Arriving in '76; departing in '80, hopefully. 

Do not hallucinate.
The number and variety of clubs at Rice may be confusing at first, but the following list should help you decide which might be of interest to you. The most recent list of club coordinators, sponsors, or presidents is included to aid you in tracking down more information about the clubs.

In case you are interested in starting a new club, the pertinent section of the Constitution of the Student Association is reprinted for your convenience. Club descriptions were taken from their respective constitutions.

Clubs

American Institute of Chemical Engineers. The purpose is to give the chemical engineering student of Rice the opportunity of becoming better acquainted with the aims of the chemical engineering profession. Dr. Harry Deans, sponsor.

American Society of Mechanical Engineers. The purpose is to encourage students to become mechanical engineers. Association for Computing Machinery. The purpose is to promote interest in modern computing machinery. Dr. E.A. Feustel, sponsor.

KTRU 91.7 FM - The Radio

by ERIC SISSON
Publisher/Director
KTRU

Did you know that Rice has its own student-run FM broadcasting station? You did? Oh, yeah — the Activities Fair has happened since I wrote this. Anyway, here is written testimony to whatever you heard there.

We're KTRU, or “the radio,” as a lot of people call us, and we can be heard at 91.7 MHz, in stereo, on your FM dial. As I said, we are operated entirely by Rice students, many of whom had never been near a radio station before coming here. Last year over 70 of us spent from 3 to 50 hours a week “doing radio,” most putting in only three hours. So, as you ask, what's this radio station all about, anyway? Well, for one thing, we're about music. We primarily play rock, but we also have classics and jazz since they are in short supply in Houston. Music involves “d.j.'s” naturally, but our Music Department needs persons to listen to new records, which come in every week, before we put them on the air. We're also about news — national and state-wide, along with a healthy supplement of city and campus reporting. Electronic news is much beyond our control, and we can be heard at 91.7 MHz, in stereo, on your FM dial. As I said, we are operated entirely by Rice students, many of whom had never been near a radio station before coming here.

Campanile — The Yearbook

by TERRI JONES
Campanile Business Manager

The Campanile is the yearbook of Rice University. Our aim is to effectively represent and serve the life of some 3000 individuals. The 1977 Campanile staff is striving to publish an outstanding yearbook — one that you will be proud to own. $75.00 of the total fees each student pays is allotted to the Rice Campanile. This gives an income of approximately $14,000 from the blanket tax. However, publishing costs will exceed this amount by several thousand dollars. In order to make up this financial difference, the Campanile has a business staff which works to bring in advertising income. The more successful the business staff is in acquiring advertising income, the nicer the 1977 Campanile will be. These are paying positions. There are also part-time positions on the editorial staff available. These include photography, layout, copy writing, etc. No experience is necessary. Our only requirement is enthusiasm.

You can help make the 1977 Campanile the best ever. There will be a organizational meeting of the 1977 Campanile staff announced within the first three weeks of school. This year the editor and business manager are, respectively, Wiley Sanders and Terri Jones. In addition to the business and editorial staffs, each college will have its own editor, to be selected at a later date. If you are interested in finding out how you can be a part of the Campanile staff, stop by our studios, strategically located next to Willy's Pub in the basement of the Rice Memorial Center (RMC). We'll be glad to give you a tour almost anytime and answer any of your questions. Please excuse our mess as we still have a little cleaning up to do from The Great Flood.) And, don't forget to tune in us.

Student Association

by WALDO M. MAFFEI
Internal Affairs vice president

Congratulations, you have just become a member of the Rice Student Association. The purpose of the organization is to oversee campus wide organizations and University committees as well as act as a forum for establishing and improving all organizational policies.

The governing body of the Student Association is the Student Senate which is composed of the eight college presidents and a senator elected by each college. There are also six executive officers elected by the executive officers elected at large in a spring election. The association maintains an office on the second floor of the RMC, where you can go with any question or problem which you might have. Our meetings occur each Monday evening at 10 p.m. All are welcome to come by and participate.

Rice Program Council — The Party People.

by Ed Pierce
RPC Chairman

We’re looking for you, if you are looking to enhance your education outside the classroom, and to really enjoy being a student at Rice. We have the resources to produce the events you would like to see on campus: programs in education, recreation, entertainment, as well as minority programs, student services, and special events. We are now developing the programs for the year and you can get your ideas put into action. Sharing ideas and efforts is the key to the success of this year’s Program Council.

The Program Council is made up of eight committees that support one another in producing an activity. The Social Committee works with the social chairman of the colleges to program Homecoming, Rondolet, and coordinate campus entertainment. The Films Committee has made the selections for this semester’s popular films (Love and Death, Fritz the Cat, Billy Jack, Paper Moon, and more) but there are open dates next semester and a special interest series (science fiction, documentaries, classics, etc.) is in the planning stages.

Student Services is working to put out a book of discount coupons for businesses and restaurants near campus. Everything from typewriter rentals to the ski trip to Colorado are sponsored by Student Services. The Tickets Committee has arranged subsidies with the various colleges for Ballet, Opera, theater tickets and discounts ($1.50) at ABC Interstate and Shamrock 6 Theaters. If interest permits, sports tickets (Astros, Aeros, Oilers, Rockets,...) will be handled also.

The Pub Entertainment Committee is arranging entertainment and activities for our campus night spot. There’s also a Concert group and a Lecture Committee that need to know what interests you.

The Social Committee works with your associates and they on you. In your college, there are two people that can help pull things together with the RPC: your college social chairman and your RPC representative. Talk to them and to us. These next couple of weeks we’ll need your help with ideas.

Organization/Activity                  $ per student
Health Service                        27.00

Total Undergraduate Fees              $76.55

Have you ever wondered where that $76.55 in undergraduate fees goes to when it leaves the confines of your wallet? The biggest chunk goes to Health Service and to the colleges; the remainder to the athletic department and the various organizations and activities which benefit all students. The distribution breakdown is compiled at right.

Convenient. In the Memorial Center.
Welcome to Big "H" (and Rice, too)

Upon arrival in Houston the first step in getting to Rice lies in working your way, once it's found, through a maze consisting of signs and traffic. The approach to Rice is impressive, even intimidating if you are not used to it. On campus you become absorbed in unloading, signing up, finding your way around, and seeing the family off. Awaiting surprises can range from roses (courtesy of WRC) to food service.

Social life can vary from being beaten at chess to trying to find the parties. Fortunately, it's not that dismal. Sometimes you win. And of course there are those people who somehow have been granted mysterious powers over portions of your life. Some of them like to talk.

There are also somewhat random manifestations of the spirit of Rice, such as the curve lying on the xy plane in the EE lab, acquiring "character". Analysis of these is not recommended. Some things exist simply to be enjoyed.
Job locating service back in action

The job locating service provided by Phil Berg in the Alumni Office is back in operation after a summer vacation. Mr. Berg, a volunteer, solicits jobs for Rice students from alumni, Houston businesses, and even the classified ads in the Post and Chronicle. *This special Freshman Week edition of the Thresher was envisioned as a tool to aid new students and to enhance their orientation period, while they learn about "the place". Hopefully, this issue has in some way achieved this goal, albeit in a sometimes irreverent fashion. We attempted to include material which seemed important and useful as well as humorous, although it was impossible to include everything we thought relevant.*

Any commentary on this format would be appreciated. Letters to the editor may be dropped by the Thresher office, 2nd Floor, RMC.
