Sign Garber For Homecoming Dance

Jan Garber and his Band will play at this year's Homecoming Dance, Councilman-at-Large John McClintock announced today. Several weeks ago, the Student Council chose Garber and final arrangements have now been completed. The dance will be held in the Crystal Ballroom of the Rice Hotel on November 14. This is the first for a Rice dance in a number of years.

Homecoming activities will also include a band rehearsal at both sponsored by the lute, the Rice-Texas A&M football game, and the crowning of the Homecoming Queen and two Prince candidates at halftime.

Garber will come to Houston with a long and impressive list of engagements including the Palace House and the Edgewater Beach Hotel in Chicago, the Netherland Plaza Hotel in Cincinnati, the Paladium in Hollywood, the Blackhawk in Chicago, and the Orpheum in Los Angeles.

The orchestra was seen and heard in several movies including "It's Your Uncle," "Wine's Mummy," and "Jan Session" as well as a number of short features produced for Universal and RKO. The group currently records for Capitol.

Garber and his orchestra have been featured many times on the Gens-Coa Spotlight Show and on the Fifth Bass Wagon.

In spite of the following which he created with his swing band, he recognized the current trend toward "sweet with a beat" sound and augmented his band, making it one of the most popular and versatile orchestras in the country.

After previewing this, he changed his entire line of musical numbers to allow for his present style.

The present Garber organization is composed of some of the top instrumentalists and arrangers in the country, in addition to his outstanding staff of arrangers.

As a child in Minneapolis, Jan acquired a local reputation for his singing ability. When he started his "hitband" and became known as the originator of the new style.

After a long and successful career, he abandoned it for the opposite one: soft, sweet music and the title "The Idol of the Airwaves." He currently has again moved with the tide by synthesizing the two into a style he has dubbed "Sweet with a Beat."

Hardin-Simmons In Town For Contest With Owls Saturday

By DICK PRETS

The Rice Owls, fresh from a 28-7 victory over Cornell at Ithaca, N.Y., last week, square off for their final pre-conference "exhibition" game Saturday night when they meet Hardin-Simmons University's colorful Cowboys at the Rice Stadium.

After a successful venture East, where the Owls were tabbed as the best team to meet the Big Red since the 48 Army machine (this, incidentally, includes the '51 Proctor aggregate).

VOTE TODAY

Elections are being held today for the positions of Sophomore president and a cheerleader, both to fill existing vacancies. John Philip Bowman, Eugene Simmons, however, and Fred Woods are seeking the soph presidency, while Sean O'rourke is the lone candidate for cheerleader. Vote today!

Admiral Jarrell Leaves NORTC Post To Lead Pacific Flotilla

Admiral Jarrell was commissioned as the first admiral on October 1 after being approved by President Eisenhower. A veteran of 28 years in the Navy, he has been active in both World War II and the Korean conflict, as evidenced by over 60 awards as the Navy Cross, the Legion of Merit, and the gold star in lieu of a second Legion of Merit.

Besides the U.S. Naval Academy, Admiral Jarrell has attended the Universities of Georgia and California, receiving a Bachelor of Science degree from the latter.

He began his naval career on the USS Texas and, in addition to numerous tours of sea duty, has served with the U.S. Naval Mission in Rio de Janeiro, Brazil, and as Naval Attache in Mexico City.

"I consider Rice one of the best engineering schools in the country," stated Admiral Jarrell. "It produces naval officers equal to those produced anywhere."

"I requested a tour of duty at Rice," he added at the hearing. "I am now in the post and have been very satisfied with the experience."

"I am very pleased with the work that the students are doing here," he said. "I am very satisfied with the work that the students are doing here."

William Allen, former student leader, was seeking the position of Sophomore president and a cheerleader, both to fill existing vacancies. John Philip Bowman, Eugene Simmons, however, and Fred Woods are seeking the Soph presidency, while Sean O'rourke is the lone candidate for cheerleader. Vote today!

Rice Players Plan Casting For Three Play Production

The Rice Players have announced open try-outs for their first production of the fall semester on Monday, October 12 in the Auditorium Hall.

Sandy Haines, Tun Oates and James Kregos, the group's coordinators, have announced that three plays are to be seen. They are The Tender by Francis Winslow, The Long Goodbye by Tennessee Williams, and The Dark Lady of the Samu by George Bernard Shaw. The directors are to be Sandy Haines, Mark Morris, and Oliver Buckingham.

GET TICKETS FOR TU, SMU NOW!

Tickets for the SU, SMU game will go on sale tomorrow at noon, according to a release from the business manager of the Athletic Association. This means that all students who plan to go to Dallas and watch the game from the bleachers must buy their tickets before tomorrow night.

In line with the policy announced at the beginning of the year, tickets for all out of town games will be on sale until Saturday before the game. Thus, the last day which student ticket for the SU, SMU game may be purchased is next Saturday, October 17.

Bums Rush...

Rice's annual Bum's Rush took precedence over virtually every other form of social diversion this past weekend—not to mention its precedence over convention, propriety, and all other forms of civilized behavior, i.e., this year on the night of Oct. 3, numerous Riceites were observed "relaxing" in true Roman style at the Light Guard Armory.

Fashion notes were, shall we say, revolutionary or revolting in character (depending on your point of view). The mode of the day for the masculine populace was several grimy strips of cloth worn as a mere reminder of the shirt one arrived with. As for the feminine element anything imaginable was a prop on South Street." was attended by a Rice crew composed of Fielder, Harv Gillam, Joan and Jane Ryba, Camilla Cloud, who

Listening Parties

The apartment of Tom Taylor, Phil Sherwood, and Don Gaucher was the scene of a listening party combined with a flowery cologne; Neil O'Brien with his water pistol; Ellen Eli-Joiner, dressed as a blind man; Tom Taylor sporting a lamp cloth worn as a mere reminder of the shirt one arrived with. As for the feminine element anything imaginable was a prop on South Street." was attended by a Rice crew composed of Fielder, Harv Gillam, Joan and Jane Ryba, Camilla Cloud, who

B.SU and PSA Plan Religious Activities

By JO-ANNE HICKMAN

Members of the Rice R. S. U. will attend the Texas Convention in San Antonio on Oct. 17 and 18. Geraldine Lewis, chairman, announced that they will leave Saturday at noon by bus.

The Presbyterian Student Association will meet next Thursday at 12:30 in A. H. 109. Rev. Joe Rand, assistant pastor of the First Presbyterian Church and one of the workers with the college department, will be the guest speaker at this meeting. The Westminster Fellowship group will meet Sunday evening with the families of the First Presbyterian Church for supper and program beginning at 6:00.

The S.R.'s Red Riding Hood

For Big Boys Too

By GERALDINE LEWIS

The S.R.'s Red Riding Hood, to be held October 27 and 28 at Audrey House will include many innovations from the usual little girl's story. It includes not only the Wolf, but a French posse as well, played by the bull of last year's Carmen. Red Riding Hood's basket has grown somewhat, but no one knows exactly what kind of cookies she carries in it. Red has also acquired some girl friends who have taught her a few tricks. She is also popular with the boys, but Red Riding Hood still has the problems she had when she was only a youngster.

Young Republicans To Convene Sunday

The Young Republicans will hold their first official meeting of the year next Sunday, October 11 at 2 PM in the projection room of the Fondren Library. All students are cordially invited to attend and become part of the only political organization on the Rice campus.

The main objective this year, according to the organization's president, is to "campaign for the Republican nominees in the 1964 Congressional election, to bring distinguishable speakers to Rice, and to help build a two party system this year in the city of Texas.

The officers of the club this year are Paul Metzger, Chairman; Dick Karig, Co-Chairman; Bonnie Baker, Secretary and Treasurer; and Fred Rehr, Parliamentarian.

Most of the committees this year will be turned over to the freshmen and other new members in order to have good prospects for officers in the club elections next spring.

Metzger said, "I have heard many statements to the fact that the organization would collapse after the presidential elections because of a lack of interest. It is now almost a year after the 1962 elections and we are still going strong—in an effort to establish a two party system in Texas and to promote political interest in the minds of young people."

FULBRIGHT LECTURER

Dowden Returns To Rice After Year In Vienna

Dr. W. S. Dowden, Assistant Professor of English at Rice, has just returned from a year's leave of absence. For the past year, Dr. Dowden has been in Vienna, Austria as a lecturer at the University of Vienna, where he taught classes in English and American literature. Recipient of one of the principal Fulbright lecturehips, Dr. Dowden held one of three such lecturehips given to Austria. Besides his courses at the University, which were conducted in English, he delivered lectures in both English and German to groups in Vienna and surrounding Austria.

Austrians Are Enterprising

Dr. Dowden and his wife found life in Vienna enjoyable and very interesting. The greatest difficulties to be overcome were adjusting to hotel life. Dr. Dowden said that in particular they enjoyed the excellent food that was offered in Vienna, which attracts the best articles to the field.

The Dowdens found that the standard of living was much lower in Austria than it is in the United States. Austria is still an occupied country, with the heavy industry and oil resources in the country in the Russian zone, where they have been extensively exploited. Yet in spite of their difficulties, the Austrian people seemed to Dr. Dowden to be very enterprising. The people live in respectable poverty, and are not absolutely destitute.

Tradition and Culture

Vienna is a city of very hospitable people, Dr. Dowden says. They are very cordial and kind. In spite of their difficulties they are very cordial and kind. In spite of their difficulties, they are very cordial and kind. They are not absolutely destitute.

The people live in respectable poverty, and are not absolutely destitute.

Many of the students were taking up more than just one sport by draping their legs over the seat in front of them, and there were many vacant seats directly behind the forehead of the student section.

Therefore, much of the blame can be laid on the students and the ushers rather than on the Athletic Business Office. However, interested in giving fellow students a chance to watch the game from a good vantage point should cooperate with the ushers.

Cooperation Needed In Student Section

Further information concerning the seating problem at the Rice-Ford game has come to light since the editorial on this subject was printed in last week’s issue.

"A survey of the seating section during the game revealed that, although many students were being moved away by the ushers, there was sufficient seating room in the student section.

The RISAWSF, or the Rice Institute Society for the Advancement of the Worlds of Science Fiction, has received notice of a contest that might interest science fiction lovers on the campus.

Details will come later, but it is known that the contest will be limited to college undergraduates and that the subject will center around the interpretation of igioids today and their effect on future life in America.

The contest is being sponsored by a science fiction magazine and they promise more details at a later date.

Since some of the best SF is written by men with technical experience in the fields of science, and since many of Rice’s undergraduates are studying in these fields, there might be some students interested in this contest.

WILLING TO BURY HATCHET
By Dr. Theo Bold Blinkus

TRUSTEES DEMAND HIS RETURN

After an absence of more than three years I am glad to be back at my office in the Chemistry Building, from where I can see that the Institute is run according to my plans. I spent the summer collecting rare stones in Reykjavik. (My last two weeks have been taken by an unexpected and very urgent call to the East Indies Islands in order to study the phenomena of stellar evolution.)

I am probably wondering, as are the great majority of my friends and former associates of the faculty, why I am associating myself with this Institute after all the dirty things that happened three years ago. I received the following letter a few weeks ago in Willie Houston's dugout hand-writing:

August 3, 1953
Dr. Theo Bold Blinkus
Professor of Astronomy.
Seaboard University.
Birmingham, Alabama.

Dear Dr. Blinkus,

How is weather in Reykjavik? You sure picked cold spot to do summer research. It has been rather mild in Houston.

In particular hot at Rice Institute right now. Board of Trustees is breathing down my neck about asking for your resignation 3 ears ago. Please come back.

The stars have not been as bright since you went away. Come back, Blinkus, friend, comrade, Be a sport.

Bring your telescope, microscopic, barometer, charts, specimens bottles, brush, brush, and everything. We'll tear down Anderson Hall if you still don't like it. You can hang your wash on the roof of the Library. Your shoes will have a bird's nest over it.

Rice is in progress, then. I intend to put you on the payroll this time. I overlooked it before. Let bygones be "bygones and re-gones" and since it is time for Orion to be bright since you went away. I will leave you with this final word that it is better to have bullied and bowed than never to have been a prof at all.

Bill Allen set the dates for the Campanile and the Assistant Business Managers for the autumn edition. The Assistant Business Managers will be held on November 16. This time will be 10 days before such election.

Student Council (Continued from Page 1)

committee. Bill Mosgrove and Ulrich Wolff were appointed to the Football team.

Bill Allen set the dates for the election of the Assistant Editors and the Assistant Business Managers for the Campanile and the Thresher. The Assistant Editors election will be on November 2 and the elections for Assistant Business Managers will be held on November 16. Petitions will be due 10 days before such election.

New Scholarship Payment Plan To Begin This Year

Dr. G. H. Richter, Dean of the Institute, has announced a new procedure for the disbursement of scholarship funds to the student recipients. The new system is designed to speed up the disbursement considerably.

Scholarship checks for the first quarter will be distributed by Mr. Fullbright from the Cashier's Office. This office is located on the first floor of Lovett Hall.

The first payments on scholarships is now available and students are urged to go and pick up their checks this week.

The remaining quarterly payments will be handled in the same fashion. At the beginning of each such period, October, December, February, and May, notices will be posted on the bulletin board of Lovett Hall that the checks are ready.

Will all letter-winners in sports events, both freshmen and varsity, please get their invitations from Mrs. Erikson in the Athletic Association office in the Field House. Rice Institute students graduating in engineering and science in 1953 will be interviewed October 13 by representatives of Humble Oil & Refining Company.

The Humble representatives are interested in securing mechanical, chemical, and electrical engineering students at all degree levels; physics students at all degree levels; and candidates for advanced degrees in chemistry.

There will be a general assembly at 7 PM, October 12 at which employment opportunities with the Company will be discussed. Interviews will be given all the next day.

Additional information may be obtained from Whitlee Zander, Jr., Director of Placement at Rice.

SILENCE: Make sure the Campanile has a list of activities which you wish to put in the yearbook under your picture before the October fifteenth deadline.

Rice Prevails Over
Cornell Eleven 28-7

By BOBBY SHEERIDAN

THE EAGLE was the distributor of upper New York last Saturday, the Rice Owls the forerunners of dominating football offenses which amassed an average total of 212 yards by rushing in two 25-point games last Saturday. Rice was the epitome of this lack of cordiality from the opening kickoff to the score of 28-7.

More important to the fans back in Texas was the development of Coach Neely's second string to provide reserve strength for the starters. Thirty-four of the thirty-five members of the traveling squad played in the contest before 22,000 fans at Schuttfield Field in Houston, New York.

The Owls took the opening kickoff and, on the strength of Morris Stone's 31 yard run on the first play from scrimmage, marched to the Cornell 39 only to lose the ball by fumbling. Cornell returned the favor via a fumble, and Max Schuble recovered at Cornell's 30. Both drives ended on third downs, which was followed by an exchange of punts.

These Morris Stone, who led runners with 157 yards on 16 carries, and the Cornell 14 after which Cornell was penalized to the one for fumbling. Cornell punted to Moore who returned to the Cornell 54, and six plays later Rice scored with Morris Stone going the last 3 yards. Fullback Fenstemaker kicked the extra point and Rice led 14-7 with 5:22 left in the half. By half time the Owls had steamrolled to a massive 218 yards on the ground, but only had two touchdowns to show for it.

The third quarter was scoreless. Rice ended up with 584 yards rushing in its second string. In the fourth quarter, Cornell began to click, moving to its 44 on posses from De Graff to Infiller and Brenner. Then Dan Wilson, sophomore center, halted the drive by intercepting a pass off Brenner's hands on the 56.

With Fenstemaker in at quarterback the Owls made the extra-point, the second string continued to shine. They drove 20 yards for the final scoring featuring Garberich's 17 yard run and a 56 yard pass from Penn to Fenstemaker to Crawford on the Cornell 26. Neersta scored seven yards off tackle on second down for the tally. Fenstemaker kicked true for the fourth time. Rice had 25 points to Cornell's 7.

In its appearance against Ivy League competition; Rice displayed some fine line play by John典雅son, Tommy Paul, Richard Chapman, and Leo Backus on the first string, and Marshall Crawford, Don Wilson, and Louis Case of the second string.

The blocking was near perfect, allowing five Rice backs to ramble. Stone led runners with his 127 yards, and his 86 yarder was with 9 yards in 15 tries. Dick Jackson led reserve runners with 26 yards in two attempts, testifying to the Big Eight defense it. Most of all, was to the general reserve strength displayed by the improvement of the second string.

Rice Top Team in Ground-Gaining; Kosse High Man

Rice's powerful rushing attack and its combination ground gain, which have swelled into the individual leadership of the Southwest Conference in statistics released by the conference office Monday.

Including Saturday's game with Cornell, the Owls have amassed 615 yards rushing, 97 yards better than Texas' total against three opponents for an average of 79 yards per game, 96 higher than that of the southwest quartet.

Individually, Kosse Johnson picked up 97 yards rushing against that Big Twelve total to raise his total to 104, 42 yards more than Doug Cameron of Texas, and Morris Stone rambled for 137 yards in 15 tries, high for Saturday's action, and a 9.1 average per carry that merited him a trip for the leadership in that department.

Texas vs. Oklahoma: After their surprise loss last Saturday at Lubbock, the Longhorns have re-routed their plan for the Oklahoma Sooners. The Cowboys replaced Santa Marques, whose bruising runs are the key to their offensive attack, with his 13 yards and two touchdowns in five trips; and Corpus Christi's Ray Ring, who gained 67 yards in six forays.

Here is the way the Owls' scoring was marked up:

First Period: Rice passed to Pate for 65 yards to the Cornell 1, from which Throckmorton scored. Rice 1-0.

Second Period: After Louis Eli- siouras had recovered a blocked punt on the 31, Jim Finlay scored from the 17 with 4:30 left and added a conversion kick. Rice led 4-0.

Third Period: Following a 37-yard punt, Jim Finlay covered 60 for another; Vinson completed three straight passes for an extra point. Rice 4-0.

Fourth Period: With 14:45 left, Throckmorton took Owens' 60 yard pass on the Owls' 1 for another touchdown. Rice 11-0.

The Owls are back in the football-poor Ivy League will have another following in the fall. They are 1-3-0-0 the season and 2-0-0 in Ivy League competition; Rice dropped three in the first three games, but have soared into the individual leadership in that department.

The third quarter was scoreless. Rice ended up with 584 yards rushing in its second string. It appears as if the week's layoff may have definitely benefitted the Owls. The extra work gave Jess Neely and his able assistants more time to work on the Owls' reserve and work they did, as any of the players will attest.

Several changes were made, including the switching of Bobby Rayburn from guard to tackle and Jay Riviere from tackle to guard. The extra work gave the Bice Owls. The extra work gave Jess Neely and his assistants a chance to work on the Owls' reserve and work they did, as any of the players will attest.

Joe Davis' Line and "No Man's Land"

Bob Garichet, the only non-Texan on the squad, gave his assistants an excellent show for his first game, before they were on the high school, Bob gained 64 yards on seven carries and did a fine job backing up the line. Garichet's focused improvement may earn him a starting job for the next game. Of course, the question then is when.

At right half, Morris Stone did a super job against Cornell replacing the injured Carley. He gained 187 yards rushing and broke up several Big Red backs. Internally, Carl will be ready for the Harvards, and Morris Stone, at least, should regain his position.

Horton Nesrsta continued to show critics that he is not just a "No Man's Land" against Cornell. Garichet's, fourth quarter tosses to Crawford plus his smooth ball-handling again showed his proven ability. Crawford, Garichet and Neely, all playing as well as they do, play a significant role in the Owls' success.

Last year, Buddy spent the season behind the line, where Davis and Leroy, but every time he goes in, he has a chance to score.

The Two Old Pre To Resolve Awards Tomorrow

Tomorrow, in Dallas, the two great coaches of yesteryear will be honored at the half in the Texas-Oklahoma Football game. Bob Garichet, X. Bible, legendary coach and new athletic director of Texas, and Bob Nesrsta, owned O.U. coach. The two will be formally accepted into the Football Hall of Fame, a great honor for those two members of men.

Bible, while at Texas, Nebraska, Mississippi College, and Texas A & M turned out teams of national prominence. While at A & M, he also coached conference basketball championships. Garichet's coaching at Austin has never been a loss in ending in 1923. Owen confined his duties mostly to U.O., where he brought the school into the national football picture.

Honor guard for Bible and Owen will be four sports greats who played under Bible. Col. Frank Ar-}

25 Teams Ready To Begin Drive For Intramural Crown

Twenty-five teams, one less than last year, and their 250 members have signed up for intramural football and are ready to begin the 1954 drive for the school championship. The five leagues are scheduled to commence the play of the October 12 with games beginning at 4:30. The Tuesday league may start at two p.m.

The following leagues have been tentatively established and should a team find it impossible to play on the day assigned the manager should notify Mr. J. R. Barker in the Physical Education Office.

Rice Players
(Continued from Page 1)

The Teen magazine examined the private life of a renowned opera singer who has the world, especially her own, at her feet. 9.4 a.m. traditionally finds Miss Preludes attending the Shakespeare in the Dark Lady of the Somnus. By way of contrast, The Long Goodbye in nearly as early a drama set in the depression period, concerns the financial struggle of a poor family for reality.

These three plays are on one of the most precious of Fondren Library for the con-venience of those who wish to read them. The plays begin Friday. Players cordially invite the read- ing all Rice men to visit it.

I've seen here in a number of years, "Rice is as good a blocking team as any we've played since Army in 1948." Lefty James, Cornell coach: "Just as we expected, Jess Neely brought an extremely sound team here against Cornell, and one that impressed me most was the team's great speed. It certainly is the fastest team we've played since Army in 1948."

Alton Good, Jr., Elvis Telegram: "Rice is as good a blocking team as we've seen in a number of years, and they have the backs to take ad- vantage of that blocking. The mid-dle of that line was very, very aggres-sive. It certainly seems that the offensive line, which has been given Chapman and Hudson is justified."
The Razorbacks, with a tradition of excellence in football, will be out to win their first conference game. Mr. McNeely announced that the band will take scheduled hops to Dallas, Austin, and Texas Christian University. The band expects also to participate in the freshman parade and to play at all conference basketball games.

Student Predictions

(Continued from Page 8)

line. The Sooner's will be looking for a victory, but the revived Longhorns should triumph. Texas 28—Oklahoma 14.

Raney—Arkansas: The Razorbacks, fresh from their victory over TCU, will be out to win their first game in the state of Texas in four years. It will be a thrill for the fans to defeat George Sauer's Bears. The Razorbacks backed off in Denver, Iowa City, and Austin, but their expected number of students reported to Mr. McNeely and his signet association for their aid in the Blue-Gray game. The annual intersquad clash was held this year to the visiting Cowboys, but also to the visiting Sooners. Mr. McNeely announced that the band will take scheduled hops to Dallas, Austin, and Texas Christian University. The band expects also to participate in the freshman parade and to play at all conference basketball games.
