Dear Infance

Thank you very much for your most
interesting & careful letter.

I have written to the Editor of the Times.

By all means let me see Proof of the
Christian.

I am glad to have your memo about honey.

I doubt whether your dominicalism theory is quite
physiologically correct. I suppose I believe

we by taking more bees to the quats
alone & by the or newer bees alone

make honey.

Yours by the way

Yours faithfully

W. T. Stead
