SHAKESPEARE AT ITS BEST—Pat Jones, fairy attendants, and reclining ass (Boltoom) from "Midsummer Night's Dream" in Hamman Hall, 8:15 p.m.

'Shakespeare' Opens For Three Nights
By PHYLLIS SKAFF

and HARRISON MARTIN

Shakespeare's delightful comedy of situation and romance, "A Midsummer Night's Dream," will be presented on the Hamman Hall stage tonight, Saturday, and Sunday at 8:15 p.m.

Delightful Entertainment

This fast moving, capricious blend of fantasy and force offers a delightful evening of entertainment at the very least of discerning theatre goers.

Certainly the most elaborate Player's production to date, this latest presentation, under the direction of Thomas R. Preston, incorporates a complete reconstruction of the Hamman Hall stage, and orchestra of distinguished musicians, an imaginative and colorful wardrobe designed and executed by Mrs. Evelyn Norton Anderson, and the delightful (if confusing) magical mischief of Robin Goodfellow. (Courtesy of William Shakespeare.)

Extension of Stage

A dedicated band of sleepless Players has been working night and day to complete the construction of the elaborate and complicated set. This construction has involved the extension of the Hamman Hall stage, and orchestra of distinguished musicians, an imaginative and colorful wardrobe designed and executed by Mrs. Evelyn Norton Anderson, and the delightful (if confusing) magical mischief of Robin Goodfellow. (Courtesy of William Shakespeare.)

Entries Due March 30

Student-Faculty Art Exhibit Set April 1-18

The annual Student-Faculty Art Exhibit, sponsored this year by the Rice Architectural Society in conjunction with the Fondren Library, will be April 1-18 in the library.

The Society will handle the installation of the exhibit and provide that if no one else submits their work, at least they will.

By March 30

All work to be submitted should be accompanied by the artist's name, but for basal or modest Riccoles names can be held upon request. All work to be turned in at the Music Room desk no later than March 30.

The Society invites all faculty members to submit work as well as all graduate and undergraduate students. Any part of work, and also any media, any quality is being sought for the exhibit. Painting, sculpture, ceramic, collage, or anything that can be sold at the door for one dollar.

The Honor Council held a trial during the early part of March. The verdict was unanimous for not guilty.

THESPOILS—Student Senate presidential candidates Norman Reynolds, Harry Lynch and Paul Talcottting gather to discuss campaign promises in the Thresher office. (For platforms see page 2.)

At The Student Senate

TISA, Blanket Tax Removal Discussed
By BARRY MOORE

Thresher Feature Editor

President Wayne Hanson stated in reply to the editorial that appeared last week in the Thresher concerning the TISA meeting that the action of the Rice delegation was directed in opposition to the idea of a candidate running unopposed, rather than in opposition to segregation policies. The editorial merely hinted that it was unique that the Rice candidate was a Negro.

Hanson also reported that the practice of taking up blanket taxes has been discussed with Dean Hines. The policy will be continued, but a student, in his capacity as his card has his picture and signature on it, will have a two or three day period it can be picked up in the Dean's office.

Run-Offs

Syd Nathans reported that his Student Enthusiasm Committee is undergoing thorough organization and will soon be able to begin operation as a long-range year-and-a-half committee. Their first step will be to break down a study of student life into several areas: the freshman year, sophomore, junior and senior years, and the colleges.

The remainder of the year will be spent acquiring winning questions to other students universities and to students currently at Rice. The double advantage of immediate action of this sort lies in the fact that the subjects questions will still be in a salable source (instead of an entirely different summer environment) and the committee will gain experience in polling individuals.

No Revised Constitution

The following organizations have not as yet turned in a revised constitution to the Parliamentary: Baptist Student Union, Der Eskommen, Lutheran Student Association, Kappa Kappa Phi Club, Presbyterian Student Association, Rice Club, Rice Architectural Society, Rice Engr. Society, Sigma Gamma Epsilon.

These revised constitutions were due five months ago. If they are not submitted in the very near future, the organizations involved may be in danger of losing their privileges. Revised Constitutions should be submitted to Glenn Jarvis, Service Award.

Run-Offs will be held Wednesday night, night, Wiest College held the run-off of the same type of rally.

Elections Set Monday

By DENNIS ASHTON

Thresher Staff

Now even the most befogged student cannot continue to ignore the spring crop of election posters sprouting full grown from the campus lawn under the influence of honest-to-goodness spring weather, diligent watering by the campus grounds men, and most important, the fact that elections will be held on Monday.

Vote In Student Center

But despite the apparent extermination of the situation, Monday's elections will be different. All polling will take place in the Student Center basements on voting machines — but you'll still need your blanket tax — and the powers that be have arranged for candidates and students to meet each other in rails to be held on both Friday and Saturday.

At noon on Friday the classes will hold their meetings; Freshmen in the Chemistry Lecture Hall, Sophomores in the Physics Amphitheater, Juniors in room 210 in the Physics Building, and Seniors in room 110 in Anderson Hall.

College Rallies

Friday evening Hamman College will hold an all school rally right after supper. Candidates for Student Association President, Vice-President, Secretary, Treasurer, and Commonwealth-at-large will give short speeches before the floor is opened for a question and answer period. Thursday night Wiest College held its run-off of the same type of rally.

Elections on the Chemistry Building after wards. S.A. candidates will be given an opportunity to publicly present their views as candidates at Baker College.

Expense accounts must be in the S.A. office by 1:00 o'clock Saturday afternoon, and posters must be down by 2:00 the same day.

Run-offs will be held Wednesday night.
Harry Lynch
The president of the Student Association directly affects each member of the student body to the extent that careful consideration should be given to the candidates for office.

I feel that there are certain qualifications in which a candidate must excel in order to be suitable for this office, I am not attempting to convince you here of my own capabilities; I am saying, however, that your choice for this office should be made after some serious thought. Your Student Association President should exhibit leadership, intelligence, enthusiasm, and aggressiveness, as well as other characteristics which could alert mind; for the main functions of the President involve organization, planning, and dealing with people in a variety of different situations.

The President must also be an excellent judge of people, as he personally appoints the members of most of the Senate committees. I think that every responsible voter should examine each candidate with the above ideas in mind.

This year has been the first in which the Administration has worked in unison with the Student Association and the Student Senate has acted jointly. The Student Administration has had to work in unifying the student government as a whole (Continued on Page 8).

Norman Reynolds
The office of President of the Student Association is one of great potential if one goes in the right direction. A prospective candidate can not make wild promises of what he will or will not do if elected.

The President along with his fellow Senate members represents student opinion and in this capacity makes recommendations to the Administration as to what the student body would like.

To be sure, when the occasion calls for it the President must take a firm stand on student desires if the Administration resists to pay heed, since only through impressing the Administration with student wants will anything ever be done. I feel, if the Senate, along with the student body, can show a legitimate and logical need for something, there is a good chance of getting what we want.

It is in this spirit of suggestion and representation that I submit my candidacy for president of the Student Association.

Since I have served as president of the Junior Class and on the Student Senate and have had to come in contact with some of the basic wants and needs of the student class and the student body as a whole. It is on these bases that I have drawn my platform.

(Continued on Page 8).

Paul Talkington
Qualifications and Experience:

1. During my freshman year I worked in both college and class activities. I ran for freshman class president, but was not elected.
2. I served as Sophomore Class President.
3. I am now a member of the Witte College Cabinet.
4. I am also on the Student Senate and have served on the Freshman Orientation Committee, the Rice Sportsmanship Committee, and the Student Senate.
5. The President of the Student Association.
6. I have held a job in student activities which do not need to be disclosed here other than to say that they require several afternoons and at least one evening a week. I feel to use as much of it as is necessary to accomplish the goals of the Student Senate.

There are two main goals that I would like to strive for next year. The first is a great cooperation and union between the Student Senate and the colleges. Both organizations are interested in the welfare of the students and by working in closer union with each other we can accomplish things for the student body.

Second goal is to obtain a more responsible organization, planning, and dealing with people in a variety of different situations.

(Continued on Page 8).

The office of Student Association secretary requires time and the ability to handle clerical work such as typing and correspondence. I have had experience with this kind of work in summer vacations. I have a plenty of time to give to the Student Association.

More important than the routine clerical work is the duty of the S. A. Secretary to keep the student body posted on current Senate actions and activities. The minutes of Senate meetings are now posted on the college bulletin board in the glass case in the student center. If I am elected, I will post minutes also on the bulletin boards in Anderson and will work to get a special bulletin board in the entrance of the Student Center for the convenience of town students. Since the minutes are often long and contain much information of no general interest, I will post in all of these places a summary of the actions taken at each meeting.

Therefore, I am very interested in working in the office of your Student Association. My duties would include keeping all school correspondence up to date, attending the weekly meetings and recording minutes, maintaining the S. A. files, and being on hand any time the president needs help.

Please consider this as my application for the job and accept my promise that I will devote all the time necessary to make a good Student Association secretary.

Wanda Phears
The office of Student Association secretary is a typical secretarial job—typing, filing, and answering the telephone.

For the past three summers I have been employed as a secretary, two years by Mainland Mortgage Company and one by Tennessee Gas Transmission Company, and I plan to work again this summer for Tennessee Gas. This experience in typing, bookkeeping, and office work has been most valuable to me and it is the type of work which I enjoy doing.

The Senate's purpose is to serve you if you will let it. I am not running for office because I believe you should have someone who is willing to work for you.

Mary Ann Boone
The Student Senate as the governing body of your Student Association has the potential of becoming an extremely effective group.

It has made great strides this year toward better student-faculty-administration cooperation, solving of inter-college problems, and solving of all-school problems.

The only way that the Senate can be a really effective governing body is through the cooperation of the students.

Next year will be a year for new ideas, for really forging ahead. You, the students, must cooperate with the newly elected senators. Propose new ideas, submitting problems to them, and serving on Senate committees.

The Senate's purpose is to serve you if you will let it.

"IN THE VILLAGE"
Do You Think for Yourself?

(DIG THIS QUIZ AND SEE WHERE YOU RATE?)

A B C D

Your choice is important.

1. You've just met a girl whose beauty impresses you enormously. Do you (A) ask for a date at once? (B) say, "Aren't you lucky you found me?" (C) find out what she likes to do? (D) say, "How about a swing into spring." The verdict is yours.

2. Violence and death have struck across the country this week. A brutal and perplexing murder has claimed the lives of three middle-aged men on a hike in Starved Rock Park. Gruesome remains of the biggest airplane explosion yet are shown in too-realistic pictures. More bloodshed because of racial prejudice has occurred. It is up to your generation to be well informed on the more serious sides of current events also. The racial problem is in this part of the country and something we cannot ignore. Read Life and get the facts.

3. Also in this week's issue are the latest teenage fads. It's time to trade in your Mickey-Mouse watch for a fancy one. Do you (A) recommend a cigarette whose name has never been displayed to the public. See it all in this week's Life. Some of it will amuse you and some of it will quite painlessly.

4. The statement "It's the exception that proves the rule" can be used to argue for (A) a reverse conclusion, (B) evidence of a healthy disrespect for absolutes. The verdict is yours.

5. Your choice is important. You're swift on the pickup, and you really think for yourself!

6. If you checked (C) in three out of four questions, you're swift on the pickup, and you really think for yourself!!!!

Viceroy

Filter Tip Cigarettes

KING SIZE

The manufacturer asks you to pick the kind of filter cigarette he should make to win the most smokers. Would you recommend (A) a cigarette whose weak taste makes smokers think it has a strong filter? (B) a cigarette that's a filter at just for effect? (C) a cigarette with a filter so good it allows use of rich tobacco?

A B C

Smokers who think for themselves depend on their own judgment—not just on opinion.

The Man Who Thinks for Himself Knows—

ONLY VICEROY HAS A THINKING MAN'S FILTER—A SMOKING MAN'S TASTE!}

FRIDAY, MARCH 25, 1944
Mission Understood

Central to the Campus Ministry is the understanding that the campus is a microcosm of society, and "when you gotta' force underlying student life. The campus. There is an eruptive faculty. «•  .

Students have intensely involved in gaining with their field of interest; as well as the opposite sex and with the citizens, but of a very concen-

gregate. For example, students are particular scene. It is a diverse and tions. Each of these approaches lends itself to a particular type of ministry.

But a campus is not a "par-
ticular" scene. It is a diverse and varied microcosm where the regu-
lar rules of life all apply, but to an unusually intensified de-
gree. For example, students are citizens, of a very concen-
trated community; strongly "nationalistic" in their school spirit; often vehemently loyal to their field of interest; as well as intensely involved in galas with the opposite sex and with the faculty.

These types can all be match-
ed in the wider community, but nowhere does the intensity and enthusiasm match that of the campus. There is an eruptive force underlying student life. The whole thrust of creation is behind the flora and fauna. Students have been called the "growing edge" of society, and "when you grow,Great minds grow in trave-

The Church's function in this situation is similar to that of a child-placement agency, viz., to provide opportunity for "adoption as sons." The Church ever lives in the embrace of Christ's Body to the immature, that in the embrace of Christ's like concern they may grow in grace to the fullness of Christ's stature. In the "growing season" student life the Church must not fail to provide water to assure the Lord a full harvest and His "crop" a full development.

The Church's Campus Mission is often misunderstood. The usual criterion is the number of stu-
dents that a religious group "gets out" to as many affairs as it can produce. The success of the campus ministry is often judged on how many students can be prided from the work they are on campus do to its order to get them involved in the "simpler" activity of Christian fellowship with others who should also be "bilinear the books" but some not be around next year for more such "vollie-whipping."

Simple, unembarrassed, humble and persistent confrontation, be-
ing Christ-like and available, is the foundation of the campus ministry as it is the soul of all Christian ministry. Assurance of His full and sympathetic atten-
tion is what makes Jesus our "ever-present help." The regular availability of a Christian who will lend a sympathetic ear and interested heart, who can understand the peculiar problems of students, is a real ministry. To help immature and liquifying spirits to develop under the wise supervision of life on the campus is "to do on earth our Father's will as angels do above."

Lutheran Student Foundation (The Best Academy) is the topic of the second of the "Mi-

missions" into Christian Faith and Contempo-

Modern Culture." illustrated by a specially selected panel of the West Texas Conference. They will meet in room 106 Anderson Hall at 7 pm.

Top Tennis Stars In Action Here

**Owls Absorb First Loss, Aim For Second League Win**

By Wayne Terwilliger

The Rice Owls went down to their first defeat of the young baseball season Tuesday afternoon, hung with a 9-6 loss by the always troublesome Bearkats of Sam Houston State.

Friday the Owls tangle with Tech on the Rice diamond before conference tilt with the always troublesome Bearkats of A&M.

**Profitable Weekend**

Dell Morgan's crew enjoyed a very profitable weekend by chalk-up victories over Texas Lutheran and Texas Christian, but suddenly went sour during their visit to Huntsville. The Owls outscored A&M, University of Houston, and possibly had a chance against Texas.

**Aim For Second League Win**

The Owls' victorious mile relay four-lay team and a 49.5-lap on the grounds who are finding stimulating careers in the Bell telephone companies.

His "temporary" job became a career

Max P. Beere spent two years at the University of Hawaii while with the U.S. Navy, and received his B.S. degree in Engineering at the University of Utah, where he served as technical lighting director for numerous campus theater and television shows.

On graduating in 1955, he fancied a career in television for himself, but felt that, being married, he couldn't afford to serve a television apprenticeship.

Max had an interview with the Pacific Telephone and Telegraph Company in Los Angeles. "I was offered a position in transmission engineering," he says. "It sounded great—but I really thought of it as a 'temporary' thing until I could get into television."

Max's TV career came sooner than he had hoped. Assigned as telephone commission on all ads sold.

**Cindermen Win First Track Meet Since 1956**

Winning eight of ten running events and scoring points in all but two events Saturday, Rice's 1960 track team won Rice's first track meet in three years, as the Owls outscored a game but out-manned A&M squad 46-84.

High point for the Owls was Mickey Hollingshead, junior sprinter who accounted for 12% points with firsts in the 100 and 220, along with a fine anchor leg on Rice's winning sprint relay team and a 40.3 lap on the Owls' victorious mile relay foursome.

Next high for the Owls was Norman Charlton, winner of both the high and low hurdles, followed by Bobby Weber. Rice won only two field events in which the Owls had such hope of blue ribbons are the broad jump and the javelin.

By TED HERMANN
Thresher Sports Editor

Today the second annual Rice Institute Invitation College
legiate tennis tournament gets underway with the strongest
field in the tournament's short but promising history.

With the entry list headed by Trinity of San Antonio and
Pan American College of the valley, each boasting much international star power as Chuck McKinley and John Sharpe, we see little hope of Rice regaining the team title which it won last year.

The Owl to watch in the tournament should be star senior Neal Marcus, although the experience of last year's singles winner, Art Foust, should not be lost.

This year the tournament is being held on the Rice courts, and we would like to urge the Rice student body to take this opportunity to see some of the best college tennis players in the nation.

The Double Dutch

OWLS Win Volleyball Title

By MILTON NIREN
Thresher Sports Staff

Led by captains Julie Norris and Carolyn Shabo, the OWLS captured their first intramural championship since 1956 by winning the Volleyball title. The OWLS defeated the EBLS (15-13, 15-9, 15-7) after having defeated Progressives (15-7, 15-6) in the semi-finals.

Helen Morgan paved the way for the OWLS' victories with her tremendous serve. The OWLS' squad was rounded out by Mary Lipson, Martha Bredlove and Maggie Garrett.

In the Women's Doubles Bad-minton tourney, Sally Synder-Judy Foulk are in first with Judy Foulk in first with a 4-0 record. However, Synder-Judy Foulk have yet to meet the team of Diane Lose-Mary Fox Coulter, the one-two combo of the Singles tourney.

The Badminton Mixed Doubles tourney got underway last week with Sally Synder-Bob Foulk defeating Linda Ulrich-Betty Schiltz (15-10, 15-10) while Judy Foulk-Betsy Rhodes defeated Kathleen Mur-Rick Little (15-6, 15-10). The ACES led by captain Billy Murray, the Men's Volleyball tourney, defeated the WOO-HA'S (15-12, 15-11). Cox teamed with Larry Stewart, Dan Parrish, Walter Konieczny, Ernie Mills, and Roger McQueary to form a team comparable to last year's Bruties. The WOO-HA'S were captained by Jim May; the team was rounded out by Jack Pietri, Roger Knight, Noel Willis, Bill Irwins, Pete Hoff, Walter Moore and Tony Turner.

The Men's softball tourney gets underway this week with fourteen teams competing for the title. Pressaus pick the Athletics Anonymous of Bob Murray winning the title.

Lynch . . .
system, but I believe that this should be carried out to a greater degree in the coming year. With the initiation of the new Student Senate this year, it was planned that, if possible, the Senate would meet every second week, with the various committees of the Senate meeting alone on the alternate weeks. The purpose of this was to relieve the meetings of the Senate as a whole of routine work.
However, it was at first considered necessary for the Senate to meet every week. The Senate has not yet fully adopted the above plan, but I believe that its adoption would result in more efficient operation. To do this will require a great deal of coordination, and I will endeavor to accomplish this.

Another point worthy of mention concerns obtaining noted and informative speakers at Rice. I refer to such men as Governor Merner, Mr. John Daly, and Dr. Nye, who spoke before the student body recently. Although there has been a scarcity of such events in the past, I believe that through more enthusiastic effort on the part of the Senate, more speakers of this nature can be obtained in the future.

Many of the duties of the Student Association President involve functions which occur at a set time each year and are carried out in a prescribed manner, I am speaking of things as Homecoming, the Charity Drive, Parent Orientation Day, etc. Any improvements to these would, of course, be impossible the nature of better organizations and more effective planning, which I would attempt to accomplish.

There is one condition which will be considered a disadvantage on my part. This is my lack of experience in actual Student Senate work. From attendance at the Senate meetings and some work on Senate functions, one gains a knowledge of the procedures and methods of organization used there. However, I believe that this same knowledge can be attained to an almost equal degree from study of the past minutes of the Senate meetings, attendance at the future meetings this year, and discussion with the present officers, all of which I will do.

The President of the Student Association is the representative of the student body to the administration. He makes the administration on the ideas and viewpoints of the students. He also assumes this position with other schools and groups outside of Rice. It is obvious to the student body that if this is successfully carried out, I will do my best to the best of my ability.

After considering the various qualifications and ideas mentioned above, if you feel that I am best qualified, I would appreciate your vote for Student association President.

Harry Lynch

propose to:
1. Work for a better health service for the student body by involving all students who are interested.
2. Set up a grievance committee that would be composed of all members to meet regularly to air student grumbles.
3. Set up a committee composed of students and teachers, to work in conjunction with the administration on the problems of the school.
4. To expand the revenue of the Student Association by taking part of the profits from the various vending machines around school. This extra money would be used for:
5. Getting more celebrities and speakers to Rice through a functioning Formal committee, and also:
6. To expand the facilities for students in the STUDENT CENTER. This would entail free services on weekends and more forms of entertainment in the center.
7. Establish a better communication system around school so that more people will be informed of activities and issues.
8. Improve school elections by studying methods of other schools.
9. Work for a better freshman orientation program during the math review, and to make them feel a part of Rice, rather than as just of their own colleges.
10. Work at getting the various rally organizations and student body to help and improve school spirit, and
11. Continue the improved relation between the student body and student body by serving as a liaison between face-to-face and students; and finally:
12. To represent the students and the Rice Institute in the best possible manner at all times.

All of the above programs that I have proposed are feasible and could be carried out without too much trouble. But the key to the whole program is unity. Unity only comes from informing the students on the basis of issues; and then and only then can unified student opinion be presented. If elected I shall with the utmost of my abilities endeavor to carry out the proposals I have made.

journey.
At finaly, I would like to see the Rice Homecoming week-end filled with activities such as winter festivals, and fall weekends at other schools which would imply various organizations throwing private "hoop" parties and colleges taking a vital and active part. The success of such activities would be upon the active and whole-hearted participation of the five colleges.
As school chairman, I would work with other schools to bring to top-flight entertainment through an inter-school talent circuit. (2) I would keep abreast of the various entertainment that tour the area so that possibly, some of these events might perform at Rice during the year, and (3) I would attempt to continue to co-ordinate the social affairs on campus in the same responsible manner as my predecessors.

The post of chairman of the Publications Board is not served in the present S.A. Constitution. I would strive to see that an amended one was adopted that the Councilman at large each year is appointed chairman of the Board. I earnestly feel that my experience as "Theerher Editor" this year would serve as a tremendous preparation for this post and I would attempt to place more emphasis on a positive advisory policy then a negative policy.
I would sincerely appreciate your vote and support in the election.
