dickey is expected to add considerable fitness to his last year's efforts from the Gator "T" from the quarterback slot. He is also the only experienced defensive play-caller in the league, as he spent a good portion of 1952 at defensive back before being transferred to quarterback. Only one conference squad, Texas, is still as fine as Martin at the other guard spot. He is also the only experienced defensive play-caller in the league, as he spent a good portion of 1952 at defensive back before being transferred to quarterback. Only one conference squad, Texas, is still as fine as Martin at the other guard spot. He is also the only experienced defensive play-caller in the league, as he spent a good portion of 1952 at defensive back before being transferred to quarterback. He is also the only experienced defensive play-caller in the league, as he spent a good portion of 1952 at defensive back before being transferred to quarterback. Only one conference squad, Texas, is still as fine as Martin at the other guard spot.

The task of replacing the Gator Bowl Game is a difficult one, as Pope Hall and Ruford Long, falls to Bob Davis and Larry Scott. Fullback is still open to anyone who can fill-in until Gaines returns, and Coach Woodruff hopes that as quickly as possible.

The Gators enter their opening game with the best prospect of a victorious season since their championship year of 1949. With twenty lettermen and a wealth of returning experience Coach Neely is smiling after every workout. In spite of the fact that this year's Blue-Gray intrasquad tilt was drastically one-sided, proving a deficiency in depth, the Gators are still many experienced reserves backing up the - two-tailed starting lineup. Neely figures his main concern is his depth with plenty of players, but that should all improve rapidly under the coaching of Neely and his staff.

The Big Blue should open the season at their own stadium if shallowly, fleet Dickie Meagle at left half, Bill Baskamp at right half, and tri-captain Dick "Knee" Johnson at full. Behind these three are a wealth of proven backs, including Mac Taylor, Horton Nevins, Carl Johnson, New Park, Dick Stone, and Gordon Kelley; fullbacks Bob Garebrect, and Jerry Hall; end quarterbacks Art Aydley Positer, Buddy Grahastin, and John Pickard, Tyler.

The line, led by All-Americans candidate and tri-captain Dick Chapman at left tackle, junior lieutenant Lattin Gaulden at right tackle, sophomore Al Redmond at left guard, senior Bill Hudson at left guard, and tri-captain Leo Rucka, is a Conference candidate center. Behind this veteran lineup, the lack of proven backs is obvious in the Blue-Grey game, with too much reliance on sophomores. However, there are some veterans, and the others are potentially great.

**35 Rules Changes Will Shorten Game**

This year the NCAA, Rules Committee for Intercollegiate Football has eliminated the two platoon system in favor of the old limited substitution rule. Here is how it works:

If a player starts the game and is substituted for, he cannot return to the game until he is allowed to be substituted again. This four minute period is designed to allow the losing team to get their rested regulars back in the game. After that period, the game will return to the two platoon system. The new substitution rule makes early season prognosticating even more hazardous than usual, but we will give it a try.

**Rice vs. Florida:** This should be the real battle Saturday. The Gators return most of the members of their Gator Bowl Champs and are picked by many "experts" as the Number One eleven in the South.

Blues Overpower Grays In Intrasquad Contest 52-14; Moegle, Johnson Star

The Rice Owls' first string Blues looked experienced, refreshed, and ready last Saturday night as they routed the Grays 52-14 in the annual fall intrasquad contest for the benefit of the Rice band.

However, the heavily one-sided game left some question of reserve strength. Several individuals stood out for the Gray t e.m., particularly halfback Dave Oglesby and quarterback Buddy Grantham, and so forth Marshall and Alex Winkler, who were few not enough to hold off the Blues' five touchdown power in the second quarter. Oglesby scored both of the Owls' two touchdowns. The big 212 pound Hudson, one of the Owls' two-platens, scored the first TD of the game when he recovered Atchley Poctor's fumble in the rear field late in the first period. He scored again in the third stanza on a short run with a blocked punt.

Although he scored but one touchdown, Jerry Clem, Lou Miller, and Darrell Goss, 254 pound giant, and "Tiny" Goss, 254 pound giant, scored the first TD of the game when he recovered Atchley Poctor's fumble in the rear field late in the first period. He scored again in the third stanza on a short run with a blocked punt.

The Owls' defense held high a score of 11 attempts. Carl Johnson, who was in the backfield, was anxious to get a try at center. All-Conference halfback Larry Graham, running back at left half, since he was little better than sophomore)

Minor Changes in Traffic Rules

Except for a few minor changes, the automobile use regulations for campus driving and parking will be the same as last year. A clause concerning stop signs has been removed from the regulations. The unpopular signs did not last very long in the past year. However, it should be noted that pedestrians have the right of way at all crossings.

It should be noted that parking is still permitted on the west and north sides of the roads behind the library, but that parking is not permitted near the Chemistry Lecture Hall.

As a reminder for old students and for the convenience of new students, the rules are listed below.

1. Registration
   a. All automobiles that are to be parked on or customarily driven on the campus must be registered, which is free, and must bear a campus parking sticker, which costs 10c. These stickers are issued during academic registration and will also be available thereafter from the Dean of Students, Second Floor, Lovett Hall.

2. Operation
   a. Cars must be driven at moderate speeds on campus roads.
   b. Pedestrians have the right of way at all crossings.

3. Traffic Signs
   Traffic through the No. 1, or main gate at Sunset and Main is one way IN and is so indicated by traffic signs.

4. Parking
   a. Cars may be parked in the parking lots and on campus roads except as specifically allowed in these regulations.
   b. Parking lots for general, unregistered parking are:
      (1) Dormitory lot north of Wiess Hall
      (2) Lovett Hall lot to the east of Lovett Hall
      (3) Physics lab and AerocarLab (temporarily closed)
      (4) Chemistry lab adjacent to the Rice Blvd. exit.
   c. Road parking is permitted on the curbed section of the road only between East Hall and Wiess Hall.

   d. Road parking is permitted on the west and north sides of the roads behind the library—not near the Chemistry Lecture Hall.

5. Enforcement
   a. The Proctor is responsible for enforcement of these regulations.
   b. By request of the Student Council, the Dean of Students levies all fines for driving and parking infractions, which are:
      (1) First offense warning
      (2) Second offense, $2.00
      (3) Third and consecutive offenses, $5.00
      (4) Each offense with an unregistered car, $5.00
      In addition to above fines.

   c. Please take up any questions regarding these rules either with the Proctor or with the Dean of Students, Second Floor Lovett Hall.

CONTINUOUS VIOLATION OF THESE RULES WILL RESULT IN SUSPENSION OF YOUR CAR REGISTRATION AND OF YOUR PRIVILEGE OF DRIVING AND PARKING ON THE CAMPUS.

Guy T. McBride, Jr.
Asst. Dean for Students

When you smoke Chesterfield it's so satisfying to know that you are getting the one cigarette that's low in nicotine, highest in quality. A fact proved by chemical analyses of the country's six leading cigarette brands.

And it's so satisfying to know that a doctor reports no adverse effects to the nose, throat and sinuses from smoking Chesterfield.

The doctor's report is part of a program supervised by a responsible independent research laboratory and is based on thorough bi-monthly examinations of a group of Chesterfield smokers over a period of a year and a half.

Chestefield, is best for me—my steady smoke for 7 years.
