Preference Cards Being Signed For Colleges Opening in March

Masters Answer Forum Questions on Colleges

By Don Payne

Almost 400 students and faculty members packed the Physics Amphitheater for the Forum meeting last Monday night to hear the Masters of the four men's residential colleges answer questions about the procedure for the establishment of the Colleges in the Spring.

Dean McBrine, the moderator for the panel, was introduced by Jim Hodges, Chairman of the Forum Committee. In turn Dean McBrine introduced the Masters: Master William H. Masterson of Heman Hall, Master Carl R. Wisherman of Baker College, Master James S. Fulton of Rice College, and newly-appointed Master Roy V. Talmage of Wiesse College. Dr. Talmage refrained from answering questions since he had been appointed only three hours before the meeting.

Questions Answered

The three other Masters took turns answering the questions from the audience; and when their knowledge was insufficient, as many times it was, Dean McBrine answered for them.

Several of the most important questions, which all students might want to know, are listed below:

1. How many women are we going to have on the Rice campus to offset the five men's colleges?

2. Will your present residence buildings be retained on which College you will be at?

3. Who will decide the room assignments in the Colleges?

4. Are the Constitutions of the four colleges going to be the same?

5. Are the Colleges going to have any bearing on which College assignments in the Colleges?

6. Will Rice College be the first to be established on the res- toring plan, followed by Hanham, Wiesse, and Baker in that order.

7. How are the assignments going to be made?

The following twenty seniors have been nominated: Bob Bowlin, George Brightwell, Hank Cause, Coors, Bob Fri, Bill Fulkerson, Dori Winne, Rita Miller, Joyce Hooper, L. A. Dandy, Claire Paden, and Sandy Brown. Mr. McBrine, chairman of the Honor Council, announced that ten from this group are to be selected by lot. It is hoped that the selection of these students will be announced on the present construction schedule, it is expected that the men's colleges will be established in rotation during the month of March.

A procedure for the assigning of members to each college has been adopted:

1. Each student must fill out a preference card on which he may state his college he prefers or he may state a group of three of his friends he would like to be with in an unspecified college. If a student is a member of a group of his friends, he will not necessarily live in the same room with them. It is hoped that students will include some of their resident friends in this selection.

2. Students having no preference are to be placed in

3. The cards must be placed in

Singer Snubs Rice; 10 Beauties Picked By Dick Gottlieb

Rice's 10 beauties for 1957 were chosen Friday, February 1, by Houston radio announces Dick Gottlieb. The 10, whose names will be announced in the 1957 Campanile, are Sandy Schatz, Sammie Kehl, At- lice Carmichael, Peggy Phily, Doris Winne, Rita Miller, Joyce Hooper, L. A. Dandy, Claire Paden, and Sandy Brown.

Mayor Roy Mitchell was scheduled to select 10 from the 28 finalists at Cohen House Friday afternoon, but his appearance was cancelled.

Preference cards being signed for colleges opening in March.
THE TBRESHER
FRIDAY, FEBRUARY 8, 1957

**Tryouts Feb. 12 For Shakespeare Parts**

The Rice Players will present a reading of a translation of Oedipus Tyrannos by Sir John Sheppard, who was a member of the Rice faculty last semester, on March 17. Jim Bernhard, the director, has not yet announced his cast. Presentations at the same time will be the one-set play that wins the contest the Players are sponsoring.

The Players will hold tryouts for their annual production of Shakespeare, a major event of the Rice year, next Tuesday in 110 Anderson Hall at 7:00 P.M. The play to be presented this year on April 28 is Merchant of Venice; all those interested in taking part or helping in the production are urged to see Helen Morris, Tom Moore, Jim Bernhard, or Mr. March.

**Joint Guidance Committee Set**

Due to the arguments in the past concerning freshman guidance, a joint sub-committee of the Student Association and the Student Activities Committee has been set up. This committee consists of 13 members, six from each of the organizations mentioned above, and the chairman is not a member of either group.

The chairman of the committee is Burton McMurray. These representing the Student Activities Committee are professors Guy Johnson, Nina Nilsson, Harold Borach, Eva Sahlburg, Rex Martin, and Ted Richardson. Representing the Student Association are Bob Griffin, Wes Pittman, Pete Huff, Nancy Head, Don Caddie, Jack Warther.

The committee will interview Senior Engineers on a wide range of opportunities with major manufacturer of compressors, pumps, engines, blowers, vacuum equipment, power tools and rock drills.

**Ingensoll-Rand will interview Senior Engineers on FEBRUARY 25**

Sign up at your Placement Office. Wide range of opportunities with major manufacturer of compressors, pumps, engines, blowers, vacuum equipment, power tools and rock drills.

**'Bus Stop' Spotlights Good Performances**

By HELLEN MORRIS

The Playhouse is now presenting William Inge's Bus Stop. On an icy winter night the passengers of a bus get snowed in at the "Bus Stop," which is Grace's Coffee Shop. The atmosphere becomes as turbulent inside the shop as it is outside. In Grace's Coffee Shop, the atmosphere becomes as turbulent inside the shop as it is outside. Bo, a wealthy cowboy, tries to kidnap Cherie, a chanteuse, played by Janet Melville. (Miss Melville has become the playhouse's Marilyn Monroe.)

An eccentric, Dr. Gerald Lyon, quotes Shakespeare in one breath, and whispers words of love to a naive high school girl in the next. The bus driver gets involved with Grace. The Sheriff (Dick Eason) attempts to maintain peace. Two performances deserve mention. Janet Melville is a fine Cherie. She is physically adapted to the role. She manages to be convincingly unintelligent, sweet, vain, and "at heart."

Keith Kirby as Dr. Lyman also manages to be "at heart." His eloquence is suitably humorous, and complimented with good electrical effects. The rest of the cast is adequate. Their effort is obvious and commendable.

**The Contemporary Arts Museum is displaying the works of Odilon Redon (1840-1916), Paul Klee (1879-1940), and William Baziotes (1912-). These artists have all been selected because each is a unique figure in his generation, and together their lives span the whole development of modern art. Each artist has sought to open his preconscious mind to the spectator. Some of the more memorable paintings are Prismatic Landscape by Baziotes, Organization and Psychogeneic Head by Klee, and Centaur with Violoncello by Redon.**

**The CAA giving an evening of poetry reading...**

"A View from the Bridge" by Arthur Miller, one of the Alley last Tuesday. This should be an excellent production, one of the best of the year.

**LA TRAVIATA Tonight!**

The last performance of the Houston Civic Opera — an exciting ending for their successful second season. Tickets may still be available in the balcony.

LYNCHSTRATA tomorrow and Sunday nights at the Music Hall... "Aristophanes' racier comedy..." Caroline Richter... Classicalism is in.

**Marine Officer To Be On Campus**

The United States Marine Corps Officer Procurement Team, headed by First Lieutenant Charles E. Thompson, will be on the Rice Institute campus, Wednesday and Thursday, February 13th and 14th.

Students interested in receiving a commission in the Marine Corps Reserve or obtaining information on their present military obligations should contact this team while it is on the campus. The team may be contacted in the Rice Rotc on either of the above dates.

**Engineer Officer Installation Feb. 12**

The Engineering Society will meet Tuesday, Feb. 12 at 7:30 p.m. in 118 Anderson. Members will see a film and a short business meeting will follow. Second semester officers will begin their term of office then. They are: President, Tom Welch; Vice President, Bob Wilbanks; Sergeant, Bill Ballard.

College Leads To Be

Elected By Students

BY DON PAYNE

This is the third in a series of articles to assist students in

understanding the College Constitution.

One of the most important factors studied by the Committee on Student Housing was the lack of student participation in government on the Campus. Therefore, the committee formulated a system of government for the Colleges which would include an on-campus student participation with needed faculty supervision.

Much of the following information was taken from the proposed model Constitution for the Colleges.

Officers Of Colleges

The officers of the College will be President, Vice-President, Secretary, Treasurer, and Councilman. The President and the Vice-President will be elected from the incoming junior class. The Secretary and Treasurer may be elected from any Residence Hall, but the Councilman will be elected from the incoming junior and sophomore classes. The President and the Councilman will represent the College at the meetings of the Student Council.

The officers of the College must be resident members of the College during their term of office, but may be non-resident members when elected. The elections will be held in the Spring after the Student Council has met.

College Cabinet

In order to have a representative vote from all the classes in the Government of the Colleges, a College Cabinet will be established for each governing body of the College.

The Cabinet shall consist of the officers of the College, 5 representatives from each of the Sophomore, Junior, and Senior Classes; and Master and one resident faculty associate.

The Cabinet will regulate and legislate on all College business.

It will supervise in room assignments, dining hall procedures, and social and athletic events. In some cases it will act as a disciplinary court.

The Colleges will hold regular meetings at which all members of the College must be present. There will be at least five of these meetings during the year.

Cabinet Meetings

The College Cabinet will meet at least twice monthly at times designated by the president of the College.

There will be a membership fee in the Colleges which will be used for maintaining the expenses of the College. The amount of this fee will be designated by the Administration.

This is the last in the series of articles on the College System.
In This, The Total Given

by WESLEY NIGHT

In the total given, I pre-

vailed,

Downward upon the slope I ran-

Chased the winds and rain,

The many portions of; It seemed to go

In the beginning there were sun

and flowers,

Moving blossoms. And drifting

harves.

And sleeping; and then quick

waking

Less ebbing leaves, bare trees,

And their sudden darting, and sun

again, the cold...

But when I seemed beginning

Altered as I passed it times again

I do not know: I passed there many

times.

I am that change that alters, I believe.

I think I am a climate which has

no name.

The seasons total in new portions.

Every drop on this slipping Given,

Locked down this Given, I once,

there was a vast uninteresting

Down to a greying darkness.

More readily to the moment. But the

same

Passages forward through the flowers

and cold

Inform me of my changing, and

brought nearer

The deep incline distance. And it

seemed to

My end and I would meet some-

where.

The vallied shadows of that inner

down,

And, too, I should have no

sense to make

What I would with my changing, and

brought nearer

Would contrast to the godness of

time.

The silveryness of dream, the pale

of loom.

(And colorings between them)

where we are.

In all the families and that wait-

ing and

should not to know to know the way it is

With one's position downward through

Given.

Origin Of Institute Is

Primordial

by ED SUMMERS

This is a story of how the William Rice Institute was

born and how it acquired its title of the Rice Institute.

The Institute, for which the Rice Institute now stands,

has had several names, and the names of the people

who had a part in the planting of the institution will

be given. The story will be told of the institution of the

William Rice Institute.

The story of the founding of the Rice Institute is a

story of splendid generosity. It is a story of how

the people of Houston and the people of the state of

Texas supported the idea of an educational institution

in the state. It is a story of how the people of Texas

supported the idea.

The story of the founding of the Rice Institute is a

story of how the people of Houston and the people of

the state of Texas supported the idea of an educational

institution in the state. It is a story of how the people

of Texas supported the idea.

- Danger To Constitution
- Underlying the action, as Wes Fittrain brought out, was the danger of the administration stripping the council of its authority to determine the constitution of the system—"crushing student morale" and possibly "a bad taste" in their minds concerning the colleges.

Steve Shapiro spoke out strongly against the administration striking out a clause of the constitution, "just at their own will" and without notifying any students of their decision to do so.

"We're just puppets now," the whole action is completely crude," Bob Fri—"We've been stopped on, so let's scream!"

George Griffin—We're wondering again if we have any power.

Propose Yearbook

DELIVERY NEXT FALL

The Student Council approved Wednesday night the fall delivery of the Campanile. The Campanile, formerly one of the few Southwestern Yearbooks still issued in May, will now be mailed to the graduating seniors and picked up by the other students at registration in the fall.

The advantages to the students are a broader coverage of an entire year's events. The early summer will now be the deadline for the copy giving time for fall coverage of Rodeo, the coming of the fall football team, the last spring sports (baseball, tennis and track) and all the Senior Functions. Senior weekend, the Prom, Bar and Graduation.

A discount can be obtained from the printer to apply to the postage and other uses designated by the Student Council. This discount is given because the printers prefer summer printing due to the heavy activity of the local schools and particularly in a rush in the late spring.

National YR-Head To Visit at Rice

The YR State Federation of Texas has extended an invitation to all YRS Texas Republics to attend the reception and buffet-dinner in honor of Charles McWhorter, National Chairman of the Young Republicans, on Saturday, February 4, 7:00 pm until 7:15 pm.

The reception will take place at the Republican County Headquarters at 4019 Montrose and will be followed immediately by the buffet-dinner.

The reception is one of nine being held throughout Texas during the second and third weeks of February in conjunction with the Benenitarian campaign of Republican Thad Huthson and Lincoln Day Celebrations.

McWhorter will tour Texas with Hutcherson and in addition to speaking engagements will review Republican college organizational activities. McWhorter is a graduate of Harvard Law School and is now associated with Donovan, Lefuer, Newton, & Irvine of New York City.

The contest is conducted by the National Knitted Outerwear Foundation in coordination with the City of Asbury Park.
REW Speaker Is Noted Theologian

Mr. Joseph Sittler will be the feature speaker at the biennial Religious Emphasis services held on the Rice campus from February 25 to 27. A native of Ohio, Mr. Sittler has been Professor of Systematic Theology at Chicago Lutheran Theological Seminary since 1943. He is a graduate of Wittenberg College, Springfield, Ohio, 1927; Hamma Divinity School, Springfield, Ohio, 1930; Wagner College, Staten Island, New York, 1948, and received his LL.D. from Wittenberg College, Springfield, Ohio, 1956. He has done graduate work at Oberlin, University of Chicago, Western Reserve, and the University of Heidelberg. In 1948 Mr. Sittler wrote DOCTRINE OF THE WORD.

Group Proposes Guidance Changes

The president and vice-president of the sophomore class should be chosen from different lists of the two literary societies, the two leaders of any one section then occupying a position of leadership. Group action leaders should be appointed to advise and assist in the selection of new leaders. No persons on scholastic or disciplinary probation should be allowed to occupy a position of leadership. Grad section leaders should be chosen from different literary societies, the two leaders of each being from different lists. The president and vice-president of the sophomore class.

At its closing meeting, January 12th, the Freshman Guidance Advisory Committee passed the following recommendations:

1. Emphasis should be placed on bringing the freshmen boys and girls together for more of their activities. This could be done through week night parties for freshmen only, combined decoration of goal posts, and homecoming projects. It was recommended that the class be introduced to the various campus student organizations.

2. Guidance leaders should be chosen more carefully. The insecure college committee should share in the choosing. Ex-section leaders should be appointed to advise and assist in the selection of new leaders. No persons on scholastic or disciplinary probation should be allowed to occupy a position of leadership. Group action leaders should be chosen from different literary societies, the two leaders of each being from different lists. The president and vice-president of the sophomore class.

Engineers Give $50 To Help Hungarians

The Rice Engineering Society has contributed $50.00 to the "Help for Hungary" fund. This contribution brings the total contributions being given to the Red Cross Hungarian Relief to $1,200.61. All the contributions are given to the Red Cross Hungarian Relief.
Dr. McKillop Back From England Tour

Dr. A. D. McKillop, head of the English Department at Rice, has returned from an extended visit abroad. Remarking to collect and edit the letters of the 18th century Scottish poet James Thomson, especially noted as the century Scottish poet James returned from an extended visit English Department at Rice, has at Edinburg, and the Bodleian Library.

John Sheppard, who lectured in university of Edinburg library, both August for a meeting of English McKillop spent most of his time doing research on the Continent he was able to tour Spain, the only spot on McKillop says he made satisfactory progress on his work abroad.

SAME Chapter Organizes Here

Mr. Lywood J. Kneible announced today that a meeting will be held at 7:00 p.m., February 15, in the Army ROTC Assembly room for the purpose of organizing a Student Post of the Society of American Military Engineers.

Eligibility for membership in the Society extends to all male undergraduates and Class "B" graduates enrolled in engineering courses or Navy or Army ROTC; and to any Army Officer, Reserve or Regular, who is interested in military engineering.

Objects of the Society are in the interests of National Defense, to advance knowledge of the science of military engineering and to promote efficiency in the military service of the United States. Mr. Kneible also invited members and applicants for membership to sign the charter application at this meeting. I often pause and wonder At far's peculiar ways For nearly all our famous men Were born on holidays.

Your Future with Humble

To carry on its dynamic program of exploration, development and growth, Humble Oil & Refining Company needs:

- men whose specialty is the geological and geophysical study of the earth's subsurface
- men to drill exploratory and development wells
- men to make the intricate calculations on which oil production is based
- men for its refining and petrochemical manufacturing
- men to staff its research laboratories

If your specialty is engineering, geology, geophysics, chemistry, mathematics or oceanography, there is a bright future ahead for you with Humble.

You will have opportunities for professional progress. You will also have assurance of job security and insurance and retirement benefits that are second to none. And your pay will be good.

Humble interviewing teams will be on the campus on February 12, 1957. Be sure to check with your Placement Bureau for the exact time and place so you can discuss job opportunities; or write directly to:

Head of Personnel
Humble Oil & Refining Company
P. O. Box 1980
Houston 1, Texas

QUICK FACTS ABOUT THE HUMBLE COMPANY

Humble leads in production of crude oil in the U. S. Humble's Baytown refinery is one of the largest in the world. Humble's Research Centers at Houston and Baytown are known for their contributions to the petroleum industry.

Humble Pipeline Company operates one of the largest pipeline systems in the U. S.

ENGINEER CONVENE AT RICE

With the Rice Institute as host, over 150 delegates from some 50 colleges and universities throughout the nation assembled in Houston from January 20 through February 2 for the Annual Midwinter Meeting of the Engineering Drawing Division of the American Society for Engineering Education.

This was the second time that the annual meeting has been held in Texas, having met at Texas A. & M. College in 1951.

While registration was at the Shamrock Hilton Hotel, all of the meetings were held on the Rice campus.

Banquet in Commons At its annual banquet held in the Rice Commons, Dr. E. F. Lassiter, head of Geology at Rice delivered the address on "Science Across America in Colored Pages from Other towns who delivered papers or gave lectures were: W. F. L. Bissell, Humble Oil and Refining Company; J. R. Beautiful, Associate Engineer, Civil Engineering, Rice Institute; Dr. W. V. Houston, President of Rice welcomed the delegates at the opening session.

The Chairman of the Engineering Drawing Division is L. L. Hill of Illinois Institute of Technology and the chairman for local arrangements is Mr. A. P. Service, Associate Head of the Department of Engineering Drawing at Rice.

GUIDANCE...

(Continued from Page 9) should have the power of nomination.

Athletes Included

3. "A gentleman should be integrated with the other freshmen in an overall guidance program.

4. The ex-sophomore president should write a report as an aid to the incoming freshmen president so that unhesitating presidents are instituted. The ex-sophomore president should have the privilege of clearing the lounge and assuming the student body presidency on the ICC and the new president should report to this committee periodically.

Activities

5. "Concerning the activities: freshmen should be encouraged to visit the upperclassmen, and as well as fellows and professors for tutoring. The girls should be allowed to attend the freshman pole, but not participate in it. The slime parade should continue but with definite restrictions. Punishment for the girls might include cleaning the lounge and assuming the campus only.

Some discussion was held concerning the maintaining or elimination of browning, but no final decision was made and the question was left up to the preceding committees.

A. "After unanimously passing these recommendations, the committee recommended that they be dissolved.

MELODRAMA...

(Continued from Page 9) was written by EB junior Alice Cor- wees. The play is described as "That yellow Campanile book mark" Paul Cochran, an ex-Riceite. Needless to say, it was hilariously well-calculated to appeal to all factions of Rice students and the audience. The production, directed by Corinna Carse, was presented February 22 at 8:00 in the Prudential Auditorium. In KB tradition, the cast will not be announced until the week of production.

It may be added that this year's melodrama is not actually a melodrama; that is, the girls doesn't include the typical villain, hero, etc. The EB's believe that this year's melodrama should have the power of enjoying and interesting even than their many successful productions of past years.

Germany Offers
50 Study Grants

Competition is open for over 60 awards for study in Germany during 1957-58. It was announced by the Institute of International Education, 1 East 67th Street, New York City.

30 awards are offered by the Federal Republic of Germany.
March 1, 1957, is the closing date for applications.

The Federal Republic of Germany Fellowships provide 300 EM monthly for nine months beginning November 1, and round-trip travel to New York.

Austria Sets Up 4 Scholarships

Four scholarships for graduate study in Austria during 1957-58 are offered to American students by the Austrian government, it was announced by the Institute of International Education, New York City.

March 1, 1957 is the closing date for the competition, which offers the following advantages:

Swiss Graduate Grants Offered

Opportunities for American students to study in Switzerland during 1957-58 have been made available by Swiss universities and societies and the American-Swiss Foundation for Scientific Exchange.

Applications are open to men and women, preferably under 30 years of age.

Summer School Set at Sun Valley

Summer school at Sun Valley, Idaho, will last year only a summer.

The Red Inn' Set for Showing

Les Hiboux is presenting the movie "The Red Inn," starring Fernandel at 7:30 p.m. and 9:15 p.m. on Saturday, February 12. The movie will be shown at his home in the French Alps. Fernandel was troubled by warts on his neck, which were removed by a French doctor.
Sen. Fulbright Proposes College Students Aid Bill

Mr. President, I introduce, for appropriate reference, two bills which I consider vital to the development of our educational institutions, and to the general educational standards of our country.

The first bill would allow an additional income tax exemption for a taxpayer or a spouse, or a dependent child under twenty-three years of age, who is a full-time student at an educational institution above the secondary level. The exemption may be claimed by the taxpayer himself, or on account of a spouse or a dependent child under the age of 23, who is in attendance on a full-time basis at an educational institution above the secondary level.

**Expenses Deducted**

The second bill would allow a taxpayer, who is a student in an institution of higher learning, to deduct expenses for books, tuition, fees, and other supplies necessary to the courses of instruction in which he is enrolled. This bill is primarily designed to assist those students who work their way through school, and it would apply to both full-time and part-time students, whether self-supporting or dependent on outside sources.

Last April, I introduced these bills but was unable to obtain action on them before the adjournment. Since I have been a member of the Congress, I have supported the principle that it is the duty of the Federal Government to aid in establishing and improving the educational facilities and institutions of this country. These bills are merely another manner of providing an avenue for our students toward the goals they seek through adequate educational opportunities. Because I am convinced that the problem of improving our educational system is one of the most pressing of our time, I am once again introducing the bills in the hope the Congress will act on them during this session.

The **Inflation Cap**

The continually rising cost of a college education, of course, worry, but I believe it reasonable to estimate the average cost at $1,200 per year, or roughly $5,000 for a 4-year college education. The cost of the more expensive schools often obtains much more than this, and yet the parent, or the individual taxpayer, receives only a $600 a year personal exemption. Consequently, there is no incentive provided in our tax laws for one to pursue an educational goal.

**Deterioration in Education**

Deterioration in Education has been for decades a continual and serious deterioration in the general quality of our education. More recently, we have read and heard much about the mounting difficulties of training engineers and scientists in the United States. It is interesting to note that Universities and technical institutions in the Soviet Union produce twice as many electrical engineers in numbers some two and a half times greater than are similar institutions in the United States where we are now training only one-half the required number of engineers and scientists. In the decade 1960-1965, the Soviet Union is expected to produce 1,200,000 trained engineers and scientists as compared to our 600,000. In addition to the number of engineers alone, the Soviets have multiplied the number fourfold since 1945, when records show they had 41,000 engineers.

This situation is all the more critical because of the demands not only of industry, but of national security.

**Encourage Education**

As I said a moment ago, I feel strongly that to encourage the education of our young people is in the national interest. In this period of competitive existence with the Soviets, the task of insuring that every youth in our land is aided in achieving his highest potential intellectual growth is a formidable one. This task arises not alone from the military situation posed by Russia, but also from the reality of the rapidly spiraling scientific revolution.

The great emphasis which is being placed on the training of scientists, technicians, and engineers is a challenge which cannot be ignored by the Western World. These bills will provide some incentive to the students and parents to meet and accept this challenge.

In addition to these considerations, public and private educational institutions face a present crisis in the area of future education. Following training, you will enter development and design engineering in electronics, radar, computers, missile electronics. For manufacturing engineers, there are positions in quality material or production control, test equipment design, manufacture of electron tubes, semiconductor components or television.

**Specialized training program**

Earn a regular professional engineering salary as you work on a carefully selected assignment giving you a comprehensive view of RCA engineering. Your individual interests are considered and you have every chance for permanent assignment in the area of your preference. Your work gets careful review under RCA's management in all fields of electronics, computers, missile electronics. For manufacturing engineers, there are positions in quality material or production control, test equipment design, manufacture of electron tubes, semiconductor components or television.

**Direct hire**

If you are qualified by experience or advanced education, your interest may point to a direct assignment. The RCA management representative will be glad to help you. Many fields are open: from research systems, design and development to manufacturing engineering in television and missile electronics, as well as radar, electron tubes, computers, and many other challenging fields.

... and you advance*

Small engineering groups mean recognition for initiative and ability, enabling you to advance that professional as well as financial, RCA further helps your development through adequate compensation, graduate study under a liberal tuition refund plan.

TCU Invades Autry Court Saturday Eve

Texas Christian's Horned Frogs, the only team other than the SMU to defeat Rice so far in NCAA basketball play, invade Autry Court Saturday night as the Owls begin the second half of their development.

The Blue took two of their last three games before the three-week layoff for finals. They defeated Texas 74-64 and Baylor 72-62 while losing 47-59 to SMU.

These games were notable for soppy Gary Griffin's sudden improvement and junior forward King Hill's return to form.

Special NOTE: Cheley Colorado Camps, Estes Park, Colo. - Mr. J. A. Cheley will be in Houston the night of Feb. 11 and will interview students interested in summer camp counseling jobs. Contact Mr. Cheley at the Ben Milam Hotel.

The State Department Offers Paid Jobs

South America, Africa, Europe, Asia . . . the world . . . that's what the Personnel Officer of the United States Department of State will be talking about in Houston. Misses Edwina Gull and Marion Robertson are here to interview stenographers, typists, and clerks for positions in Washington, D.C., and in this country's 268 Embassies, Legations and Consulates, in 77 countries abroad.

Interviews will be conducted at the Texas State Employment Office, 3016 South Main, Houston, from Feb. 11 through 15. Office hours are from 9 A.M. to 4:30 P.M. daily; and until 7 P.M. on Wednesday, Feb. 13.

These Personnel Officers are interested in talking to young men and women between the ages of 21 and 35, American citizens in good health, single without dependents and who are high school graduates willing to be assigned anywhere in the world.

General clerks must type at the rate of 50 words per minute, stenographers also at 50 words per minute and take shorthand at 50 words per minute.

General clerks must type at least 35 words per minute and communication clerks at 45 words per minute. All must have at least three years of general office experience.

Starting salary for all positions is $2500, plus allowances and free housing or a housing allowance abroad.

Basketball Action
Action in basketball has been hot and heavy past month, especially worthy of note was Rice's victory over Texas at Gregory Gym in a game that saw the Jayhawks get rich. This contest had an important aftermath in that it served to a large extent to give the Cougars for their upset of SMU. The rematch, one of the heart Texas student body cheered every point made in the game. The night for this to happen is February 23, when the Owls play Rice here.

Two small boys were talking on their way home from school.

First: Do you believe in the devil?

Second: Of course not. It's just like Santa Claus. It's your father.

Rice's victory over Texas at Gregory Gym pool. The Florida 200 back. The diving of B. B. Wardlaw in the 200-yd fly with a 5:38.7. The insertion of Gary Griffin at forward provides the outside shooting, rebounding combination that	

Midgets Come Out On Top In Cage Bout

BY JERRY FITTAM

The championship basketball team has been determined several weeks ago. The Midgets took the crown by beating the Holy Rollers 49-48.

The Midgets' high scoring men were Val Tucker with 16 and Nicky Nichols with 14. The high point men for the Holy Rollers were Bob Leffingwell, Jerry Halil, and Clayton with 17, 14, and 13. The game was a close jammer all the way. The lead changed considerably. At the half time the Midgets enjoyed the widest margin of the game after they hit a hot streak and led 27-20. The Holy's came right back and had the lead 38-36 as the third quarter came.

Handball Champ

The Handball Singles Champions are Larry Fugrow who racked up 5 victories and suffered no defeats.

Table Tennis

In Table Tennis the doubles champs are Gus Cenoura and Don Carrider. They romped over Buggett and Cutler 21-10, 21-18 and Miller and Goo 21-4, 21-18.

The Table Tennis Singles and Novice Handball Singles are in the process of playing off in single elimination to determine the champions. Local matches as soon as possible and usual matches are urged to play your matches as soon as possible and take part in the results of the P.E. office.

Rice Fishmen Sunk by Florida State

The Rice Institute held its first intersectional swimming meet last spring. It was the Owlet 200-yd free style that Tom McKeown of Rice beat the winning varsity time for the event by .5 of a second. Rea beat the winning varsity time for the event by .5 of a second.

Two small boys were talking on their way home from school.

As a lead engineer in Vought's Propulsion Group, Ralph consults on problems like engine accessibility. He supervises development of power, fuel, starting, and cooling systems for supersonic fighters and missiles.

Ralph consults on engine accessibility problems in fighters like the 1,000-plus mph Crusader.

Follow the lead of Ralph Posch, B.M.E., Class of '51.

Advance while you're young...

as a Chance Vought Engineer

Ralph Posch already is making his mark in the aviation world. Ralph is only 31, but he's advanced to lead engineer in a career field he's liked from the start. Ralph's progress was speeded byChance Vought's own growth and by keen company interest in his development. These same career aids are working today for every young engineer who's entered missile and fighter development at Vought. Symposiums on creative engineering, for example, encourage the brand of technical free thinking Ralph has displayed. Company-paid tuition for postgraduate study allows any recent graduate to take immediate steps toward advanced degrees. For an increasing number of junior engineers, Vought offers a nine-month program of job rotation which prepares young men like Ralph for key responsibilities. And in every unit of Vought's engineering sections the young professional is given variety that's both refreshing and broadening. Let our campus representative explain how Chance Vought will do its utmost to help you find and advance in the field that best suits you. Ask your placement office to arrange your appointment, or write directly for immediate information to:

Mr. C. A. Besio, Supervisor, Engineering Personnel Section

CHANCE VOUGHT AIRCRAFT, Incorporated, Dallas, Texas

Our representative will be in your Placement Office Friday, March 1, to describe firsthand Chance Vought's program for young engineers. Reserve time for your own interview by making your appointment today.
