Dear Captain Baker,

I have here with:

250 shares of the Reed Roller Bit Co. for $5000.

Both certificates endorsed to the Institute. This is a gift to the Indomitable Fund of the Institute. The value of the shares is one hundred and twenty thousand dollars. The income annually will rise eight to twenty thousand dollars and it is my belief that the stock will appreciate in value. It is expected that the Trustees will dispose of the stock whenever they deem it best for the interest of the Institute.

Dear Fred,

I do not get just what you want. The large companies in the oil business have large supply houses of their own in districts where they have considerable interests. And gasoline filling stations are in all districts north, whole. It occurs to me that you have worked for several of the major companies and your best chance would be with people acquainted with you. As you know, I have not been active in business for many years and out of touch with most of our contacts. How am I sufficiently advised of what other people are doing and what suggestions you contemplate to offer any suggestions. Usually these companies have young men in their employ who have been with them from the start or advancement while opportunities come. So that to get a position in competition with them would be very difficult. I am glad to see you are anxious to get on and I hope you will move. Opportunities will come if you act and watch for them.

I have your letter and sketch of land. I cannot do any thing with the money you wish. I cannot do any thing with the money I have until you get the consent of the D. Rice interest in the land and what price and terms they want. I have already agreed to let you have my interest in ten acres but of course I would not dispose of my interest unless you succeeded in getting theirs. 

Sincerely Yours

Dear Mr. Neuge,

I have your sketch of a triangular piece of
The Andrews survey, whereby it seems that Mr. Gardner would like to
purchase. I believe it would be well to sell this piece to
him on a basis of 200$ per acre—without any reservations
it would be difficult to sell to any one else. Please
advise me how many acres lie West of the Railroad.
