

In the little word very
Do not take the trouble
The letter r is double
This is right for Perry
But not so for very.

When you tell a thing is truly so
This is sure you know
But if it is to the circus, or to see a sight
Then show is very right -

While your handwriting is very much better -

The English language is enough to perplex

any boy who is writing a letter -

With warm weather, and spelling to vex.

And so Mr. Furness found a snick friend

Who did not say NO.

Ire hope he may never a sorrow know.

And that hope joy, & love be ^{his} ~~without~~ end.

But the mail is here to stop this writing

For a week far less inviting -

I believe you are all right on all the rest.
