

inland
to try to
be at
about
Every
thing
Mr. H.
think I
am
would
of course
and every
thing else
my wife
should be.
Don't
set out
of petrice
about his
not

I could stay away from my jewel -
ask Mother if she thinks it would be
a safe experiment. In fact do? I
and myself have been talking seriously
about my making a visit alone in
case he could not arrange matters so
as to go with me - Tell me your
honest opinion -

I received a long interesting
letter from Mother last mail - I
shall write soon. Mother will send
her compliments about my careful
writing if I send any more such
as this -

Let me tell me a joke in your
next letter - Ever since my recommend-
ing the use of Kaltharrion he has

Mixture -
The lines
you all -
I would
be glad to
if I could
see his
hair is
he loves
you. but
I never
note. They
are how
different
from
my Aunt
hair -
I try to
do my
hair - can
do no
more
been using it. The other day Mr. McD.
says "frimmi your cap smells like
Caster oil". Mr. L. "I never used
drop in my life, never will" The morning
after I spilled some Katherin on
the floor, besides leaving a grease
spot - the whole room seemed like
a Caster oil shop - I had heard
long before that half the mixture
was oil - so I said "It is really
true this is Caster oil - "Well! I
never will have any more on
my head" so I cannot persuade
him to let me put any on his
hair - so I have several bottles
all to myself - Didn't one
make a discovery - ?

up on
the house
every time
I go there —
I wish John
Langhorne
her —
all are
I heard.
I cannot
say in
one of the
best in
the world
I believe —
He is good
to me —

Y. declares he will not live in Carolina
longer than next year, if that long. When
Cousin Dan, was here he put a new
motion in Mr. Turner's head. He says
he wants Mr. Turner to become either
Professor or Tutor of Mathematics in
some college in Texas. Mr. T. would
like it above all things he says. I
am convinced that nothing short of
Mathematical employments will ever
satisfy him, it is for that he so loves
Engineering. Farming will never
suit him. He finds no pleasure in
it — Mr. Turner does not
doubt his ability as a Mathematician &
I know if he does not nobody can.

I ain't
looking
for it
D. C. this
week. He
I prob. he
would be
gone
we have
been
getting
along
very well
Amilly
left. I do
the best
I can
and am
satisfied
with it.
and

just now I think the slightest inducement
would cause him to leave here. Of course
he would not like to go to Texas without
any prospect of being occupied.

Mr. Currier is anxious for Cousin
Daniel to go and he does not like
to give him up withal. So I am
glad for L. L. C. to start. Mr. I
thinks no one is example or advice
more worthy of following than Mr. M. D. S.

When I tell you all this you
must not despair of ever seeing me
for that you will do before long.
I tell your Brother if he cannot
arrange so as to go with me I
will pack up and go with Cousin
Dan. How long do you think
