Lamar students have already heard about the APO run, and student support for the yearbook has also been demonstrated by numerous students volunteering for work on this year's book.

There are still many vacancies on the staff, however, and any student who would like to work on the yearbook is invited to drop by the office. The most important vacancy at present is that of assistant editor, which is an elected office, and which designates next year's Editor. Posters for assistant editor must be signed by 25 students and filed in the Student Association office by noon of Wed., Oct. 5.

The Student Council would like many more students to become involved in the yearbook project. The council feels that it could not possibly function without large participation from the student body.

The council has been appointed last week to investigate the roadblock that reported that the roadblock was a part of a long range plan to relieve traffic congestion in front of the football stadium and the Student Activities Center.

By AL BEERMAN

The entire student council was present at the meeting on Monday night and discussed the matter at length.

The meeting was held in the Physics Building.

Dean McBride pointed out that the barricade was a part of a long range plan to relieve traffic congestion in front of the football stadium and the Student Activities Center.

Dean McBride commented that he believed the roadblock was a part of a long range plan to relieve traffic congestion in front of the football stadium and the Student Activities Center.
Two
Traffic Stifled
The Roman Empire was connected by a network of highways and roads over which people could travel from one point to another. There are Roads on the Rice campus...

When the Institute was first built there was not the same need for roads and parking lots as there is today since the automobile had not yet come into its own. The need for air-conditioning, dial telephones, or a 70,000 seat stadium was not clearly evident. Most traffic was done by horse and buggy. A roadblock which renders the roads incapable of performing their primary function has been built.

No traffic problem will ever be solved by stopping traffic. The roadblock does not solve any problem—it merely substitutes another. There is a need to travel across campus. Students have traveled across the campus according to a poll, and if some difficulty is incurred it should be met with traffic regulations and/or parking regulations which will eliminate it; it should not be met by stopping traffic. No one individual would make the many twists and turns necessary to navigate the campus unless he were going somewhere, and to make the minimum of five turns necessary to cross the campus is certainly no short cut or pleasure ride.

There are parking problems on campus, and these should be met. The new parking lot has certainly alleviated the problem, and the need for traffic, parking regulations and enforcement would be able to provide the solution; however, a road block which causes incompatibility to students and faculty alike is not even a partial solution. If a student wants to park illegally he can do so with or without a road block. The only result of this is the inconvenience that it causes many students.

It does eliminate cross-campus traffic, but it has never been demonstrated that this traffic is harmful. There are many occasions of legitimate cross-campus traffic. For example, students often face the problem of going to the gym, and having to circumnavigate the campus makes this much more of a problem. It must be admitted that it is not impossible to walk to the gym, but at the same time it is usually more convenient to go by auto—especially if it is raining, which has been known to happen in Houston.

If this roadblock is really necessary as a permanent fix-ure, an alternative route for formerly cross-campus traffic would be helpful. For example, if one of the entrances on the campus side of the stadium parking area were permanently opened on Rice Boulevard, travel from off-campus parking areas to the gym would be materially simplified. The final solution of the roadblock problem can best be achieved by the proper committee of the Student Council working with the Administration and not by spontaneous volunteer effort.

Support TISA
Six years ago when it ratified its constitution, Rice became an integral part of the Texas Intercollegiate Student Association. During the six years, Rice has remained active in the organization, and yet many Rice students are not aware of their membership in this organization, or that the resolutions passed by this group are supposed to represent their views.

This year, it is especially appropriate that Rice students make an effort to support the TISA. For Lou Israel, the second Rice man to be elected president in the brief six years of TISA's existence, it is especially appropriate that Rice students and faculty support the TISA, for Lou Israel, the secretary in 1958, was elected to the second TISA presidency.

Parking Improved
Well, they did it! For years students have been yelling in the Thresher that the parking facilities on campus were not adequate. However, there is no longer room for complaint, for a new parking lot has been built at a cost of over $300,000 to provide facilities for over 2000 cars. We take this opportunity to thank the administration for the lot, and at the same time urge the student body to make use of this new facility and observe the new parking regulations which have been issued.

NEWS FROM OTHER SCHOOLS

Chapman, Calif. — (L.F.) — The last three weeks of each semester are pretty quiet affairs at Pomona College beginning with the 1954-55 academic year. Dr. F. Ray McLeod, dean of the faculty, announces that the faculty has approved a three-week reading period for upper division courses at the end of each semester.

Participation will be at the option of the instructor, who may, if he desires, call up to three class meetings during the period. All regular course assignments such as term papers must be submitted by students before the period begins.

Students are being urged to re-organize extra-curricular activities in such a way that the period will not be kept free of social and other non-academic events.

"Students have frequently suggested that they do not have sufficient opportunity to do uninterrupted reading when they would profit most by it," Dr. McLeod said. "After lectures and class discussions have opened up significant problems, and provided a method of approach to a field, it is felt that it would be profitable to have time for independent study and reflection to cover a considerable amount of material in an independent way and round out the work of a semester."
Automobile Use Regulations 1954-55

1. REGISTRATION
a. All automobiles that are to be parked on or customarily driven on the campus must be registered, which is free, and must be a maroon parking sticker, which costs $1.00. These sls-3-ters are issued during academic registration and will also be available at the Dean of Students, Second Floor, Lovett Hall.

2. OPERATION
a. Cars must be driven at moderate speeds on campus roads.

3. PARKING
a. Cars must be parked in the parking lots provided and not on campus roads—NO EXCEPTIONS.

b. Dormitory residents will be found special stickers and must park only in the dormitory lot which is reserved for them.

c. Only students and faculty members must park only in the Lovett Hall, Physics, and Chemistry parking lots and in the new parking lot adjacent to the Rice Blvd. entrance, which are reserved for them.

d. Visitors parking has been provided in selected areas and are marked. Respect these areas so that our visitors may think well of us.

4. ENFORCEMENT
a. These regulations are maintained in effect between the hours of 7:00 a.m. and 11:00 p.m. each day.

b. The Provost are responsible for enforcement of these regulations.

c. By request of the Student Council, the Dean of Students levies all fines for driving and parking violations, which are:

   (1) First offense, warning
   (2) Second offense, $1.00
   (3) Third and successive offenses, $5.00
   (4) Racial basis or an unregistered car, $5.00 in addition to above fines.

d. Please take up any questions regarding rules either with the Dean of Students, Second Floor, Lovett Hall.

CONTINUAL VIOLATION OF THESE RULES WILL RESULT IN SUSPENSION OF YOUR CAR REGISTRATION AND OF YOUR PRIVILEGE OF DRIVING AND PARKING ON THE CAMPUS.

Religious Activities For Coming Week

By JONNIE RICHEM

The Religious Activities Committee has announced the following events for students to take part in:

Mothers Day Service
By invited speaker, the Rev. Dr. J. H. Thomson, M.A., Ph.D., English author and Christian journalist. The service will be held in the chapel at 7:30 on Sunday, May 10.

Sunday School for Adults
A program of adult religious education will be held in the chapel at 9:30 on Sunday, May 10. The topic of the evening will be "The Christian View of Marriage." All adults are invited to attend.

 Confirmation Service
A confirmation service will be held in the chapel at 3:00 on Sunday, May 10. The service will be conducted by the Rev. Dr. J. H. Thomson, M.A., Ph.D., and will be attended by all members of the Confirmation Class.

Religious Society Meeting
A meeting of the Religious Society will be held in the chapel at 6:00 on Sunday, May 10. The meeting will be conducted by the Rev. Dr. J. H. Thomson, M.A., Ph.D., and will be attended by all members of the Religious Society.

Monday Night Service
A service of prayer and song will be held in the chapel at 7:30 on Monday, May 11. All members of the congregation are invited to attend.

Tuesday Night Service
A service of prayer and song will be held in the chapel at 7:30 on Tuesday, May 12. All members of the congregation are invited to attend.

Wednesday Night Service
A service of prayer and song will be held in the chapel at 7:30 on Wednesday, May 13. All members of the congregation are invited to attend.

Thursday Night Service
A service of prayer and song will be held in the chapel at 7:30 on Thursday, May 14. All members of the congregation are invited to attend.

Friday Night Service
A service of prayer and song will be held in the chapel at 7:30 on Friday, May 15. All members of the congregation are invited to attend.

Saturday Night Service
A service of prayer and song will be held in the chapel at 7:30 on Saturday, May 16. All members of the congregation are invited to attend.

The Revenge Society
A service of prayer and song will be held in the chapel at 7:30 on Sunday, May 17. All members of the congregation are invited to attend.

The Sunday School for Adults will meet at 9:30 on Sunday, May 10, with the topic, "The Christian View of Marriage." All adults are invited to attend.

The Religious Society Meeting will be held at 6:00 on Monday, May 11. The Rev. Dr. J. H. Thomson, M.A., Ph.D., will conduct the meeting, and all members of the Religious Society are invited to attend.

The Monday Night Service will be held at 7:30 on Monday, May 11. All members of the congregation are invited to attend.

The Tuesday Night Service will be held at 7:30 on Tuesday, May 12. All members of the congregation are invited to attend.

The Wednesday Night Service will be held at 7:30 on Wednesday, May 13. All members of the congregation are invited to attend.

The Thursday Night Service will be held at 7:30 on Thursday, May 14. All members of the congregation are invited to attend.

The Friday Night Service will be held at 7:30 on Friday, May 15. All members of the congregation are invited to attend.

The Saturday Night Service will be held at 7:30 on Saturday, May 16. All members of the congregation are invited to attend.

The Sunday School for Adults will meet at 9:30 on Sunday, May 17, with the topic, "The Christian View of Marriage." All adults are invited to attend.

The Revenge Society Meeting will be held at 6:00 on Monday, May 11. The Rev. Dr. J. H. Thomson, M.A., Ph.D., will conduct the meeting, and all members of the Revenge Society are invited to attend.
MEXICAN SCHOLARSHIPS OFFERED FOR 1955

Scholarships for study in Mexico are open again to residents of the United States. The Mexican government, through the Instituto de Internacional Education, will sponsor the awards.

Requirements for the Mexican Position For Patent Adviser Open In D.C.

The United States Civil Service Commission has announced an examination for Patent Adviser for filling positions in various Federal agencies in Washington, D.C. and vicinity, principally in the Department of the Navy. The salaries range from $4,410 to $5,040 a year.

To qualify, applicants must have at least 3 years of experience in the patent field, since admission to the Examination is limited to those having practical experience in the patent field. There is a maximum age limit of 35 years. The examination is scheduled for March 1, 1956. Closing date for application is November 1, 1955.

The Mexican government awards are for either 6, 9, 12, or 18 months, and will offer to students who are knowledgeable in Spanish, a good academic record, a valid project or purpose, and good health.

The five undergraduate and eleven graduate scholarships are expected to cover tuition and full maintenance. Applicants should have other funds for incidental expenses and travel costs.

Recommended fields for graduate study or research are architecture, Indian and physical anthropology, ethnology, archaeology, museography, painting, and local medicine, biological sciences, and Mexican history. Suggested undergraduate fields of study are architecture, languages and literature. Applicants with specific previous experience may take Mexican history, ethnology, archaeology, and physical anthropology.

Applicants may write for information to the Instituto de Internaciona/ Education which is administering the awards for study in Mexico.

Seven Rice students found interesting jobs this summer at Aberdeen Proving Ground, Maryland. This research center is near Baltimore and almost 2000 miles from Rice.

Charles Reed, an engineering student, worked in the Arms and Ammunition Division of Development and Proof Services. His work brought him in contact with the nations latest weapons and included making erosion tests on gun barrels, arranging the firing of weapons, and collecting and evaluating data.

Working in the Ordnance Corps's famous Ballistic Research Laboratories were Nicholas Brown, who worked on weapons systems; Ronald K. Swenson, who worked in the Internal Ballistics Lab; and Ed Caple, who worked at the wind tunnel where the characteristics of projectiles in flight are studied.

Applicants may write for information to the Instituto de Internacional Education which is administering the awards for study in Mexico.
Student Ticket Information

General Information

Guest tickets for home games, and student and guest tickets for away games, will be available at, and only at, the Student Ticket Window on the east side of the Gymnasium main entrance.

The ticket window will be open from 9:00 a.m. to 5:00 p.m. on weekdays and from 9:00 a.m. to 12 noon Saturday.

No tickets will be sold unless properly prepared blanket tax cards are presented; students are reminded that blanket tax cards are non-transferable and must be presented when used.

As before, all guest tickets will be mutilated upon sale, and the holders thereof must present themselves with a blanket tax holder is guaranteed the privilege of purchasing two (2) guest tickets for each game.

During the remaining period of sale for each game, each blanket tax holder may still be allowed to purchase two (2) guest tickets, or the Athletic Association with the consent of the Dean of Students may reduce the ration to one (1) guest ticket per blanket tax holder if necessary and extend the available supply more equally to all. The privilege of purchasing two (2) guest tickets will be extended as far as possible.

The holders of guest tickets will be allowed to sit anywhere in the student sections without regard to ticket designation; it will thus be possible for a student and his guest to sit together.

Away Games

Guest tickets for all away games except the Texas game will be available continuously beginning September 14, Tuesday and continuing through the Saturday preceding the week of the game; e.g. for the A&M game on November 6, Saturday.

One (1) guest ticket per blanket tax holder will be available for all away games.

Since all tickets are for reserved seats, in order to sit with his guest at games away from home, the blanket tax holder must obtain his ticket and his guest ticket at the same time.

Business Manager of Athletics Associate Dean for Students
By J. FRED DUCKETT

With World Series time here again, the pre-season baseball picture are all created by good cornermen as the Cleveland Indians and more especially the New York Giants are the two teams that took the 1954 pennants in their respective league.

No one gave Leo Durocher’s team a chance to take the flag in the National League, and most prognosticators placed the perennial champion N.Y. Yankees to repeat for their sixth straight year. However, the extraordinary pitching of the Brooklyn players coupled with the offensive attack of the Yankee stars enabled the three-time winning place Indians to take the American League lead in June and remain there while setting a new record for victories with 111 wins in 156 games for the season.

New York, a Cinderella team for the second time in four years was generally allocated fifth place or fourth place, but the addition of Ken Antonelli, the major league’s outstanding left-hander this year, and the return of the phenomenal Willie Mays has given the Polo Grounds a lift into the pennant. The aging Dodgers and the injury-ridden Milwaukee Braves couldn’t win the “big” ones, as New York led the pack for three-fourths of the season.

The Series should see the Indians take the lead with the return of the phenomenal Mays and the addition of Ken Antonelli, the new advanced Shakespeare teacher.

No one gave Leo Durocher’s team a chance to take the flag in the National League, and most prognosticators placed the perennial champion N.Y. Yankees to repeat for their sixth straight year. However, the extraordinary pitching of the Brooklyn players coupled with the offensive attack of the Yankee stars enabled the three-time winning place Indians to take the American League lead in June and remain there while setting a new record for victories with 111 wins in 156 games for the season.

New York, a Cinderella team for the second time in four years was generally allocated fifth place or fourth place, but the addition of Ken Antonelli, the major league’s outstanding left-hander this year, and the return of the phenomenal Willie Mays has given the Polo Grounds a lift into the pennant. The aging Dodgers and the injury-ridden Milwaukee Braves couldn’t win the “big” ones, as New York led the pack for three-fourths of the season.

The Series should see the Indians take the lead with the return of the phenomenal Mays and the addition of Ken Antonelli, the new advanced Shakespeare teacher.
