COTTON BOWL!

with noteworthy nationwide success. Coach Shaw will be the next prominent man to go over by the First Dramatic Quadrangle as a reading several years hence. Don Juan, Joan Field as Dona Clara, studied, habits, and preferences of Rice Girls.

(Candidates in the freshman race for president are Chuck Caldwell, Gaylord Johnson Jr., Karl Ludwig, David Rosenberg, Paul Tallington, and Ralph Weis.

Secretary-Treasurer

Running for Secretary-Treasurer are Tom Mayer, Liz Perkins, and Norman Reynolds. Student Council Representative nominees are Judy Cole, Barbara Land, Fred Moss, Valerie Vopat, and Gary Montgomery.

The candidates for all the freshman offices will give campaign speeches Saturday noon in the Chemistry Lecture Hall. The runoff election, if needed, is scheduled for Wednesday, December 11.

Two Candidates

Business manager of the Campanile will be elected from one of the two candidates, Joyce Hooper and Louis Macy.

Four Honor Council amendments are up for vote concerning broadening the general scope of the Honor System. The other proposed changes are merely procedural.

Blanket taxes must be presented in voice and winning places Monday will be at Anderson Hall.

The proposed system changes are explained in full on page 5, and the Green Lecture Hall and students may vote from 8 a.m. to 1 p.m. All students will vote in the general election while freshmen only will select their class officers.

The Bear's victory, coupled with the Aggie loss to Texas Thanksgiving day, gives the Owls undisputed claims to the Southwest Conference title and sends them into the Cotton Bowl against Navy, ranked fifth in the final AP poll.

The Owls were up to eight points ahead of the Aggies and 17 points ahead of the Rice football rankings as a result of two straight wins. The Owls have stood a steady drive, they have been installed as a 1 5 point favorite over Navy in the New Years Day clash.

COTTON BOWL TICKETS WILL GO ON SALE AT GYM DECEMBER 9

Students and guest tickets for the Cotton Bowl game January 1, when Rice plays Navy, will be on sale Monday, December 9, until 5 p.m. Friday, December 13, at the gymnasium ticket office.

Each student may purchase one reserved ticket for $1.50 each. These guest tickets are for reserved seats in the student section.

Engineers Plan Dance for Dec. 7

The Engineer Dance, a strictly non-alcoholic dance, will be held at the Hotel at 8 p.m. December 7. L. G. Morel and his orchestra will provide the music and a good setting for the presentation of Miss Slip-Strip, who will be presented at this dance.

Rice Girls Are Nice:

Poll Results Prove It

By ANN BARTLETT

Well, here it is, boys. The straight poop concerning the dating, habits, and preferences of Rice Girls.

A Date Ball Questionnaire was given to most of the girls at Jones College and here are the results. The questionnaires were not signed and the answers, we believe, can be accepted as true.

When to Ask

The average Rice Girl gels her date for a regular Saturday night about a week ahead of time. Most girls will not accept a date more than two weeks in advance, unless it is for a special occasion, and most will accept a date as late as Thursday for a regular Saturday night. Many will even accept one on Saturday.

Special Events

So far as special occasion go, such as Homecoming, most Rice Girls...

The latest report on Bee 12 shows that the Owls broke the already well-bent back of the Baylor Bears and went on to a 20-0 win. The Bears and the Owls had fought to a standstill in the first half, but Blue lightning struck Rice stadium with...
Physicist Niels Bohr To Speak
At Rice Associates' Banquet

Professor Niels Bohr, one of the world's most distinguished physicists, will speak at the Rice Associates' banquet December 17 in the Wess College Commons. Professor Bohr is Director of the Institute for Theoretical Physics in Copenhagen. During the war he was forced to flee his home and he spent much of the time in the United States working on nuclear energy projects. A few weeks ago he was the first recipient of the newly established "Almos for Peace" award which was presented to him by A dovemont held the twain, Fair dandelion and her ardent swain; Headline:
But then, a footstep on the stair! And father finds them sitting there He, ...and... She.

RICE GIRLS SURVEY...

(Continued from Page 1) girls have four or five a week, many have only one or two per week; and some have none. The majority of Rice Girls do not date boys who do not attend Rice. A very few have one, or perhaps two dates a month with "out-siders."

Blind Dates

Almost every girl at Rice will accept a blind date, She prefers that these be arranged about a week ahead of time, and how late she will accept a blind date is directly proportional to how well she knows the individual who is trying to arrange the date. Eight out of ten girls will not, however, accept one at 7:30 on Saturday night. Most of the girls who said that they would, stipulated that an affirmative answer would be dependent upon the circumstances involved.

Tentative Dates

When queried as to whether or not they made tentative dates when they were just holding out for a better offer, only two admitted that they did. The rest stated that they most emphatically did not do this. NOT EVEN ONE OF THE GIRLS SURVEYED WOULD BREAK A DATE TO TRY SOMETHING BETTER!

The procedure was followed to disregard a boy whose attention was not wanted. Almost all who were questioned chose to drop the boy who said, "Sorry, I'm busy," even if they weren't.

How To Interest Boys

The Jones Girls said that if they were interested in a certain boy and wanted to date him, that they usually sought him out subtly (here they make a mistake—most Rice Guys go around in such a daze that it takes something like a gentle-hammer to nudge them awake), and act friendly and available. Many get a mutual friend to "put in the good word" and perhaps arrange a date. Qualities For Boys

They use the qualities looked for in the boys a Rice Girl enjoys dating.

REYNOLDS' BARTER SHOP 2929 Ambraet In the Village

Rated boys were honesty, sincerity, respect for his data, conscientiousness and thoughtfulness, courtesy, clean language, and good manners. Physical good looks were not even mentioned by most, and usually last by those who did mention them. MOST GIRLS SPECIFIED THAT THEY LIKE THE "HANDS OFF" TYPE. IN NON-AGGRESSIVE. THEY DO NOT LIKE OUTSIDERS. In fact, they DETEST them.

The general consensus of opinion seems to be this. Most Rice Guys seem to base their judgment of a Rice Girl solely upon physical attractiveness. They telephone one of the few real "queens" on the campus and get their feelings hurt because she is not interested. They seem to forget that there are only a very few "kings" on campus too.

Possible...

This is to say that most Rice Guys are prejudiced against Rice Girls. They get misconceptions into their heads, and are not broad-minded enough or honest enough with themselves to change their stupidly stubborn opinions. In consequence:

The Rice Guy then hoists up in his room with his books and his misconceptions and does not even make an honest effort to find out if they might POSSIBLY be wrong. The Jones Girls are especially incensed with the boys' colleges which have more attention given to girls, high sororities over, en masse, to parties.

THE RICE INSTITUTE

Only ONE RICE GIRL HAD ANYTHING GOOD TO SAY FOR RICE GUYS IN THE REMARKS SECTION OF THE QUESTIONNAIRE. We quote her words: "As a whole, Rice boys are outstanding group of intelligent, industrious, interesting people, with two feet on the ground, yet ready for a party and by no means square bears."

**RELATION BETWEEN COLLEGE SYSTEM, STUDENT ASSOCIATION DISCUSSION**

By JIM BERNARD

The position of the Student Association with relation to the College System filled a large part of the Council's discussion at their regular meeting.

Katz was presenting the concept of conflict in the spheres of interest of the ICC and the S.A. The college representatives on the Council were asked to discuss this problem with their colleges and get an opinion.

Coverage of Council meetings by The Thresher was also dis¬

**OVER AT JONES**

The Thresher gets complaints. And, except when they're about us, we're delighted to get them.

One recent gripe has been from Jones College residents who complained that they were beset with invasions of their privacy—inspection tours of their rooms.

We diligently investigated the matter and learned that one of these inspections was for the purpose of removing the mice which the living contractors of additional work needed before the building was completely finished.

These tours were carried on, as far as possible, while the girls were in class, so as not to disturb them.

A request was made to Women, other in¬

spections of a different nature can be expected. The housemothers are authorized to check on storage of food in the rooms—a violation of college rules.

According to Mrs. Mosle, such horrid things as rotten apples, moldy cheese wrapped in waxed paper, and jars of stale peanut butter have been discovered.

These Items are of course nice in their own way, but they attract roaches, ants, and other nasty crawling creatures. Obviously, these animals are undesirable in Jones College and should be kept out by every means possible.

We hope that this information clarifies the pur¬

pose and necessity of periodic and infrequent inspec¬

**THE THRESHER**

**VOTING, HERE AND THERE**

Housston voters englighted the polls Tuesday and proved that the experts who predicted a light vote were wrong.

In addition to freshman officers, Rice voters will determine a Campanile business manager and the fate of four proposed Honor System amendments.

The method of voting, should pass without question.

Speaking of elections, Rice has one next Monday. In addition to freshman officers, Rice voters will determine a Campanile business manager and the fate of four proposed Honor System amendments.

Two of these amendments, which are merely proce¬
dural in giving the colleges respresentation (which seems to be the fad nowadays) and in changing the method of voting, should pass without question.

The other two amendments, which are explained in full by the Honor Council on this page, are more controversial.

As far as we can figure them, they aim at vaguely enlarging the scope of Honor System, with¬

out actually enforcing any new regulations. Basically, they are probably Good Things, and insofar as they

seem harmless, we support them.

**STUDENT PONDERS HONOR SYSTEM**

To The Editor:

Under the amendments proposed would the student be invalid if the student found out how to do it by looking at a friends paper? I say, "Not necessarily." You probably agree.

Should it be a violation to lend a paper? E.g., math, physics, or chem homework problems. I say, "No." Some will say yes, since the lender can't be sure he is not helping the borrower to cheat (copy outright).

By not lending or borrowing papers, both persons will deny themselves and others a method of learning without which a stu¬

dent sometimes never is able to do some of his assignments.

Students should feel free to compare answers. If two stu¬

dent find that reasonable answers, neither is likely to go over his work and find out their answers differ.

I am one of those who would like to see Honor System extend¬

ed to prevent persons from getting credit for homework which they don't even understand be¬

cause it was copied.

—SAM WELD

**Honor System Change Explained**

A great deal of general mis¬

understanding has arisen from the proposed changes in the Honor System constitution. We in¬

itiate this article in hopes of re¬

lieving some apprehension and dispelling some of the fears con¬

cerning the Honor Council's in¬

tentions.

The proposed amendments fall into two groups:

1. Several short changes in wording for purposes listed be¬

low;

2. Two changes involving mem¬

bership, also elaborated upon be¬

low.

The group of wording changes is intended to "streamline" the constitution and help to make it more readable to the Honor System without actual¬

ly specifying further use of the one of the pledge. This last point is especial¬

ly important because it seems to be the root of most of the ob¬

jections. As the constitution stands right now, the clause at the end of the pledge allows an instructor to break the pledge on any piece of work to which it would be appropriate or as he deemed necessary. Therefore, the use of the pledge could not be extended any further except by requiring its use, which is no one's intention and which these amendments are intended to prevent.

In administering the Honor System, the Honor Council is con¬

tinually looking for ways to extend its services and the morale of our community, not re¬

strict it.

In November, 1956, we con¬

ducted a survey of professors. In a written form we studied the resulting report and found, much to our satisfaction (and yours we hope), that the ICC is not nec¬

essary on homework, themes, etc. Particularly we found that it is even desirable because of the benefit gained from community work on group housing.

The other two amendments, which are explained

in full by the Honor Council on this page, are more controversial.

As far as we can figure them, they aim at vaguely enlarging the scope of Honor System, with¬

out actually enforcing any new regulations. Basically, they are probably Good Things, and insofar as they

seem harmless, we support them.

**Food In the Rooms**

We diligently investigated the matter and learned

that one of these inspections was for the purpose of removing the mice which the living contractors of additional work needed before the building was completely finished.

These tours were carried on, as far as possible, while the girls were in class, so as not to disturb them.

A request was made to Women, other in¬

spections of a different nature can be expected. The housemothers are authorized to check on storage of food in the rooms—a violation of college rules.

According to Mrs. Mosle, such horrid things as rotten apples, moldy cheese wrapped in waxed paper, and jars of stale peanut butter have been discovered.

These Items are of course nice in their own way, but they attract roaches, ants, and other nasty crawling creatures. Obviously, these animals are undesirable in Jones College and should be kept out by every means possible.

**Honor System Change Explained**

A great deal of general misunderstanding has arisen from the proposed changes in the Honor System constitution. We initiate this article in hopes of relieving some apprehension and dispelling some of the fears concerning the Honor Council's intentions.

The proposed amendments fall into two groups:

1. Several short changes in wording for purposes listed below;

2. Two changes involving membership, also elaborated upon below.

The group of wording changes is intended to "streamline" the constitution and help to make it more readable to the Honor System without actually specifying further use of the pledge. This last point is especially important because it seems to be the root of most of the objections. As the constitution stands right now, the clause at the end of the pledge allows an instructor to break the pledge on any piece of work to which it would be appropriate or as he deemed necessary. Therefore, the use of the pledge could not be extended any further except by requiring its use, which is no one's intention and which these amendments are intended to prevent.

In administering the Honor System, the Honor Council is continually looking for ways to extend its services and the morale of our community, not restrict it.

In November, 1956, we conducted a survey of professors. In a written form we studied the resulting report and found, much to our satisfaction (and yours we hope), that the ICC is not necessary on homework, themes, etc. Particularly we found that it is even desirable because of the benefit gained from community work on group housing.

The other two amendments, which are explained in full by the Honor Council on this page, are more controversial.

As far as we can figure them, they aim at vaguely enlarging the scope of Honor System, without actually enforcing any new regulations. Basically, they are probably Good Things, and insofar as they seem harmless, we support them.

**PEANUTS... BY SCHULZ**

**PEANUTS is a popular feature of The Houston Press.**
The Rice Owls opened their 1957-58 season with a 72-45 victory over New Mexico A&M last Monday night. The visitors offered little resistance to the tall Owls who were able to clinch the victory with the second half. rice played as much as the starters, Rice held at 37-35 edge at the half.

Temple Tucker and Tom Rob-
salla were high point men for the Owls with 15 and 16 points respectively. Tucker hit on 11 of 17 attempts from the floor and displayed a dazzling array of shots. He also pulled down 13 rebounds.

The Owls will play Oklahoma City University in the Rice Gym tonight and host LSU Monday, December 9. OCU opened its season with a 21-16 victory over U. of H. and should provide the Owls with a decent test.

The Owls are led by tall Hub Red, who averaged 24 points per game last year.
