Barrington June 5th 1845

To Mr. John Campbell

You will please proceed at your earliest convenience to the City of Austin for the purpose of making an examination of the public buildings at that place. You will then obtain the condition of each separately, make an estimate of the expense which will be requisite to render it...
It is comfortably tenable and report the to me in person the reason to communicate the result to the Hon. Congress at their approaching session, should the same be requisite.

I have the honor to be,

Very Respectfully,

[Signature]

June 6th, 18[?]
