Famous Men From Europe Delivered Lectures.

WELCOMED INSTITUTE INTO UNIVERSITY FOLD

Takes Its Place Among the Great Educational Institutions of the World, Making Houston an Educational Center.

The ceremonies incident to the formal inauguration and dedication of the Rice Institute, the Institute of Liberal and Technical Learning in Houston, are continued to-day. The significance of the establishment of the Rice Institute is emphasized in an unexcelled manner by the character of the men whores from every nation on earth, and who will come from every nation on earth, and who will bring words of welcome from the oldest and greatest institutions of the world. They come as ministers of patriotism and efficiency and goodness, and of the highest grace, to the ceremonies by welcoming and marking the day.

In a season of the episcopal year, in the north, from that time the sun shone, and the weather was delightful. While the sun was shining there was a delightful breeze throughout the day and evening.

The day's ceremonies opened at 8:30 a.m. At the Bender hotel an assembly was held by the president of the institute and the members of his faculty. Among the guests were some of the Houston Chamber of Commerce and the managers of the city. The assembly was followed by a church service at the Majestic theater.

The formal feature of the day, was, perhaps, the dedication of the Rice Institute. The ceremonies were conducted by Dr. Lovett, the head of the institute, and the members of his faculty. The day's ceremonies closed with a banquet at the City Auditorium in honor of the guests and visitors.

When the guests were ushered into the Family chamber at 6:30 in the morning they felt that they were stepping into a world of art, a world of color, a world of influence and honor. The walls were adorned with flags and the floors were carpeted with the latest grace of the Institute.

The program for today's exercises includes the following:

3:00 p.m.—At the Bender hotel an assembly was held by the president of the institute and the members of his faculty.
