PREFACE

The present volume is an index to *The Rice Institute Pamphlet* (predecessor to *Rice University Studies*) which was published from 1915 to 1961. It is expected that indexes to *Rice University Studies* will be published at a later time.

For ease of use, the contents of this issue are organized in three sections: a cumulative table of contents, an author index, and a subject index. It is hoped that this form of organization will provide adequate access to the numerous articles and other valuable materials of the Pamphlet.

Four individuals are primarily responsible for the preparation of this volume and it is a pleasure to recognize their contributions: Deni Seinfeld Goodman, Mimi G. Cohen, Linda Faye Williams, and Beth C. Thomas.
